Quality Assessment and Enhancement in

Higher Education in Africa Peter Neema-Abooki, 2022-12-16 This book explores quality assessment and enhancement in higher education in Africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement. The book demonstrates that technological and socio-economic trends, innovations and inventions of the twenty-first century demand that additional attention be placed upon education for national, regional and international development. Since conventions for quality assessment and enhancement need to be defined and systematic structures constructed to develop quality practices, the book shows how quality in higher education within Africa has been established and advanced to provide a framework for monitoring, auditing and reviewing assessment and enhancement. Though the book considers African complexities and diversity, it incorporates global trends and utilises an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental Africa and beyond. Illustrating why quality assessment and enhancement should be embraced in all aspects including inputs, processes, outputs and outcomes in educational settings globally, this book will be of interest to policymakers and scholars in the fields of Higher Education Quality and Global Studies, African Education, African Studies and Management and Administration, Leadership and Professional Development Studies. **Quality and Qualities: Tensions in**

Education Reforms Clementina Acedo, Don Adams, Simona Popa, 2012-09-07 *Quality and Qualities: Tensions in Education Reforms* is a provocative call for understanding and further exploring the elusive concept of quality in education. Although education quality has acquired high priority in the past few decades, the multiplicity of conceptualizations of quality also reflects the concerns and foci of multiple stakeholders. Coming to an understanding of quality education involves careful analysis of the context from which any particular reform or program emerges and of the continuing struggle to define and achieve it. Two main questions persist: who benefits from particular policies focused on quality? And what are the potential tradeoffs between a focus on quality, equitable distribution of education and inclusion of various traditional expectations? This book explores notions of quality as understood within various systems of national formal and nonformal education. Also, it considers the tensions that arise with the introduction of new standardized notions of quality in relation to international measures and educational reforms in developing countries. In all cases, specific national issues and concerns compete with global agendas. Challenges to quality that are given particular attention in the book chapters include changing definitions of quality, high expectations for education and issues with implementation, and the introduction of English as a means to achieve quality in a globalizing world. Special attention is also given to possible actions that support a more equitable education without ignoring the requisite of quality. The final chapter suggests three models/choices for seeking higher quality and guiding the educational future of nations. Major Challenges Facing Higher Education in the Arab World: Quality

Assurance and Relevance Adnan Badran, Elias Baydoun, John R. Hillman, 2019-03-25 This book focuses on two crucial issues that need to be addressed as a matter of urgency by universities in the Arab region: namely, a conducting independent

assessments of the quality of their teaching research administration governance and planning and b determining the relevance of their teaching research and societal impacts Although well established around the world in manufacturing industries and private sector service industries including the research and commercialisation arms of the major universities and research institutes it is only in recent years that quality assurance QA assessments have started to be applied to most aspects education Several Arab universities are adopting various forms of QA but some variants are little more than bureaucratic box ticking exercises with minimal commitment by staff to the ultimate aim of continuing self improvement This book will be of interest to senior management at faculty and departmental level and above in all Arab universities specifically and more generally in Islamic institutions of higher education Senior management in other universities especially in the developing world will benefit from its analyses and recommendations
