Romantic Art Theories August K. Wiedmann, 1986 **Music Theory in the Age of Romanticism** Ian Bent, 1996-08-28
Twelve brilliant historians of theory probe the mind of the Romantic era in its thinking about music Theories of Art: From Winckelmann to Baudelaire Moshe Barasch, 2000 This anthology examines Love's Labours Lost from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource **Theories of Art** Moshe Barasch, 2013-10-18 This second book in Moshe Barasch's series on art theory surveys the development of the field from the early eighteenth to the mid nineteenth centuries During this period theories of the visual arts particularly of painting and sculpture underwent a radical transformation as a result of which the intellectual foundations of our modern views on the arts were formed Because this transformation can only be understood within the context of cultural aesthetic and philosophical developments of the period Barasch surveys the opinions of the artists as well as the doctrines of philosophers poets and critics He thus traces for the reader the entire development of modernism in art and art theory Romantic Theory Leon Chai, 2006-07-31 Publisher description Romantic Irony Frederick Garber, 1988-01-01 This is the first collaborative international reading of irony as a major phenomenon in Romantic art and thought The volume identifies key predecessor moments that excited Romantic authors and the emergence of a distinctly Romantic theory and practice of irony spreading to all literary genres Not only the influential pioneer German British and French varieties but also manifestations in northern eastern and southern parts of Europe as well as in North America are considered A set of concluding syntheses treat the shaping power of Romantic irony in narrative modes music the fine arts and theater innovations that will deeply influence Modernism Thus the cross cultural and interdisciplinary approach elaborated in the twenty chapters of *Romantic Irony* as lead volume in the five volume Romanticism series establishes a significant new range for comparative literature studies in dealing with a complex literary movement **SPECIAL OFFER 30% discount for a complete set order 5 vols** The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents *Romantic Irony* sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major

impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

Modern Theories of Art: From Winckelmann to Baudelaire Moshe Barasch, 1990-02 Annotation In this volume the third in his classic series of texts surveying the history of art theory Moshe Barasch traces the hidden patterns and interlocking themes in the study of art from Impressionism to Abstract Art Barasch details the immense social changes in the creation presentation and reception of art which have set the history of art theory on a vertiginous new course the decreased relevance of workshops and art schools the replacement of the treatise by the critical review and the interrelation of new modes of scientific inquiry with artistic theory and praxis The consequent changes in the ways in which critics as well as artists conceptualized paintings and sculptures were radical marked by an obsession with intense immediate sensory experiences psychological reflection on the effects of art and a magnetic pull to the exotic and alien making for the most exciting and fertile period in the history of art criticism

Semiotics and Art Theory Madeleine Schechter, 2008 **From Romanticism to Critical Theory** Andrew Bowie, 2012-10-12 From Romanticism to Critical Theory explores the philosophical origins of literary theory via the tradition of German philosophy that began with the Romantic reaction to Kant It traces the continuation of the Romantic tradition of Novalis Friedrich Schlegel and Schleiermacher in Heidegger's approaches to art and truth and in the Critical Theory of Benjamin and Adorno Andrew Bowie argues against many current assumptions that the key aspect of literary theory is not the demonstration of how meaning can be deconstructed but rather the revelation of how questions of language and literature change modern philosophical conceptions of truth He shows how

the dialogue between literary theory hermeneutics and analytical philosophy can profit from a re examination of the understanding of language truth and literature in modern German philosophy From Romanticism to Critical Theory will provide a vital new introduction to central theoretical questions for students of philosophy literature German studies cultural and social theory

The Romantic Ideology Jerome J. McGann, 1985-02-15 Claiming that the scholarship and criticism of Romanticism and its works have for too long been dominated by a Romantic ideology by an uncritical absorption in Romanticism's own self representations Jerome J McGann presents a new critical view of the subject that calls for a radically revisionary reading of Romanticism In the course of his study McGann analyzes both the predominant theories of Romanticism those deriving from Coleridge Hegel and Heine and the products of its major English practitioners Wordsworth Coleridge Shelley and Byron are considered in greatest depth but the entire movement is subjected to a searching critique Arguing that poetry is produced and reproduced within concrete historical contexts and that criticism must take these contexts into account McGann shows how the ideologies embodied in Romantic poetry and theory have shaped and distorted contemporary critical activities
