Quarrel Of The Age The Life And Times Of William Hazlitt:

The Quarrel of the Age A. C. Grayling, 2001 William Hazlitt is England's greatest essayist. He was also a philosopher, a painter, a controversialist, and a radical whose critical writings about literature, the theatre, and art were ardently admired in his day. He is the author of the first confessional autobiography of sexual passion, a biographer of Napoleon, a friend of and profound influence upon Keats, Stendhal, and Charles Lamb, a friend and later enemy of Coleridge, Wordsworth, and De Quincy, and a key figure in the intellectual life of Regency England. His life was lived against the backdrop of the French Revolution and subsequent Revolutionary and Napoleonic Wars with their associated political and literary radicalism in England. **The Concept and Practice of Conversation in the Long Eighteenth Century, 1688-1848** Katie Halsey, Jane Slinn, 2009-05-05 This collection of essays brings together eighteenth-century scholars from a variety of disciplines to discuss conversation in the eighteenth century as concept and practice. At the heart of the volume is a simple question: are eighteenth-century conceptualisations of the role and purpose of conversation still relevant or useful to scholars and thinkers today? This volume contains essays by leading scholars of the period as well as early-career researchers and answers a need for a broad-ranging discussion of the concept of conversation in the arts, social sciences, and humanities. The long eighteenth century is a particularly fruitful starting point for work on this topic since ideas about conversation permeated all types of writing in this period, from the early forerunners of scientific textbooks to philosophical dialogues. The collection covers an exceptionally wide range of long eighteenth-century authors, artists, lawmakers, texts, and works of art, and although the focus of the volume is largely on eighteenth-century Britain, the volume takes note of the rich relationships between continental European thought and British intellectual life in the period and of the influence of British ideas in the newly independent American republic. **The Feminization of Fame 1750-1830** C. Brock, 2006-07-11 This book addresses the literary, cultural, and historical questions surrounding the reconceptualization of fame between 1750 and 1830. It examines genres from history writing to literature, public and private memoirs to political treatises in English and in French in order to explore the age of personality's obsession with instantaneous publicity. **The Edinburgh Review in the Literary Culture of Romantic Britain** William Christie, 2016-06-16 From its first issue published on the 10th October 1802, Francis Jeffrey's Edinburgh Review established a strong reputation and exerted a powerful influence. This is a literary study of the Edinburgh Review for over fifty years. It contextualizes the periodical within the culture wars of the Romantic era. **Towards the Light** A. C. Grayling, 2014-04-24 In *Towards the Light*, A. C. Grayling tells the story of the long and difficult battle for freedom in the West, from the Reformation to the Universal Declaration of Human Rights, from the battle for the vote to the struggle for the right to freedom of conscience. As Grayling passionately affirms, it is a story and a struggle that continues to this day, as those in power use the threat of terrorism in the 21st century to roll back the liberties that so many have fought and died to win for us. Including an appendix of landmark documents including the British and American Bills of Rights and the Declaration of the

Rights of Man and of the Citizen the Bloomsbury Revelations edition also includes a new preface by the author reflecting on developments since the book's original publication

Descartes A. C. Grayling, 2009-05-26 Scientist mathematician traveler soldier and spy Rene Descartes was one of the founders of the modern world His life coincided with an extraordinary time in history the first half of the miraculous seventeenth century replete with genius in the arts and sciences and wracked by civil and international conflicts across Europe But at his birth in 1596 the world was still dominated by medieval beliefs in phenomena such as miracles and spontaneous generation It was Descartes who identified the intellectual tools his peers needed to free themselves from the grip of religious authority and in doing so he founded modern philosophy In this new biography A C Grayling tells the story of Descartes life and places it in his tumultuous times with the unexpected result that an entirely new aspect of the story comes to light

Imagining War and Peace in Eighteenth-Century Britain, 1690-1820 Andrew Lincoln, 2023-11-23 Is war the opposite of peace or its necessary accomplice Exploring this question in relation to eighteenth century Britain Andrew Lincoln opens up complex paradoxical and enduring issues and shows how ideas and methods were developed to provide the British public with moral insulation from violence both overseas and at home

Who Owns the Moon? A. C. Grayling, 2024-03-07 As the world's superpowers and corporations jostle for control in space A C Grayling asks

who really owns our planet Grayling brings satisfying order to daunting subjects STEVEN PINKER Silicon for microchips manganese for batteries titanium for missiles The moon contains a wealth of natural resources So as the Earth's supplies have begun to dwindle it is no surprise that the world's superpowers and wealthiest corporations have turned their eyes to the stars As this new Space Race begins A C Grayling asks who if anyone owns the moon Or Mars Or other bodies in near space And what do those superpowers and corporations owe to Planet Earth and its inhabitants as a whole From feudal common land through the rules of the sea to the vast nationless expanse of Antarctica Grayling explores the history of the places which no one and therefore everyone owns Examining the many ways this so called terra nullius has fallen victim to the tragedy of the commons the tendency for communal resources to be exploited by a few individuals for personal gain at the expense of everyone else Who Owns the Moon puts forward a compelling argument for a bold new global consensus one which recognises and defends the rights of everyone who lives on this planet **Toward the Light of Liberty** A. C.

Grayling, 2009-05-26 The epic story of the interlocking struggles to achieve the individual rights and freedoms that characterize Western civilization by one of the world's leading public intellectuals Perhaps the hallmark of western civilization over the past five hundred years writes A C Grayling is the series of liberation struggles without which the ordinary citizen in Western countries would not enjoy the rights and freedoms we now take for granted They began with the often violent battle to allow independent thought uncontrolled by the Church which led in time to political freedom as monarchies were gradually replaced by more representative forms of government These in turn made possible the abolition of slavery rights for working men and women universal education the enfranchisement of women and much more Each of these struggles was a memorable human drama and Grayling skillfully interweaves the stories of celebrated and little known heroes alike from Martin Luther and John Locke to the sixteenth century French scholar Sebastien Castellio and the nineteenth century feminist Elizabeth Cady Stanton The triumphs and sacrifices of those who dared to oppose authority ring loudly down the ages proving how hard won each successive victory has been And yet as Grayling persuasively shows in a cautionary coda democratic governments under pressure have often thought it necessary to restrict rights in the name of freedom further underlining how precious they are Toward the Light of Liberty is thus particularly relevant as we head toward an election season in which our own civil liberties will surely be an issue **For the Good of the World** A. C.

Grayling, 2022-02-03 A must read Gordon Brown A truly excellent book Sir David King The three biggest challenges facing the world today in A C Grayling's view are climate change technology and justice In his timely new book he asks can human beings agree on a set of values that will allow us to confront the numerous threats facing the planet or will we simply continue with our disagreements and antipathies as we collectively approach our possible extinction As every day brings new stories about extreme weather events spyware lethal autonomous weapons systems and the health imbalance between the northern and southern hemispheres Grayling's question Is Global Agreement on Global Challenges Possible becomes ever

more urgent The solution he proposes is both pragmatic and inspiring **Zeitgeist - How Ideas Travel** Maïke Oergel, 2019-03-18 This book investigates the emergence of the modern concept of zeitgeist the notion of a pervasive contemporary coherence in the late 18th century It traces zeitgeist's descent from *genius saeculi* and investigates its association with public spirit and public opinion before surveying its prominence around the Wars of Liberation in Germany and during the politically restless 1820s in England This trajectory shows that zeitgeist emerged from the 18th century discourses about culture and the public functioning of social collectives Under the impact of the French Revolution the term came to describe social processes of political and cultural challenge Zeitgeist was discussed as a social dynamic in which emerging elites disseminate new ideas which find enough public approval to influence cultural and political behaviour and practice These findings modify the view that zeitgeist eludes critical grasp and is mainly invoked for manipulative purposes by showing that the zeitgeist discussions around 1800 contributed to the formation of modern politics and capture key aspects of how ideas are disseminated within societies and across borders providing a way of reading history horizontally

Bright Stars Richard Marggraf Turley, 2013-08-15 If we could ask a Romantic reader of new poetry in 1820 to identify the most celebrated poet of the day after Byron the chances are that he or she would reply with the name of Barry Cornwall Solicitor dandy and pugilist Cornwall pseudonym of Bryan Waller Procter 1787-1874 published his first poems in the *Literary Gazette* in late 1817 By February 1820 under the tutelage of Keats's mentor Leigh Hunt Cornwall had produced three volumes of verse *Marcian Colonna* sold 700 copies in a single morning a figure exceeding Keats's lifetime sales Hazlitt's suppressed anthology *Select British Poets* 1824 allocated Cornwall nine pages the same number as Keats and more than Southey Lamb or Shelley Blackwood's *Edinburgh Magazine* pronounced Cornwall a poet of originality and genius and in 1821 Gold's *London Magazine* announced that in terms of tenderness and delicacy even Percy Shelley was surpassed very far indeed by Barry Cornwall It is difficult to square Cornwall's early nineteenth century popularity with his subsequent neglect In *Bright Stars* Richard Marggraf Turley concentrates on Cornwall's phenomenal success between 1817 and 1823 emphatically returning an important and unjustly neglected Romantic author to critical focus Marggraf Turley explores Cornwall's rivalry and at various junctures political camaraderie with fellow Hunt protégé Keats whose career exists in a fascinatingly mirrored relationship with his own trajectory into celebrity The book argues that Cornwall helped to structure Keats's experience as a poet but also explores the central question of how Cornwall's racy and politically subversive poetry managed to establish a broad readership where Keats's similarly indecorous publications met with review hostility and readerly indifference *Religious Dissent and the Aikin-Barbault Circle, 1740-1860* Felicity James, Ian Inkster, 2011-11-03 Recent criticism is now fully appreciating the nuanced and complex contribution made by Dissenters to the culture and ideas of the eighteenth and nineteenth centuries in Britain This is the first sustained study of a Dissenting family the Aikins from the 1740s to the 1860s Essays by literary critics historians of religion and science and geographers explore and contextualize

the achievements of this remarkable family including John Aikin senior tutor at the celebrated Warrington Academy and his children poet Anna Letitia Barbauld and John Aikin junior literary physician and editor The latter's children in turn were leading professionals and writers in the early Victorian era This study provides new perspectives on the social and cultural importance of the family and their circle an untold story of collaboration and exchange and a narrative which breaks down period boundaries to set Enlightenment and Victorian culture in dialogue The Broadview Anthology of Literature of the Revolutionary Period 1770-1832, 2010

The Vocation of Sara Coleridge Robin Schofield, 2018-02-12 This book presents a fundamental reassessment of Sara Coleridge It examines her achievements as an author in the public sphere and celebrates her interventions in what was a masculine genre of religious polemics Sara Coleridge the religious author was the peer of such major figures as John Henry Newman and F D Maurice and recognized as such by contemporaries Her strategic negotiations with conventions of gender and authorship were subtle and successful In this rediscovery of Sara Coleridge the author revises perspectives upon her literary relationship with Samuel Taylor Coleridge Far from sacrificing her opportunities in service of her father's memory her rationale is to exploit his metaphysics in original religious writings that engage with urgent controversies of her own times Sara Coleridge critiques the Oxford theology of Newman and his colleagues for authoritarian and elitist tendencies and for creating a negative culture in religious discourse In response she experiments with methodologies of collaborative dialogic exchange in which form as much as content will promote liberal inclusive and productive encounters She develops this agenda in her major religious work the unpublished *Dialogues on Regeneration* 1850-51 which this book examines in its penultimate chapter The Bar and the Old Bailey, 1750-1850 Allyson N. May, 2015-12-01 Allyson May chronicles the history of the English criminal trial and the development of a criminal bar in London between 1750 and 1850 She charts the transformation of the legal process and the evolution of professional standards of conduct for the criminal bar through an examination of the working lives of the Old Bailey barristers of the period In describing the rise of adversarialism May uncovers the motivations and interests of prosecutors defendants the bench and the state as well as the often maligned Old Bailey hacks themselves Traditionally the English criminal trial consisted of a relatively unstructured altercation between the victim prosecutor and the accused who generally appeared without a lawyer A criminal bar had emerged in London by the 1780s and in 1836 the Prisoners Counsel Act recognized the defendant's right to legal counsel in felony trials and lifted many restrictions on the activities of defense lawyers May explores the role of barristers before and after the Prisoners Counsel Act She also details the careers of individual members of the bar describing their civil practice in local customary courts as well as their criminal practice and the promotion of Old Bailey counsel to the bench of that court A comprehensive biographical appendix augments this discussion The 'Natural Leaders' and their World Jonathan Jeffrey Wright, 2013-01-03 This book is a richly detailed exploration of the complex and cosmopolitan urban culture inhabited by the Presbyterian elite of late Georgian Belfast which will prove to be of interest to a

wide range of scholars working on the political cultural and intellectual histories of both Ireland and Britain during the age of reform
