Additionally he finds details in the description of the Hanging Gardens of Babylon considering the construction and functionality of the Grand Gallery. He discovers an unexpected relationship between the Great Pyramid and its chambers and the images of Egyptian gods such as Isis, Serapis, Geb, Nut, Nephthys and others. The book presents the reader with an entirely new understanding of images of the ancient gods which symbolically describe the functionality of the Great Pyramid. It also highlights the Great Pyramid's central role in the development of human civilization. Although this book uses technical terms and references ancient Sumerian texts, it is written in order to be accessible to the common reader.
