Quality Assurance in Higher Education Roger Brown, 2004 This text provides an analytical account of the changes to quality assurance of UK universities and colleges from 1992 to 2003

Quality Assurance in Higher Education Don F. Westerheijden, Bjorn Stensaker, Maria Joao Rosa, 2007-09-04 By bringing together leading experts on quality assurance in higher education from seven countries from Europe the USA and South Africa this volume intends to go several steps further than most publications on quality assurance First it brings together views from micro to macro levels in the multi actor space showing how quality assurance impacts the higher education system throughout Second it links quality assurance solidly to issues of regulation translation rather than mechanical implementation and transformation instead of being only focused on quality assurance as a single policy instrument Third it uses this broad range of research insights to criticize current practices explaining for instance why sometimes people have difficulty in tracing any concrete effects of all initiatives taken in this area Finally the book offers proposals for better focusing quality assurance in the future to address institutional challenges better The general purpose of the book then is to give an engaged academic reflection on how quality assurance is embedded in higher education and in a dynamic way to assess its impacts and potential improvements

Quality Assurance in Higher Education Roger Brown, 2004-02-19 Along with funding quality assurance has become one of the major issues in higher education today This text provides an analytical account of the changes to quality assurance of UK universities and colleges from 1992 to 2003 It documents the shift from institutional self regulation to increased involvement of the state and examines the accompanying debate about the purposes forms and ownership of quality assurance as well as a wider consideration of the best means of regulating professional activities All the key developments and issues of quality assurance are covered including the background to the current debates the evolution of the post 1992 regime the role of the Higher Education Quality Council HEQC changes to assessment and the creation of a single system the formation and likely evolution of the Quality Assurance Agency QAA Roger Brown writes with an authority derived from his varied experiences in quality assurance He argues that the external quality regime to date has provided poor value for money and draws from the lessons learnt during the 1990s to assess the conditions required for effective regulation

direction of higher education policy This section of the book incorporates the move towards political devolution in the United Kingdom and examines what is different and what is similar about higher education policy making in Scotland and Wales in comparison to England Thirdly the book observes the process of policy making and change in relation to critical issues the funding of higher education the research assessment exercises the quality assurance regime and the widening participation agenda In effect it examines policy making in action *Quality Assurance and Institutional Transformation* Shuiyun

This book explores quality assessment and enhancement in higher education in Africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement. The book demonstrates that technological and socio-economic trends, innovations and inventions of the twenty-first century demand that additional attention be placed upon education for national, regional and international development. Though the book considers African complexities and diversity, it incorporates global trends and utilises an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental Africa and beyond.
