Lerner,2021 *Ideology and Economic Reform Under Deng Xiaoping 1978-1993* Wei-Wei Zhang,2013-02-01 First published in 1996 Is ideology still relevant in post Mao China Deng Xiaoping s wide ranging economic reforms have led to declarations that ideology in China is merely a cynical sham or already dead but a closer look at China seems to suggest a constant conflict of different ideologies associated with the profound transformation of the Chinese society since 1978 This study is an attempt to explore the interactions between major ideological currents and economic reforms *The Politics of Structural Education Reform* Keith A. Nitta,2008-01-07 Education policymaking is traditionally seen as a domestic political process The job of deciding where students will be educated what they will be taught who will teach them and how it will be paid for clearly rests with some mix of district state and national policymakers This book seeks to show how global trends have produced similar changes to very different educational systems in the United States and Japan Despite different historical development social norms and institutional structures the U S and Japanese education systems have been restructured over the past dozen years not just incrementally but in ways that have transformed traditional power arrangements Based on 124 interviews this book examines two restructuring episodes in U S education and two restructuring episodes in Japanese education The four episodes reveal a similar politics of structural education reform that is driven by symbolic action and bureaucratic turf wars which has ultimately hindered educational improvement in both countries **Ideology and Economic Reform Under Deng Xiaoping, 1978-1993** Wei-Wei Zhang,1996 First Published in 1996 Routledge is an imprint of Taylor Francis an informa company *Educational Reform* Seymour Bernard Sarason,2002-07-25 Professor Sarason candidly confronts his errors of omission and commission mistakes and emphases in his half century involvement in educational reform No other major figure in this arena has made public such a searching self critique Sharing his thoughts about the future of education Sarason discusses his thinking on charter schools productive learning motivation high stakes testing the need for teachers to relate differently to each other and to parents the importance of working through change and the mistaken idea that we can clone reforms Although written before the September 11th World Trade Center tragedy the last chapter of this book is extraordinarily relevant to the subsequent national importance of societal values and responsible citizenship Although this is a deliberately personally revealing book Sarason s self scrutiny will be stimulating and invaluable to anyone interested in reform as concept action and values **The Westminster** ,1908 [Charting China's Future](#) Jae Ho Chung,2006-08-24 China has become an undisputed global phenomenon yet twenty five years ago its remarkable

accomplishments were largely unforeseen In an ambitious effort to predict China's coming decades this book explores not only the economic development that has been a key indicator of its success but the often veiled political social and international determinants that will be crucial Leading scholars draw on their years of experience and on the ground understanding of current trends to make informed estimates of China's path positing that its future may well hold neither threat nor collapse All of the contributors provide a set of scenarios and order them in terms of likelihood including the seven factors they have identified as central to charting China's future the Communist Party local electoral reforms and rule of law the federalist possibility social unrest foreign policy orientations Sino American relations and the Taiwan conundrum This book is a must read for anyone who wants to understand China as it rises in power on the world stage Contributions by Jean Pierre Cabestan Jae Ho Chung Bruce J Dickson Peter Hays Gries Tao chiu Lam Yawei Liu Gilbert Rozman and Shiping Tang
