

ROMAN CATHOLICISM AND POLITICAL FORM

CARL SCHMITT

Translated and Annotated by G. L. Ulmen

Roman Catholicism And Political Form

Montserrat Herrero

Roman Catholicism And Political Form:

Roman Catholicism and political form Carl Schmitt,1996 A translation of Carl Schmitt's classic explanation of the nature and historical sociological significance of political Catholicism

The Problem of Political Foundations in Carl Schmitt and Emmanuel Levinas Gavin Rae,2016-09-17 In this book Gavin Rae analyses the foundations of political life by undertaking a critical comparative analysis of the political theologies of Carl Schmitt and Emmanuel Levinas In so doing Rae contributes to key debates in contemporary political philosophy specifically those relating to the nature of and the relationship between the theological the political and the ethical as well as those questioning the existence of ahistoric metaphysical ontological and epistemological foundations While the theological is often associated with belief in a fixed foundation such as God or the truth of a religion Rae identifies another sense rooted in epistemology On this understanding the ontological limitations of human cognition mean that ultimately human truth is based in faith and so can never be certain The argument developed suggests that Levinas conception of the political is grounded in theology in the sense of religion particularly the revelations of Judaism For this reason Levinas claims that the political decision is based on how to implement a prior religiously inspired norm justice Schmitt in contrast develops a conception of the political rooted in epistemic faith to claim that the political decision is normless While sympathetic to Schmitt's conception of theology and its relationship to the political Rae concludes by arguing that the emphasis Levinas places on responsibility is crucial to understanding the implications of this The continuing relevance of Schmitt's and Levinas political theologies is that they teach us that while the political decision is ultimately normless we bear an infinite responsibility for the consequences of this normless decision

Carl Schmitt's Institutional Theory Mariano Croce,Andrea Salvatore,2022-07-07 In 1922 Carl Schmitt penned Political Theology the celebrated essay in which he elaborated on the notorious theory that the heart of politics lies in the sovereign power to issue emergency measures that suspend the legal order Ever since Schmitt's thinking has largely been identified with this concept despite him renouncing it over time Offering a comprehensive analysis of Schmitt's writings Carl Schmitt's Institutional Theory provides an ambitious novel perspective on Carl Schmitt and his legal and political thinking By delving into Schmitt's output over his decades long career Mariano Croce and Andrea Salvatore explore Schmitt's varied and developing thoughts on exceptionalism societal pluralism and the law as the progenitor and enforcer of normality Challenging dominant interpretations Croce and Salvatore dethrone the false centrality of certain key texts and instead provide a more unified coherent account of his institutional theory from across his long and controversial career

The Anthropology of Catholicism Kristin Norget,2017-01-24 Aimed at a wide audience of readers The Anthropology of Catholicism is the first companion guide to this burgeoning field within the anthropology of Christianity Bringing to light Catholicism's long but comparatively ignored presence within the discipline of anthropology the book introduces readers to key studies in the field

as well as to current analyses on the present and possible futures of Catholicism globally This reader provides both ethnographic material and theoretical reflections on Catholicism around the world demonstrating how a revised anthropology of Catholicism can generate new insights and analytical frameworks that will impact anthropology as well as other disciplines

Political Theology Saul Newman, 2018-11-26 God is dead but his presence lives on in politics This is the problem of political theology the way that theological ideas find their way into secular political institutions particularly the sovereign state In this intellectual tour de force leading political theorist Saul Newman shows how political theology arose alongside secularism and relates to the problem of legitimising power and authority in modernity It is not about the power of religion so much as about the religion of power Examining the current crisis of the liberal order he argues that recent phenomena such as the rise of populism the renewed demand for strong national sovereignty and the return of religious fundamentalism may be understood through this paradigm He illustrates his argument through an exploration of themes such as sovereignty democracy economics technology ecological catastrophe messianism and the future of radical politics engaging with thinkers ranging from Schmitt and Hobbes to Stirner Foucault and Agamben This book will be a crucial text for all students scholars and general readers interested in the meaning and significance of political theology for political theory

Groundless Existence Michael Marder, 2010-07-15 *Political Theologies* Hent de Vries, Lawrence Eugene Sullivan, 2006 What has happened to religion in its present manifestations Containing contributions from distinguished scholars from disciplines such as philosophy political theory anthropology classics and religious studies this book seeks to address this question

The Political Discourse of Carl Schmitt Montserrat Herrero, 2015-08-06 Carl Schmitt is a key figure in modern political thought but discussion of his work often focuses upon specific elements or themes within his texts This book provides a wide ranging discussion of Carl Schmitt's discourse and provides a new perspective on his contribution presenting the idea of Nomos of the Earth as the key idea that organizes his political and legal discourse This book creates a reverse genealogy of Schmitt's theoretical system starting from his legal and political concept of nomos so as to reconstruct his understanding of order It connects the different topics the Carl Schmitt developed along his intellectual trajectory which have generally been approached in separate ways by scholars the legal theory the concept of the political the theory of international relations and political theology The text considers the whole of Carl Schmitt's work including writings that have been previously unknown to the English speaking academy old journals with just three or four pages newspaper articles manuscripts of conferences and Festschriften It provides a balanced examination of the whole complex of Carl Schmitt's political discourse

Janus's Gaze Carlo Galli, 2015-11-27 First published in Italian in 2008 and appearing here in English for the first time Janus's Gaze is the culmination of Carlo Galli's ongoing critique of the work of Carl Schmitt Galli argues that Schmitt's main accomplishment as well as the thread that unifies his oeuvre is his construction of a genealogy of the modern that explains how modernity's compulsory drive to achieve order is both necessary and impossible

Galli addresses five key problems in Schmitt's thought: his relation to the state, the significance of his concept of political theology, his readings of Machiavelli and Spinoza, his relation to Leo Strauss, and his relevance for contemporary political theory. Galli emphasizes the importance of passing through Schmitt's thought and more important, beyond Schmitt's thought, if we are to achieve insight into the problems of the global age. Adam Sitze provides an illuminating introduction to Schmitt and Galli's reading of him.

Unveiling the Magic of Words: A Overview of "**Roman Catholicism And Political Form**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
