Campbell, 2002 Sand and Sandstone F. J. Pettijohn, P. E. Potter, R. Siever, 2012-12-06 This book is the outgrowth of a week long conference on sandstone organized by the authors first held at Banff Alberta in 1964 under the auspices of the Alberta Association of Petroleum Geologists and the University of Alberta and again in 1965 at Bloomington Indiana under the sponsorship of the Indiana Geological Survey and the Department of Geology Indiana University A 2 page syllabus was prepared for the second conference and published by the Indiana Geological Survey Continuing interest in and demand for the syllabus prompted us to update and expand its contents The result is this book We hope this work will be useful as a text or supplementary text for advanced undergraduate and graduate courses in sedimentation sedimentary petrology or general petrology and perhaps will be helpful to the teachers of such courses Though we have focussed on sandstones we have necessarily included much of interest to students of all sediments We hope also that it will be a useful reference work for the professional geologist especially those concerned with petroleum ground water and economic geology either in industry or government Because the subject is so closely tied to surface processes it may also be of interest to geo morphologists and engineers who deal with beaches and rivers where sand is in transit
