Americanist Culture History R. Lee Lyman, Michael J. O'Brien, Robert C. Dunnell, 2013-03-07 Americanist Culture History reprints thirty nine classic works of Americanist archaeological literature published between 1907 and 1971 The articles in which the key concepts and analytical techniques of culture history were first defined and discussed are reprinted with original pagination and references to enhance the use of this collection as a research and teaching resource The editors also include an introduction that summarizes the rise and fall of the culture history paradigm making this volume an excellent introduction to the field's primary literature

Classic Anthropology John William Bennett, Classic Anthropology is Bennett's label for the work produced by anthropologists during the period 1915-1955 which many believe represents the most productive era in the discipline's history It is also one that can never be repeated given the fact that most of anthropology's basic data the ideas and customs of tribal peoples have been extinguished or greatly transformed by modernization and nationalization The book is composed of some fifteen essays Among the issues examined are the emergence of a functionalist viewpoint in ethnology the difficulties of developing a theory of human behavior because of the focus on culture the search for concepts of culture to serve specialized needs the neglect of social psychology by the culture and personality field how value judgments emerged willy nilly or conversely were neglected in ethnological research how applied anthropology was challenged by Action Anthropology and how the interdisciplinary anthropology of the late 1940s was submerged in the postwar effort to return the discipline to traditional roots Individual anthropologists whose work is examined include among others Bronislaw Malinowski Leslie Spier Alfred Kroeber Ralph Linton Margaret Mead Ruth Benedict Clyde Kluckhohn Gregory Bateson and Walter Taylor

Anthropology Stanley R. Barrett, 1996 The second phase centred around the 1960s as new theories sprang up and methods were refined in order to cope with doubts that a scientific study of culture had been established and with the recognition that change and conflict were as prevalent as stability and harmony The third phase began in the 1970s and continues today dominated by postmodernism and feminist anthropology One of my central arguments will be that beginning in phase two and growing rapidly during phase three a gap has emerged between our theories and our methods For most of the history of anthropology our methods have talked the language of science

The Life Informatic Dominic Boyer, 2013-05-15 News journalism is in the midst of radical transformation

brought about by the spread of digital information and communication technology and the rise of neoliberalism What does it look like however from the inside of a news organization In *The Life Informatic* Dominic Boyer offers the first anthropological ethnography of contemporary office based news journalism The result is a fascinating account of journalists struggling to maintain their expertise and authority even as they find their principles and skills profoundly challenged by ever more complex and fast moving streams of information Boyer conducted his fieldwork inside three news organizations in Germany a world leader in digital journalism supplemented by extensive interviews in the United States His findings challenge popular and scholarly images of journalists as roving truth seekers showing instead the extent to which sedentary office based screenwork such as gathering and processing information online has come to dominate news journalism To explain this phenomenon Boyer puts forth the notion of digital liberalism a powerful convergence of technological and ideological forces over the past two decades that has rebalanced electronic mediation from the radial or broadcast tendencies of the mid twentieth century to the lateral or peer to peer tendencies that dominate in the era of the Internet and social media Under digital liberalism an entire regime of media knowledge and authority has become integrated around liberal principles of individuality and publicity both unmaking and remaking news institutions of the broadcast era Finally Boyer offers some scenarios for how news journalism will develop in the future and discusses how other intellectual professionals such as ethnographers have also become more screenworkers than fieldworkers

Machine Learning in Clinical Neuroscience

Victor E. Staartjes, Luca Regli, Carlo Serra, 2021-12-03 This book bridges the gap between data scientists and clinicians by introducing all relevant aspects of machine learning in an accessible way and will certainly foster new and serendipitous applications of machine learning in the clinical neurosciences Building from the ground up by communicating the foundational knowledge and intuitions first before progressing to more advanced and specific topics the book is well suited even for clinicians without prior machine learning experience Authored by a wide array of experienced global machine learning groups the book is aimed at clinicians who are interested in mastering the basics of machine learning and who wish to get started with their own machine learning research The volume is structured in two major parts The first uniquely introduces all major concepts in clinical machine learning from the ground up and includes step by step instructions on how to correctly develop and validate clinical prediction models It also includes methodological and conceptual foundations of other applications of machine learning in clinical neuroscience such as applications of machine learning to neuroimaging natural language processing and time series analysis The second part provides an overview of some state of the art applications of these methodologies The Machine Intelligence in Clinical Neuroscience MICN Laboratory at the Department of Neurosurgery of the University Hospital Zurich studies clinical applications of machine intelligence to improve patient care in clinical neuroscience The group focuses on diagnostic prognostic and predictive analytics that aid in decision making by increasing objectivity and transparency to patients Other major interests of our group members are in medical imaging

and intraoperative applications of machine vision

Investigating Archaeological Cultures Benjamin W. Roberts, Marc

Vander Linden, 2011-06-04 Defining culture is an important step in undertaking archaeological research Any thorough study of a particular culture first has to determine what that culture contains what particular time period geographic region and group of people make up that culture The study of archaeology has many accepted definitions of particular cultures but recently these accepted definitions have come into question As archaeologists struggle to define cultures they also seek to define the components of culture This volume brings together 21 international case studies to explore the meaning of culture for regions around the globe and periods from the Paleolithic to the Bronze Age and beyond Taking lessons and overarching themes from these studies the contributors draw important conclusions about cultural transmission technology development and cultural development The result is a comprehensive model for approaching the study of culture broken down into regions Russia Continental Europe North America Britain and Africa materials Lithics Ceramics Metals and time periods This work will be valuable to all archaeologists and cultural anthropologists particularly those studying material culture

Qualitative Freedom - Autonomy in Cosmopolitan Responsibility Claus Dierksmeier, 2019-01-18 In the light of growing political and religious fundamentalism this open access book defends the idea of freedom as paramount for the attempt to find common ethical ground in the age of globality The book sets out to examine as yet unexhausted ways to boost the resilience of the principle of liberalism Critically reviewing the last 200 years of the philosophy of freedom it revises the principle of liberty in order to revive it It discusses many different aspects that fall under its three main topics the metaphysics of freedom quantitative freedom and qualitative freedom Open societies worldwide have come under increasing pressure in the last decades The belief that politics and markets fare best when guided by the principle of liberty presently faces multiple challenges such as terrorism climate warming inequality populism and financial crises In the view of its critics the idea of freedom no longer offers adequate guidance to meet these challenges and should be partially corrected or even entirely replaced by countervailing values Against the reduction of freedom to the merely quantitative question as to how much liberties individuals call their own this book draws attention to the qualitative concerns which and whose opportunities society should foster It argues that correctly understood the idea of liberty commits us to defend as well as advance the freedom of each and every world citizen

Performing Qualitative Cross-Cultural Research Pranee Liamputtong,2010-04-01 Cross cultural research is rife with ethical and methodological challenges but despite the increased demand for such research discussions on culturally sensitive methodologies are still largely neglected Consequently researchers often find themselves faced with difficulties but lack information on how to deal with them This text provides an in depth discussion on how to perform qualitative research in cross cultural contexts with an emphasis on a more ethical sensible and responsible approach Pranee Liamputtong suggests culturally sensitive and appropriate research methods that would work well with cultural groups She offers thought provoking perspectives and diverse cultural examples which will be of value to both novice and experienced cross cultural researchers Throughout the volume there are references to the excellent work of many cross cultural researchers who have paved the way in different social and cultural settings Cultural Renewal Arthur Pontynen,2014-09-08 The decline of interest in the liberal and fine arts is widely lamented At issue is why this decline happened and how we might restore qualitative standards by which to live Arthur Pontynen argues that cultural decline is the consequence of a tragically anti intellectual academic tradition and its alternative is the cosmopolitan pursuit of wisdom and beauty Pontynen writes that the liberal and fine arts are justified by their attempt to understand the material realization of wisdom of that which is true and good in reality and life The current decline marks a denial that such qualitative aspirations are realistic Instead of understanding art as the intellectual pursuit of ontological perfection perfection is subjectified as willful preference or experience Consequently the liberal and fine arts have been displaced by a naturalistic social science and a relational existentialism This reduction denies qualitative thoughts words and deeds Pontynen establishes that the arts are not obsolete merely subjectivist or limited to a brutal de constructivism He argues for a renewed idealism that is neither reductionist trivializing or brutalized Pontynen offers an alternative global narrative that is both realistic and idealistic one that permits us to distinguish between the trivial the brutal and the profound **Cultural Relations in the Global Community** Verner Courtenay Bickley,Puthenparampil John Philip,1981 Cultural Relations In The Global Community Problems And Prospects Focuses Attention On Emerging Critical Dimensions Of This Modern Interdependent World While Interdependence Impinges On All Nations In The Field Of Science And Technology Economics Politics Education And Research Human Health

Environmental Well Being Etc The Nature And Meaning Of Interdependence Continue To Be Rather Unclear It Is However Possible To See In Recent Discussions Of The Subject Certain New Trends And Perspectives Which We Are Capable Of Offering A Deeper Understanding Of This Complex And Often Overpowering Reality The Book Identifies And Examines Some Of The Significant Characteristics Of Interdependence Primarily From A Cultural Point Of View Authors Of The Different Chapters Have Made An Effort To Take Current Thinking And Interpretations Of Interdependence To A Point Of Further Analysis Clarification And Appraisal While They Have Brought To This Task Special Aptitudes And Interests Of Their Own They Have Done So Without Losing Sight Of The Unity Underlying Them They Have Thus Been Able To Present An Interconnected And Insightful Picture Of The Contemporary World Capable Of Offering Fresh Approaches To The Theory And Practice Of International And Intercultural Relations

Textbook of Cultural Psychiatry Dinesh Bhugra, Kamaldeep Bhui, 2018-04-05 Cultural psychiatry deals with the impact of culture on causation perpetuation and treatment of patients suffering with mental illness The role of culture in mental illness is increasingly being recognised and the misconceptions that can occur as a result of cultural differences can lead to misdiagnoses under or over diagnosis This second edition of the Textbook of Cultural Psychiatry has been completely updated with additional new chapters on globalisation and mental health social media and tele psychiatry Written by world leading experts in the field this new edition provides a framework for the provision of mental health care in an increasingly globalised world The first edition of the Textbook of Cultural Psychiatry was commended in the BMA Book Awards in 2008 and was the recipient of the 2012 Creative Scholarship Award from the Society for the Study of Psychiatry and Culture

Enjoying the Track of Expression: An Psychological Symphony within **Quantitative Expression Of Cultural Rela**
