Recreation Sites in Southwestern National Forests

United States. Forest Service. Southwestern Region. Office of Information,1980 *Theodore Roosevelt in the Field* Michael R. Canfield,2022-12-22 Never has there been a president less content to sit still behind a desk than Theodore Roosevelt When we picture him he s on horseback or standing at a cliff s edge or dressed for safari And Roosevelt was more than just an adventurer he was also a naturalist and campaigner for conservation His love of the outdoor world began at an early age and was driven by a need not to simply observe nature but to be actively involved in the outdoors to be in the field As Michael R Canfield reveals in *Theodore Roosevelt in the Field* throughout his life Roosevelt consistently took to the field as a naturalist hunter writer soldier and conservationist and it is in the field where his passion for science and nature his belief in the manly strenuous life and his drive for empire all came together Drawing extensively on Roosevelt s field notebooks diaries and letters Canfield takes readers into the field on adventures alongside him From Roosevelt s early childhood observations of ants to his notes on ornithology as a teenager Canfield shows how Roosevelt s quest for knowledge coincided with his interest in the outdoors We later travel to the Badlands after the deaths of Roosevelt s wife and mother to understand his embrace of the rugged freedom of the ranch lifestyle and the Western wilderness Finally Canfield takes us to Africa and South America as we consider Roosevelt s travels and writings after his presidency Throughout we see how the seemingly contradictory aspects of Roosevelt s biography as a hunter and a naturalist are actually complementary traits of a man eager to directly understand and experience the environment around him As our connection to the natural world seems to be more tenuous Theodore Roosevelt in the Field offers the chance to reinvigorate our enjoyment of nature alongside one of history s most bold and restlessly curious figures TO FILL SKIES W/PILOTS PB PISANO DOMINICK A,2001-03-17 Launched in 1939 the Civilian Pilot Training Program CPTP was one of the largest government sponsored vocational education programs of its time In *To Fill the Skies with Pilots* Dominick A Pisano explores the successes and failures of the program from its conception as a hybrid civilian military mandate in peacetime through the war years and into the immediate postwar period As originally conceived the CPTP would serve both war preparedness goals and New Deal economic ends Using the facilities of colleges universities and commercial flying schools the CPTP was designed to provide a pool of civilian pilots for military service in the event of war The program also sought to give an economic boost to the light plane industry and the network of small airports and support services associated with civilian aviation As Pisano demonstrates the CPTP s multiple objectives ultimately contributed to its demise Although the program did train tens of thousands of pilots who later flew during the war mostly in noncombat missions military leaders faulted the project for not being more in line with specific recruitment and training needs After attempting to adjust to these needs the CPTP then faced a difficult and ultimately unsuccessful transition back to civilian purposes in the postwar era By charting the history of the CPTP Pisano sheds new light on the politics of

aviation during these pivotal years as well as on civil military relations and New Deal policy making Handbook for History Teachers W.
