historical events This is a must read medievalists net *The Lives of a Roman Neighborhood* Paul W. Jacobs, II, 2022-12-01 In this book Paul Jacobs traces the history of a neighborhood situated in the heart of Rome over twenty five centuries Here he considers how topography and location influenced its long urban development During antiquity the forty plus acre flood prone site on the Tiber s edge was transformed from a meadow near a crossroads into the imperial Circus Flaminius with its temples colonnades and a massive theater Later it evolved into a bustling medieval and early modern residential and commercial district known as the Sant Angelo rione Subsequently the neighborhood enclosed Rome s Ghetto Today it features an archaeological park and tourist venues and it is still the heart of Rome s Jewish community Jacobs study explores the impact of physical alterations on the memory of lost topographical features He also posits how earlier development may be imprinted upon the landscape or preserved to influence future changes **Between Orders and Heresy** Jennifer Kolpacoff Deane, Anne E. Lester, 2022-04-27 *Between Orders and Heresy* foregrounds the dynamic creative and diverse late medieval religious landscapes that flourished within the spaces of social and ecclesiastical structures This collection reconsiders the arguments put forward in Herbert Grundmann s monumental book *Religious Movements in the Middle Ages* and challenges his traditional interpretive binary recognized as the shared origins of many medieval religious movements The contributors explore the social relationships fostered between secular clergy members including parish priests local canons and aristocratic confessors and examine the ways in which laypeople inspired and engaged in devotion beyond religious orders Each essay in the volume considers a major theme in medieval religious history such as the implementation of apostolic ideals pastoral relationships crusade connections vernacular traditions and reform Organized to historicize and challenge the deeply embedded historiographical tendencies that have long distorted the complex dynamics of the late medieval world *Between Orders and Heresy* is a major assessment of medieval religious belief and activity beyond and between the binary of orders and heresies
