Roman Rhetoric Revolution And The Greek Influence:

Roman Rhetoric Richard Leo Enos,2008 Roman Rhetoric Revolution and the Greek Influence reveals that while Romans did benefit from Athenian rhetoric their own rhetoric was also influenced by later Greek and non Hellenic cultures particularly the Etruscan civilization that held hegemony over all of Italy for hundreds of years before Rome came to power Through the examination of archaeological epigraphical historical and literary evidence Roman Rhetoric reveals that the relationship between Greek and Roman rhetoric was dynamic evolving and socially interactive **An Introduction to**

Rhetorical Adaptation in the Greek Historians, Josephus, and Acts vol.I John M. Duncan,2022-10-24 Greco Roman rhetorical theorists insist that speakers must adapt their speeches to their audiences in order to maximize persuasiveness and minimize alienation Ancient historians adorn their narratives with accounts of attempts at such rhetorical adaptation the outcomes of which decisively impact the subsequent course of events These depictions of speaker audience interactions moreover convey crucial didactic persuasive insights to the historians own audiences This monograph presents a detailed comparative analysis of the intra and extra textual functions of speeches and audience responses in Greek historiography Josephus and Acts with special emphasis on Luke s distinctive depiction of the apostles as adaptable yet frequently alienating orators This is volume I of a set of two volumes **The Oxford Handbook of Quintilian** Marc van der Poel,Michael

Adaptive Rhetoric Alex C. Parrish, 2013-11-07 Rhetorical scholarship has for decades relied solely on

culture to explain persuasive behavior While this focus allows for deep explorations of historical circumstance it neglects the powerful effects of biology on rhetorical behavior how our bodies and brains help shape and constrain rhetorical acts Not only is the cultural model incomplete but it tacitly endorses the fallacy of human exceptionalism By introducing evolutionary biology into the study of rhetoric this book serves as a model of a biocultural paradigm Being mindful of biological and cultural influences allows for a deeper view of rhetoric one that is aware of the ubiquity of persuasive behavior in nature Human and nonhuman animals and even some plants persuade to survive to live love and cooperate That this broad spectrum of rhetorical behavior exists in the animal world demonstrates how much we can learn from evolutionary biology By incorporating scholarship on animal signaling into the study of rhetoric the author explores how communication has evolved and how numerous different species of animals employ similar persuasive tactics in order to overcome similar problems This cross species study of rhetoric allows us to trace the origins of our own persuasive behaviors providing us with a deeper history of rhetoric that transcends the written and the televised and reveals the artifacts of our communicative past

Contest(ed) Writing Mary Lamb, 2013-01-14 This collection is about writing contests a vibrant rhetorical practice traceable to rhetorical performances in ancient Greece In their discussion of contests cultural work the scholars who have contributed to this collection uncover important questions about our practices For example educational contests as epideictic rhetoric do indeed celebrate writing but does this celebration merely relieve educators of the responsibility of finding ways for all writers to succeed Contests designed to reward single winners and singly authored works admirably celebrate hard work but do they over emphasize exceptional individual achievement over shared goals and communal reward for success Taking a cultural rhetorical approach to contests each chapter demonstrates the cultural work the contests accomplish The essays in Part I examine contests and riddles in classical Greek and Roman periods educational contests in eighteenth century Scotland and the Lyceum movement in the Antebellum American South The next set of essays discusses how contests leverage competition and reward in educational settings medieval universities American turn of the century women s colleges twenty first century scholarship essay contests and writing contests for speakers of other languages at the University of Portsmouth The last set of essays examines popular contests including poetry contests in Youth Spoken Word popular American contests designed by marketers and twenty first century podcasting competitions This collection then takes up contests as a cultural marker of our values assumptions and relationships to writing contests and competition

The History of Linguistics in Europe Vivien Law, 2003-01-30 This authoritative and wide ranging book first published in 2003 examines the history of western linguistics over a 2000 year timespan from its origins in ancient Greece up to the crucial moment of change in the Renaissance that laid the foundations of modern linguistics Some of today s burning questions about language date back a long way in 1400 BC Plato was asking how words relate to reality Other questions go back just a few generations such as our interest in the mechanisms of language change or in the social factors that shape the

way we speak Vivien Law explores how ideas about language over the centuries have changed to reflect changing modes of thinking A survey chapter brings the coverage of the book up to the present day Classified bibliographies and chapters on research resources and the qualities the historian of linguistics needs to develop provide the reader with the tools to go further
