Murphy, 2021-10-19 In 2001 the author and her husband traveled to Romania to adopt their two year old son Upon arrival they received the shocking news that he had a twin sister with special needs living at the same orphanage Legends of the Twins Cirpaci describes their frantic three year effort to adopt her and reunite her with her brother all in the midst of Romania s moratorium on intercountry adoption as the country attempted to join the European Union The book also recounts the deleterious impact of Romania s harsh orphanage system on the children s development in various areas of their lives and their courage in overcoming these challenges Compelling and poignant this is a story that every parent not just adoptive parent could benefit from reading Unlike many

adoption books it also includes the twins perspectives on what happened to them As such older adopted children might also find it helpful Both biography and parenting narrative it describes a nearly unbelievable but it really did happen situation in a relatable way Filled with humor and heart Legends of the Twins Cirpaci is ultimately a triumph of the extraordinary power of care the capacity of human beings to overcome severe deprivation and the beauty of the human spirit Legends of the Twins Cirpaci is a heart warming and sometimes heart wrenching tale of a journey of love determination patience and humor Reading it is a reminder of all that family can be in its best incarnation and that belonging does not depend on biology A wonderful funny read Anne Marie Slaughter CEO New America author of Unfinished Business Women Men Work Family

Europe in the Classroom Simona Szakács, 2017-10-13 This book provides an unconventional account of post 1989 education reform in Romania By drawing on policy documentation interviews with key players qualitative data from everyday school contexts and extensive textbook analysis this groundbreaking study explores change within the Romanian education system as a process that institutionalises world culture through symbolic mediation of the concept Europe The book argues that the education system s structural and organisational evolution through time is decoupled from its self depiction by ultimately serving a nation building agenda It does so despite notable changes in the discourse reflecting increasingly transnational definitions of the mission of the school in the post 1989 era The book also suggests that the notions of nation and citizen institutionalised by the school are gradually being redefined as cosmopolitan matching post war patterns of post national affiliations on a worldwide level Handbook of Transnational Families Around the World Javiera Cienfuegos, Rosa Brandhorst, Deborah Fahy Bryceson, 2023-01-01 This handbook compiles the most up to date research on transnational families It employs a dialogue between classical approaches and cutting edge directions in transnational family research to identify continuities and changes in terms of socioeconomic disparities and actors and to analyze coexistence Further the volume adopts a twofold global and international comparative perspective On the one hand it focuses on different migratory flows around the world and describes their entangled logics on the other it is written by an international group of contributors with a diverse range of professional backgrounds Their contributions are based on sound empirical research and explore geographical regions around the world The handbook presents different thematic perspectives on transnational families including an analytical focus on gender global sociodemographic inequalities power asymmetries and border and mobility regimes as well as the organization of transnational care transnational fatherhood ageing family reunions and return It also includes a variety of methodological approaches to transnational family research ranging from ethnography biographical research and life course methods to multi sited approaches and quantitative surveys Investigating an emergent debate it sheds new light on migratory fluxes their common and specific determinants the types of actors involved and ways to empirically and methodologically approach them This is a must read reference for social scientists interested in family research migration and gender studies Chapter 7 is available open access under a Creative Commons Attribution 4 0
