Roots Of Lyric Primitive Poetry And Modern Poetics:

Roots of Lyric Andrew Welsh, 2019-01-29 Folk riddles emblems charms and chants are a few of the traditional forms examined by Andrew Welsh to discover the means by which poetic language achieves its powerful effects His book shows how the roots of lyric are embodied in primitive verse forms how they are raised to higher powers in poetry from the Renaissance to the twentieth century and how an awareness of them can illuminate our reading of the poetry of any age Andrew Welsh is Associate Professor of English at Rutgers University Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Sound of Poetry / The Poetry of Sound Marjorie Perloff, Craig Dworkin, 2009-10-15 Sound one of the central elements of poetry finds itself all but ignored in the current discourse on lyric forms The essays collected here by Marjorie Perloff and Craig Dworkin break that critical silence to readdress some of the fundamental connections between poetry and sound connections that go far beyond traditional metrical studies Ranging from medieval Latin lyrics to a cyborg opera sixteenth century France to twentieth century Brazil romantic ballads to the contemporary avant garde the contributors to *The Sound of Poetry The Poetry of Sound* explore such subjects as the translatability of lyric sound the historical and cultural roles of rhyme the role of sound repetition in novelistic prose the connections between sound poetry and music between the visual and the auditory the role of the body in performance and the impact of recording technologies on the lyric voice Along the way the essays take on the ensemble discords of Maurice Scève's *Le Livre de la Vie* Ezra Pound's use of Chinese whispers the alchemical theology of Hugo Ball's Dada performances Jean Cocteau's modernist radiophonics and an intercultural account of the poetry reading as a kind of dubbing A genuinely comparatist study *The Sound of Poetry The Poetry of Sound* is designed to challenge current preconceptions about what Susan Howe has called articulations of sound forms in time as they have transformed the expanded poetic field of the twenty first century

The Cambridge Companion to the Sonnet A. D. Cousins, Peter Howarth, 2011-02-03 A team of distinguished poets and scholars provides an authoritative guide to the history and development of the sonnet

Ambassadors of Culture Kirsten Silva Gruesz, 2020-11-10 This polished literary history argues forcefully that Latinos are not newcomers in the United States by documenting a vast network of Spanish language cultural activity in the nineteenth century Juxtaposing poems and essays by both powerful and peripheral writers Kirsten Silva Gruesz proposes a major revision of the nineteenth century U S canon and its historical contexts Drawing on previously unpublished archival materials and building on an innovative interpretation of poetry's cultural role *Ambassadors of Culture* brings together scattered writings from the borderlands of California and the

Southwest as well as the cosmopolitan exile centers of New York New Orleans and San Francisco It reads these productions in light of broader patterns of relations between the U S and Latin America moving from the fraternal rhetoric of the Monroe Doctrine through the expansionist crisis of 1848 to the proto imperialist 1880s It shows how ambassadors of culture such as Whitman Longfellow and Bryant propagated ideas about Latin America and Latinos through their translations travel writings and poems In addition to these well known figures and their counterparts in the work of nation building in Cuba Mexico and Central and South America this book also introduces unremembered women writers and local poets writing in both Spanish and English In telling the almost forgotten early history of travels and translations between U S and Latin American writers Gruesz shows that Anglo and Latino traditions in the New World were from the beginning deeply intertwined and mutually necessary

This Compost Jed Rasula, 2012-09-01 Poetry for Jed Rasula bears traces of our entanglement with our surroundings and these traces define a collective voice in modern poetry independent of the more specific influences and backgrounds of the poets themselves In This Compost Rasula surveys both the convictions asserted by American poets and the poetics they develop in their craft all with an eye toward an emerging ecological worldview Rasula begins by examining poets associated with Black Mountain College in the 1950s Charles Olson Robert Creeley and Robert Duncan and their successors But This Compost extends to include earlier poets like Robinson Jeffers Ezra Pound Louis Zukofsky Kenneth Rexroth and Muriel Rukeyser as well as Clayton Eshleman Gary Snyder Michael McClure and other contemporary poets Walt Whitman and Emily Dickinson also make appearances Rasula draws this diverse group of poets together uncovering how the past is a compost fertilizing the present He looks at the heritage of ancient lore and the legacy of modern history and colonial violence as factors contributing to ecological imperatives in modern poetry This Compost restores the dialogue between poetic language and the geophysical biological realm of nature that so much postmodern discourse has sought to silence It is a fully developed carefully argued book that deals with an underrepresented element in modern American culture where the natural world and those who write about it have been greatly neglected in contemporary literary history and theory

Native American Renaissance Kenneth Lincoln, 1985-12-04 Lincoln presents the writing of today's most gifted Native American authors against an ethnographic background which should enable a growing number of readers to share his enthusiasm Lincoln has lived with American Indians knows them and is respected by them all this enhances his book

The Mabinogi (Routledge Revivals) C. W. Sullivan III, 2020-03-27. The purpose of this collection, which was first published in 1996, is to provide both an overview of the major critical approaches to the Four Branches of the *Mabinogi* and a selection of the best essays dealing with them. The essays examine the origins of the *Mabinogion*, comparative analyses and structural and thematic interpretations. This book is ideal for students of literature and Medieval studies.

Truth Is Trickiest Jennifer Neville, 2024-11-30. At the end of the tenth century English manuscript, the Exeter Book, there is a collection of almost one hundred riddles. They are notable for many reasons, but one feature in particular has challenged modern readers: their lack of solutions. In *Truth Is Trickiest*, Jennifer Neville argues that the absence of solutions, rather than being an unfortunate accident, uncovers an essential quality of these texts. In opposition to the general expectation that a successfully solved riddle will have one correct answer, Neville argues that the Exeter Book riddles are written to generate multiple solutions. The correct response to an Exeter Book riddle is not a single elegant solution, but instead an ongoing process of interpretation that leads readers to question what they think they know. *Truth Is Trickiest* contextualizes its readings within the larger field of Old English poetry, early medieval material culture, and Anglo-Latin riddles. The book pursues the central issue of interpretation in relation to social values, craftsmanship, hierarchical social structures, violence, irony, humour, and sexuality. It concludes with a full list of previously proposed solutions to document the history of the ongoing argument that the Exeter Book riddles have provoked.

Fiction Without Humanity Lynn Festa, 2019-06-28. Although the Enlightenment is often associated with the emergence of human rights and humanitarian sensibility, humanity is an elusive category in the literary, philosophical, scientific and political writings of the period. *Fiction Without Humanity* offers

a literary history of late seventeenth and early eighteenth century efforts to define the human Focusing on the shifting terms in which human difference from animals things and machines was expressed Lynn Festa argues that writers and artists treated humanity as an indefinite class which needed to be called into being through literature and the arts Drawing on an array of literary scientific artistic and philosophical devices the riddle the fable the microscope the novel and trompe l'oeil and still life painting *Fiction Without Humanity* focuses on experiments with the perspectives of nonhuman creatures and inanimate things Rather than deriving species membership from sympathetic identification or likeness to a fixed template early Enlightenment writers and artists grounded humanity in the enactment of capacities reason speech educability that distinguish humans from other creatures generating a performative model of humanity capacious enough to accommodate broader claims to human rights In addressing genres typically excluded from canonical literary histories *Fiction Without Humanity* offers an alternative account of the rise of the novel showing how these early experiments with nonhuman perspectives helped generate novelistic techniques for the representation of consciousness By placing the novel in a genealogy that embraces paintings riddles scientific plates and fables Festa shows realism to issue less from mimetic exactitude than from the tailoring of the represented world to a distinctively human point of view
