Graf an esteemed ancient historian and archaeologist specializing of the Greco Roman world in the Levant and Arabia represent over two decades of his own research on Roman Arabia which occurred during twenty five years of a virtual explosion in our knowledge of this remote corner of the Roman empire Graf's preoccupation has primarily focused on the population of the region rather than its forts and communication system He explores such diverse matters as the urbanization of the area regional demography the defensive system fluctuating provincial borders and the relations with frontier peoples until the Islamic Conquests

Demonstrative Proof in Defence of God Nils Arne Pedersen, 2020-10-26 This volume is the first extensive study of a Christian work from the 4th century Titus of Bostra's *Contra Manichaeos* which is the only text from the early Greek Church setting out a comprehensive theodicy The study illuminates the text's relation to contemporary theology and philosophy and interprets it in the light of the ideological conflicts between pagans Catholic Christians and Manichaeans in the 4th century It includes an examination of the possible Manichaean sources used by Titus and furthermore a critical text study and translation of central passages in *Contra Manichaeos* based both on the Greek text and the Syriac version of it

Geography, Urbanisation and Settlement Patterns in the Roman Near East Henry Innes MacAdam, 2017-11-01 This title was first published in 2002 This volume focuses on the Roman provinces of Syria and Arabia above all the lands now within Lebanon Syria and Jordan The first articles look at questions of geography cartography and toponymy particularly in Strabo Pliny and Ptolemy The following sections are concerned with settlement patterns and urban development in the region In the Roman and early Byzantine periods the inland areas underwent a gradual transformation from a semi sedentary lightly populated and predominantly rural region to one of large cities and a network of prosperous socially sophisticated villages linked by a network of roads That change is documented by a wealth of epigraphy from both the urban communities and their outlying settlements the subject of several articles By the 4th century too Christianity had become the dominant

religion and remained such until the arrival of Islam *Studies on the History of Late Antique and Christian Nubia* Laurence Kirwan, T. Hägg, D.A. Welsby, 2024-10-28 Gathered together here are the fruits of 60 years of research by the late Sir Laurence Kirwan into the history and archaeology of the mid 1st millennium AD in the Middle Nile Valley papers previously scattered through a wide range of publications Kirwan's fieldwork in the region undertaken between 1929 and 1936 kindled a life long interest in the transition from the pagan Kushite kingdom to the medieval Nubian states of Nobadia Makuria and Alodia Alwa and of their conversion to Christianity in the 6th century AD The 25 studies one published here for the first time were often of seminal importance when they first appeared the author being exemplary in his use of the written sources to elucidate the archaeological data As the preface by the editors shows the views expressed remain fundamental to modern scholarship offering valuable insights into this still relatively obscure period of transition from the ancient to the medieval world **Church and Culture in Early Medieval Armenia** Nina G. Garsoïan, 2024-12-11 The articles here aim to develop and expand Professor Garsoïan's earlier research on the bilateral influences on Early Christian Armenia between Byzantium and the Sasanians On the one hand they continue her examination of Armenia's essentially Iranian society and institutions in the 4th-7th centuries on the other they are directed to an investigation of its autocephalous Church This maintained relations with the Antiochene Christological school it shared with the Church of Persia longer than has been generally admitted but simultaneously brought about an ideological transformation through which Christianity came to define the Armenian identity in the national tradition **The Processes of Politics and the Rule of Law** Peter Linehan, 2024-10-28 This third volume of essays by Peter Linehan deals with matters of perennial interest to all historians of medieval Church and State and in particular to students of the history of medieval Spain and Portugal and of the papacy in the 12th and 13th centuries Amongst those discussed and explored are the question of feudalism in the 11th and 12th century the rise and fall of a royal capital the city of León the ritual of king making focusing on Castile and Portugal the interplay of royal influence and papal authority and the impact of the mendicant orders A previously unpublished study provides a cautionary tale of a particular bishop in politics Four essays are devoted to the investigation of individuals and issues central to the history of late 13th century papal Rome while two look at medieval and modern historiography *The Jews in the Roman Empire* Alfredo Mordechai Rabello, 2024-12-11 The focus of this book is on the legal status of the Jews within the Roman Empire and the changes that it underwent when the empire became Christian Conflicts between Roman and Jewish jurisdiction form an important theme while particular studies deal with questions of conversion the observance of the Sabbath and Festivals Hadrian's decree prohibiting circumcision and with the treatment given to the Samaritans In the field of family law Professor Rabello deals with the issues of the patria potestas family courts marriage and divorce and it is in these areas he holds that a basic understanding can be found of how the early Catholic Church treated Jews and Judaism *Philodemus and the New Testament World* John Fitzgerald, Dirk Obbink, Glenn Holland, 2004-01-01 The fifteen essays in this volume rooted in the work

of the Hellenistic Moral Philosophy and Early Christianity Section of the SBL examine the works of Philodemus and how they illuminate the cultural context of early Christianity Born in Gadara in Syria Philodemus ca 110 40 BCE was active in Italy as an Epicurean philosopher and poet This volume comprises three parts the first deals with Philodemus works in their own terms the second situates his thought within its larger Greco Roman context and the third explores the implications of his work for understanding the earliest Christians especially Paul It will be useful to all readers interested in Hellenistic philosophy and rhetoric as well as Second Temple Judaism and early Christianity **Scripta Classica Israelica** ,1999
