Quand L'Allemagne Pensait Le Monde Grandeur Et Decadence D'une Geopolitique:

Quand l'Allemagne pensait le monde Michel Korinman, 1990 La 4e de couverture indique Le livre de Michel Korinman a aujourd'hui une importance capitale un moment où en fait on va beaucoup parler de géopolitique mais sans vouloir l'admettre comme en Allemagne ou au contraire par effet de mode sans réflexion sérieuse et avec l'illusion dangereuse qu'il s'agit d'une science il analyse méthodiquement comment est apparue pour la première fois la géopolitique Il permet enfin d'y voir plus clair dans l'origine de ce terme qui est encore objet de polémiques Mais pour Korinman germaniste de métier mais aussi pour une grande part de culture il ne s'agit pas de mener une réflexion d'histoire géographique Il s'agit d'abord de l'Allemagne et de ses problèmes géopolitiques Pourquoi ce mot nouveau au lendemain de la défaite de 1918 alors que l'Université depuis des décennies enseignait la géographie politique Qui sont ces premiers géopoliticiens Comment leurs discours ont-ils valu avec la montée du nazisme au fur et mesure des projets d'expansion d'Adolf Hitler puis avec ses conquêtes mesurées jusqu'à la catastrophe dans laquelle il entraîna le peuple allemand La géopolitique est-elle indissociable du national-socialisme Questions capitales non seulement pour les Allemands qui n'avaient pas encore osé se les poser mais aussi pour l'ensemble des Européens y compris les Russes qui sont confrontés de multiples problèmes géopolitiques ceux de l'Allemagne n'étant certes pas les moindres

Geopolitics and the Quest for Dominance Jeremy Black, 2015-11-25 History and geography delineate the operation of power not only its range but also the capacity to plan and the ability to implement Approaching state strategy and policy from the spatial angle Jeremy Black argues that just as the perception of power is central to issues of power so place and its constraints and relationships is partly a matter of perception not merely map coordinates Geopolitics he maintains is as much about ideas and perception as it is about the actual spatial dimensions of power Black's study ranges widely examining geography and the spatial nature of state power from the 15th century to the present day He considers the rise of British power geopolitics and the age of Imperialism the Nazis and World War II and the Cold War and he looks at the key theorists of the latter 20th century including Henry Kissinger Francis Fukuyama and Samuel P Huntington Philip Bobbitt Niall Ferguson and others

The Tainted Source John Laughland, 2016-05-19 An ideology is sweeping Europe and the world which threatens democracy and the rule of law The post-national ideology which posits that nation states are no longer capable of running their own affairs in a modern interdependent economy confuses the

constitution of a state with the power of its government and ignores the importance of the sense of community essential to any democratic debate A rigorous synthesis of historical and philosophical arguments THE TAINTED SOURCE is a powerful appeal in favour of the constitutional foundations of the liberal order Post national structures multinational companies region states and supranational organisations such as the European Union are corrosive of liberal values to such an extent that John Laughland makes it devastatingly clear that the post national ideology formed a crucial core of Nazi economic and political thinking Like the European ideology of today it was predicted on dissolving the nation state and the liberal order

Merkl, 2010-11-01 **A World Without Meaning** Zaki Laidi, 2005-08-10 This sophisticated book by internationally renowned theorist Zaki Laidi tackles the problem of individual identity in a rapidly changing global political environment He argues that it is increasingly hard to find meaning in our ever expanding world especially after the collapse of political ideologies such as communism With the breakup of countries such as the former Yugoslavia it is clear that people are now looking to old models like nationalism and ethnicity to help them forge an identity But how effective are these old certainties in a globalized world in a permanent state of flux **An Historical Geography of Europe** Robin Alan Butlin, Robert A. Dodgshon, 1998 An Historical Geography of Europe represents the first multi authored comprehensive study on the subject It provides the reader with an analytical and explanatory account of European historical geography from classical times to the modern period including the vast changes to landscape settlements population and in political and cultural structures and character that have taken place since 1500 The book takes account of the vast volume of relevant research and literature that has been published over the past two or three decades in order to achieve a unique coverage and synthesis of this very broad range of evidence and opinion and has tried to engage with many of the main themes and debates to give a clear indication of changing ideas and interpretations of the subject This book brings together British and European authors from a number of disciplines who have considerable distinction in the various fields of historical geography and related fields including a significant number who have already written on the wider problem of European historical geography It is amply illustrated with maps and diagrams to present many of the issues in a visual form *Géopolitique du monde contemporain - Ebook epub* Vincent Adoumié, Christian Daudel, Arnaud Pautet, Christian Bardot, Corentin Sellin, Daniel Mendola, Lucien Chretien-Brison, 2014-08-27 La géopolitique n'est pas qu'une simple contraction des deux mots géographie et politique Elle va bien au-delà et se veut un outil efficace de décryptage du monde contemporain Mais il faut en trouver les principales clés de lecture afin de pouvoir mieux comprendre les enjeux stratégiques économiques et humains de notre planète Géopolitique du monde contemporain traite de tous ses aspects géographiques enjeux sociaux humains géoéconomiques géostratégiques et environnementaux de la géopolitique d'une manière claire et

The First World War and German National Identity Jan Vermeiren, 2016-07-18 The First World War and German National Identity is an original and carefully researched study of the coalition between Imperial Germany and Austria-Hungary during the First World War. Focusing on the attitudes taken by governmental circles, politically active groups, intellectuals and the broader public towards the German-speaking population in the Habsburg Monarchy, Jan Vermeiren explores how the war challenged established notions of German national identity and history. In this context, he also sheds new light on key issues in the military and the diplomatic relationship between Berlin and Vienna, re-examining the German war aims debate and presenting many new insights into German-Hungarian and German-Slav relations in the period. The book is a major contribution to German and Central European history and will be of great interest to scholars of the First World War and the complex relationship between war and society.

Fascist Europe Monica Fioravanzo, 2024-02-02 By shedding light on an often overlooked aspect of Fascism and Nazism, this book examines the ambitious plans for a new European order conceived by Italian intellectuals, historians, geographers, politicians and even student representatives of the Fascist University Groups (GUF). Through expert reconstruction of the debate on this envisaged order's development, Monica Fioravanzo opens a window into the theoretical arena that shaped relationships between Germany, Italy and the other Axis nations and provides insight into how the project was anticipated to unite the Fascist regime in Italy and the Nazi Reich.

Leggere il tempo nello spazio Karl Schlögel, De l'utilité d'un droit international en matière de terrorisme nucléaire maritime Frédérique Vallon, 2012-11-15 Avec notre époque, le monde maritime a connu plus d'un bouleversement. Comment envisager l'avenir de ce droit de la mer, la lumière de l'histoire du XXe siècle, l'heure où la piraterie, le terrorisme et la pollution s'imposent comme les parasites dominants du paysage maritime ? Comment gérer le risque de dérive du terrorisme actuel vers une utilisation d'armes de destruction massive ? Cet ouvrage soulève ainsi la question du financement du terrorisme nucléaire par l'argent de la corruption et montre l'existence d'un lien direct entre la mondialisation, le terrorisme et ses revendications identitaires et s'interroge quant aux interventions gouvernementales nécessaires par de telles menaces nucléaires. Participant à un groupe de travail de l'Association internationale du droit nucléaire sur les problèmes de sécurité, Frédérique Vallon livre un troisième volet consacré au droit maritime, on ne peut plus rigoureux. S'inscrivant entre le droit international public, la sociologie et l'investigation, son analyse complète, nuancée et d'actualité brûlante vient contribuer à la difficile tâche d'une démocratie mondiale en répondant aux défis sécuritaires du XXIe siècle.

Les espaces de la politique Paul Claval, 2010-06-23 Le pouvoir mobilise la force et la menace qu'elle fait peser Il repose sur la légitimité ou s'appuie sur la domination économique et l'influence idéologique Puisque la coercition impose des décisions des individus raticents mais implique une surveillance permanente une autorité acceptée fonctionne moindres coûts Ainsi les jeux du pouvoir d'abord diffus se sont concentrés dans un système politique qui coiffe, contrôle et dirige la société civile C'est partir de la Renaissance que l'état souverain s'est structuré en s'appuyant sur le territoire sur la frontière et sur la capitale Dès lors la vie internationale repose sur des équilibres de dissuasion Aujourd'hui le monde est remodelé par la mondialisation de l'économie la facilité accrue des déplacements et des communications et le désir de pacifier la vie internationale L'état national perd ses prérogatives les instances de décision se multiplient et les citoyens pressent davantage sur la politique intérieure et étrangère On parle de gouvernance Toutefois les relations internationales ne parviennent pas à s'affranchir de la dissuasion Dans un ouvrage résumant trente ans de réflexion Paul Claval propose une synthèse magistrale renouvelant la géographie politique et la géopolitique Paul CLAVAL est professeur titulaire à l'Université de Paris Sorbonne
