Theis,Mark G. Terwilliger,2021-09-21 In this book we explore the history of college football and in particular the mythical college championship from 1869 to the present day For several years different media outlets took it upon themselves to declare a national championship which led to nothing short of confusion In one year four different teams were named champion This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series or BCS Initially the BCS selection was based on a formula that incorporated several polls and computer models However the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive at the final selection did very little to quiet the controversy This led to the creation of a selection committee to choose the four best teams to compete in a four team playoff Again controversy has ensued with many questioning the politics and nebulous capricious nature of the criteria We have created an alternate model which we have dubbed the weighted wins system that defines a simple unbiased and consistent mechanism for evaluating and comparing the records of the teams in the NCAA s Bowl Subdivision We have compared the results of the weighted wins model against forty years of actual game results and found that it generates very similar outcomes The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for all members of the Bowl Subdivision      *Great Teams in College Football History* Luke DeCock,2005-12-13 Discusses ten of the greatest college football teams ever and explains what it was that made each one so great      **Lists of College Football Team Records** Source Wikipedia,2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online Pages 30 Chapters List of 100 point games in college football List of 500 point seasons in college football List of most consecutive games scoring in NCAA football List of NCAA Division I FCS playoff appearances by team

 FBS is currently the highest division of play in college football However this nomenclature and these categories of divisional  
 play have only existed since 2006 and 1978 respectively Prior to the formation of the NCAA in 1906 there was no  
 differentiation between the level of play from one college to another and thus all intercollegiate teams can be thought of as  
 having played in the same division Likewise even after the formation of the NCAA there was no differentiation into divisions  
 until 1956 when play was separated in the upper University division and lower Collegiate division In 1973 a three division  
 reorganization occurred placing teams into NCAA Division I highest Division II or Division III lowest In 1978 Division I was  
 further subdivided into Division I A highest and Division I AA In 2006 these subdivisions were renamed Division I **Honor  
 on the Line** Robert J. Scott,Myles A. Pocta,2012-07 It was the fall of 1940 and Americans turned to college football for relief  
 from the turbulent world around them The Depression still had its grip on the nation and across the Atlantic the Battle of  
 Britain raged As war crept closer every day the nation s first peacetime draft called Americans to the defense of the country  
 While the great Tom Harmon of Michigan set new standards on the gridiron on other fields black stars struggled for the right  
 to play At Stanford coaching genius Clark Shaughnessy reinvented the game and in the process engineered the greatest  
 turnaround in the history of college football But the team everybody was talking about was Cornell Fueled by the most  
 powerful offense in the country the Big Red dominated the national rankings until on a snowy field at Dartmouth they eked  
 out a win with a touchdown on the last play of the game or did they When it came to light that the touchdown had been  
 scored on a grievous error by the officials Cornell undefeated and in the race for the national championship faced a  
 wrenching decision The 1940 season was one of the most exciting on record and one that taught America about the values  
 that really matter **Pigskin Warriors** Steven Travers,2009-10-16 From the leather helmet era to the media circus of

R.

Dayton,2007-12 For many decades people from around the country have debated about which college football program is the all time best In South Bend and in southern California Austin and Ann Arbor Tallahassee and Tuscaloosa and in many other places around the country this debate rages As part of these debates folks often cite reasons why their particular college football program is the greatest of all time Often times these discussions become arguments Many reasons are given to defend ones point of view Some say that a teams overall winning percentage is the deciding factor of who the greatest college football program is of all time Others say that in order to determine the best you must look at how many national championships a school has won Still others argue that because their team has the most bowl victories or most Heisman Trophy winners or the most conference championships or the most top 5 finishes in the polls or the most NFL Hall of Fame inductees that their team they follow and love is the greatest college football team of all time To be sure there are and should be several critical factors and elements that go into deciding which programs are the best of all time In order to settle the argument once and for all of who the greatest college football programs are of all time I have developed a scoring system that encompasses all of the factors discussed above and many more that is used to rank the teams Based upon official NCAA

statistics and records and substantiated fact the attempt has been made to substantiate with a non biased viewpoint once and for all who the greatest Bowl Subdivision formerly Division 1 A college football programs are of all time The following factors are used in the scoring system All time Winning Percentage All time Wins Final Poll Points National Championships Non BCS and National Championship Game Bowl Results BCS Bowl Games National Championship Bowl Games Conference Championships Heisman Trophies College Football Hall of Fame Inductees Special Award Winners Consensus 1st Team All Americans NFL Hall of Fame Inductees NFL First Round Draft Picks Strength of Schedule Attendance Graduation Rates Football Revenue Major Probation Infractions negative points Each of these scoring categories will be discussed in depth Included in the discussion will be the point weight assigned to each category and a brief description of exactly what information is used for the particular category All 119 current members of the Bowl Subdivision formerly Division 1 A are ranked according to the entire history of college football In addition the top 30 programs are profiled in depth As mentioned above only current Bowl Subdivision formerly Division 1 A schools are included in these ratings The point has to be made however that there are several Ivy League schools that have such rich histories and success in the past that they would be positioned very high within these ratings In the end however those schools could not be included in this scoring system since they have not played against major college football competition on a regular basis since the 1970 s and have played in a lower division than the current Bowl Subdivision members since 1981
