Roofs Over America:

Metals in America's Historic Buildings, 1980 Metals in America's Historic Buildings Margot Gayle, David W. Look, John G. Waite, 1998-02 Promotes an awareness of metals in America's buildings and monuments and makes recommendations for the preservation and repair of such metals. Intended for owners, architects, and building managers who are responsible for the preservation and maintenance of America's architectural heritage. When metal building components need rehabilitation or maintenance, info on proper preservation techniques for each metal and its alloys has not been available. This sourcebook on historic architectural metals is a reference on metals used in architecture, how they are used, how to identify them, and when to replace them. Photos. *Hate Crimes in America* Melissa Abramovitz, 2016-12-15 Hate Crimes in America covers the history of crimes motivated by prejudice, examples of such incidents in the headlines today, and the ways in which communities are responding to these vicious acts. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO. **Death and Dying in America** Andrea Fontana, Jennifer Reid Keene, 2009-07-20 This engaging new book takes a fresh approach to the major topics surrounding the processes and rituals of death and dying in the United States. It emphasizes individual experiences and personal reactions to death, as well as placing mortality within a wider social context, drawing on theoretical frameworks, empirical research, and popular culture. Throughout the text, the authors highlight the importance of two key factors in American society which determine who dies and under what circumstances: persistent social inequality and the American consumerist ethic. These features are explored through a discussion of topics ranging from debates about euthanasia to deaths resulting from war and terrorism, from the death of a child to children's experience of grieving and bereavement, and from beliefs about life after death to more practical issues such as the disposal of the dead body. Drawing on sociological, anthropological, philosophical, and historical research, the authors present the salient features of death and dying for upper level students across the social sciences. For anyone interested in learning more about the end of life, this book will provide a useful and accessible perspective on the uniquely American understanding of death and dying. Proceedings, American Philosophical Society (vol. 124, No. 1, 1980) , *Roof over Love & Lust* Robert Leahy, 2009-03-25 Danny Roarkes thirty six year adventure through love and lust is reminiscent of Homers Odyssey and Joyces Ulysses. The novel begins when Danny is a college senior during the final year of the radical 1960s. He goes from college student to professional soccer player, haunted by the Vietnam War, to Cornell doctoral candidate enduring several turbulent relationships. Eventually, as a professor, he develops a theory of genuine teaching at a small private university in Florida. He defends his most inspired graduate student's career when she is denied tenure, then both of their careers are sabotaged by two malcontent faculty members. From rebellion in the free love Sixties to reconciliation as his parents age and die, Danny's journey winds through his friends and extended family of brothers, their wives, and children.
