Protocols for High-Speed Networks VI Joseph D. Touch, James P.G. Sterbenz, 2013-03-14. 1. This year marks the 10th anniversary of the IFIP International Workshop on Protocols for High Speed Networks PfHSN. It began in May 1989 on a hillside overlooking Lake Zurich in Switzerland and arrives now in Salem, Massachusetts, 6 000 kilometers away and 10 years later in its sixth incarnation but still with a waterfront view, the Atlantic Ocean. In between it has visited some picturesque views of other lakes and bays of the world: Palo Alto 1990, San Francisco Bay, Stockholm 1993, Baltic Sea, Vancouver 1994, the Strait of Georgia and the Pacific Ocean and Sophia Antipolis I Nice 1996, the Mediterranean Sea. PfHSN is a workshop providing an international forum for the exchange of information on high speed networks. It is a relatively small workshop limited to 80 participants or less to encourage lively discussion and the active participation of all attendees. A significant component of the workshop is interactive in nature with a long history of significant time reserved for discussions. This was enhanced in 1996 by Christophe Diot and William Allid Dabbous with the institution of Working Sessions chaired by an animator who is a distinguished researcher focusing on topical issues of the day. These sessions are an audience participation event and are one of the things that makes PfHSN a true working conference.

Quality of Service - IWQoS 2001 Lars Wolf, David Hutchison, Ralf Steinmetz, 2003-05-15 Welcome to IWQoS2001 in Karlsruhe Quality of Service is a very active research field especially in the networking community Research in this area has been going on for some time with results getting into development and finally reaching the stage of products Trends in research as well as a reality check will be the purpose of this Ninth International Workshop on Quality of Service IWQoS is a very successful series of workshops and has established itself as one of the premier forums for the presentation and discussion of new research and ideas on QoS The importance of this workshop

series is also reflected in the large number of excellent submissions. Nearly 150 papers from all continents were submitted to the workshop, about a fifth of these being short papers. The program committee were very pleased with the quality of the submissions and had the difficult task of selecting the relatively small number of papers which could be accepted for IWQoS2001. Due to the tough competition many very good papers had to be rejected.
