Amelia Dale, 2019-06-21 Shortlisted for the 2021 BARS First Book Prize British Association for Romantic Studies The Printed Reader explores the transformative power of reading in the eighteenth century and how this was expressed in the fascination with Don Quixote and in a proliferation of narratives about quixotic readers readers who attempt to reproduce and embody their readings Through intersecting readings of quixotic narratives including work by Charlotte Lennox Laurence Sterne George Colman Richard Graves and Elizabeth Hamilton Amelia Dale argues that literature was envisaged as imprinting most crucially in gendered terms the reader's mind character and body The Printed Reader brings together key debates concerning quixotic narratives print culture sensibility empiricism book history and the material text connecting developments in print technology to gendered conceptualizations of quixotism Tracing the meanings of quixotic readers bodies The Printed Reader claims the social and political text that is the quixotic reader is structured by the experiential affective and sexual resonances of imprinting and impressions Published by Bucknell University Press Distributed worldwide by Rutgers University Press **Consumerism and Prestige** Anthony Enns, Bernhard Metz, 2022-07-05 This anthology explores the relationships and interdependencies between literary production and distinctions of taste by examining how the material aspects of literary texts such as the cover binding typography and paper stock reflect or even determine their cultural status In many cases for example the distinctions between highbrow and lowbrow taste have little to do with the content of the texts

themselves as books often function as markers of socioeconomic status like clothing or home decor One might even go so far as to say that the concept of literary taste is more closely related to fashion sense than critical judgment The anthology seeks to address this claim by examining how the tensions between consumerism and prestige reflect fundamental historical changes with regard to the development of technology literacy and social power
