Roma Disegno E Immagine Della Citta Eterna Le Piante Di Roma Dal Ii Secolo:

"Collecting Prints and Drawings in Europe, c. 1500-1750" Christopher Baker, 2017-09-29 Prints and drawings have been keenly collected in Europe since at least the early sixteenth century. Relatively modest in price they offered artists, amateurs and collectors of a systematic turn of mind the opportunity to put together holdings with a wide representation of different hands, schools and types of subject. Prints and drawings are traditionally treated separately but their collecting is shown here to raise many interrelated issues. Employing a wide range of methodologies the essays in this volume offer a number of innovative investigations into the collecting, perception, classification and display of works on paper. **Rome Measured and Imagined** Jessica Maier, 2015-05-07 At the turn of the fifteenth century Rome was in the midst of a dramatic transformation from what the fourteenth century poet Petrarch had termed a crumbling city populated by broken ruins into a prosperous Christian capital. Scholars, artists, architects and engineers fascinated by Rome were spurred to develop new graphic modes for depicting the city and the genre known as the city portrait exploded. In *Rome Measured and Imagined* Jessica Maier explores the history of this genre which merged the accuracy of scientific endeavor with the imaginative aspects of art during the rise of Renaissance print culture. Through an exploration of works dating from the fifteenth to the eighteenth centuries her book interweaves the story of the city portrait with that of Rome itself. Highly interdisciplinary and beautifully illustrated with nearly one hundred city portraits *Rome Measured and Imagined* advances the scholarship on Renaissance Rome and print culture in fascinating ways. **Roma**, 1994 *Roma e la Città del Vaticano.
