Theoretical Perspectives in Environment-Behavior Research Seymour Wapner, 2000

Following upon the Handbook of Japan United States Environment Behavior Research published by Plenum in 1997 leading experts review the interrelationships among theory problem and method in environment behavior research The chapters focus on the philosophical and theoretical assumptions underlying current research and practice in the area and link those assumptions to specific substantive questions and methodologies

Japan at the Millennium David W. Edgington, 2003

Japan today is at an important historical juncture Buffeted in recent years by rapid economic social and political change yet still very much steeped in custom and history the nation has become an amalgam of the traditional and the modern As a result the country has become increasingly difficult to categorize How are we to represent today s Japan effectively and fairly

predict its future This critical multi disciplinary collection explores the convergence of past and future in contemporary Japan Contributors comment on a wide range of economic socio cultural and political trends such as the mobilization of Japanese labour the burgeoning Ainu identity movement and the shifting place of the modern woman and conclude that despite the rapid changes many of the traditional facets of Japanese society have remained intact institutional change they assert is unlikely to occur quickly and Japan must find alternate ways to adjust to twenty first century pressures of global competition and interdependence A pleasure to read this broad volume will be welcomed by upper level undergraduates graduates and specialists in Japanese studies *Handbook of Japan-United States Environment-Behavior Research* Jack Demick,T. Takahashi,Seymour Wapner,C. Takiji Yamamoto,2013-11-11 This volume is an outgrowth of research on the relations between human beings and their environments which has developed internationally This development is evident in environment behavior research studies conducted in countries other than the United States See Stokols and Altman 1987 for examples of such work in Australia Japan France Germany the Netherlands Sweden the United Kingdom the former Soviet Union and Latin and North America The international development of this research area is also evident in the establishment of professional organizations in different countries such as the Environment Behavior Design Research Association EDRA in the United States the Man Environment Research Association MERA in Japan the International Association for People Environment Studies IAPS in Great Britain and the People and Physical Environment Research Association PAPER in Australia This volume focuses on environment behavior research within Japan and the United States as well as cross cultural studies involving both countries As we note in detail in Chapter 1 the conference on which the work presented herein is based was preceded by three Japan United States conferences on environment behavior research the first of which took place in Tokyo in 1980 As currently conceived the present volume stands alone as a compendium of a Significant proportion of cross cultural research on environment behavior relations in Japan and the United States that has been developing over the last 15 years As such we envision the volume as a basic interdisciplinary reference for anthropologists architects psychologists Sociologists urban planners and environmental geographers **Social Psychology and Everyday Life** Darrin Hodgetts,Ottillie Stolte,Christopher Sonn,Neil Drew,Stuart Carr,Linda Waimarie Nikora,2020-02-04 This ground breaking and innovative textbook offers a uniquely global approach to the study of social psychology Inclusive and outward looking the authors consciously re orientate the discipline of social psychology promoting a collectivist approach Each chapter begins with an illustrative scenario based on everyday events from visiting a local health centre to shopping in a supermarket which challenges readers to confront the issues that arise in today's diverse multicultural society This textbook also gives a voice to many indigenous psychologies that have been excluded from the mainstream discipline and provides crucial coverage of the colonization experience By integrating core social psychology theories and concepts with critical perspectives *Social Psychology and Everyday Life* provides a thought provoking introduction suitable for both undergraduate and postgraduate

students of social psychology and community psychology It can also be used by students in related subjects such as sociology criminology and other social sciences Accompanying online resources for this title can be found at bloomsburyonlineresources.com/social-psychology These resources are designed to support teaching and learning when using this textbook and are available at no extra cost

Social Representations in the Social Arena Annamaria Silvana De Rosa, 2012 Social Representations in the Social Arena presents key theoretical issues and extensive empirical research using different theoretical and methodological approaches to consider the value of social representation theory when social representations are examined in real world contexts This comprehensive text brings together international experts to explore the relevance of a variety of applications of social representation theory in both institutional and organizational settings and discusses how social representation theory compares with other constructs of social psychology Areas covered include justice leadership health and mental illness intergroup relations identity politics environment and tourism economics This book will appeal to a range of academic researchers and practitioners from a variety of fields who are concerned with the application of social representation theory to various contexts as a heuristic tool for addressing and understanding relevant societal issues faced with social demand
