prizing and by demonstrating how neglected titles illuminate critical debates currently central to the field of children's literature. In particular, the essays shed light on the hidden elements of diversity apparent in the neglected Newbery canon while illustrating how the books respond sometimes in quite subtle ways to contemporaneous concerns around race, class, gender, disability, nationalism, and globalism.

Henry James and the 'Woman Business' Alfred Habegger, 2004-08-26 This is a historical critique of Henry James in relation to nineteenth-century feminism and women's fiction. Habegger has brought to light extensive new documentation on James's tangled connections with what was thought and written about women in his time. The emphasis is equally on his life and on his fictions. This is the first book to investigate his father's bizarre lifelong struggle with free love and feminism, a struggle that played a major role in shaping James. The book also shows how seriously he distorted the truth about the cousin Minnie Temple, whose self-assertive image inspired him, and how indebted he was to certain American women writers whom he attacked in reviews but whose plots and heroines he appropriated in his own fiction.

Little Women Louisa May Alcott, 2013-05-13 Chronicles the joys and sorrows of the four March sisters as they grow into young ladies in nineteenth-century New England in an annotated edition that looks at the work in biographical, social, and historical contexts.

U.S. History As Women's History Linda K. Kerber, Alice Kessler-Harris, Kathryn Kish Sklar, 2000-11-09 This outstanding collection of fifteen original essays represents innovative work by some of the most influential scholars in the field of women's history. Covering a broad sweep of history from colonial to contemporary times and ranging over the fields of legal, social, political, and cultural history, this book, according to its editors, intrudes into regions of the American historical narrative from which women have been excluded or in which gender relations were not thought to play a part. The book is dedicated to pioneering women's historian Gerda Lerner, whose work inspired so many of the contributors, and it includes a bibliography of her works. The contributors include Linda K. Kerber on women and the obligations of citizenship; Kathryn Kish Sklar on two political cultures in the Progressive Era; Linda Gordon on women, maternalism, and welfare in the twentieth century; Alice Kessler-Harris on the Social Security Amendments of 1939; Nancy F. Cott on marriage and the public order in the late nineteenth century; Nell Irvin Painter on soul murder as a legacy of slavery; Judith Walzer Leavitt on Typhoid Mary and early twentieth-century public health; Estelle B. Freedman on women's institutions and the career of Miriam Van Waters; William H. Chafe on how the personal translates into the political in the careers of Eleanor Roosevelt and Allard Lowenstein; Jane Sherron De Hart on women, politics, and power in the contemporary United States; Barbara Sicherman on reading *Little Women*; Joyce Antler on the Emma Lazarus Federation's efforts to promulgate women's history; Amy Swerdlow on Left feminist peace politics in the cold war; Ruth Rosen on the origins of contemporary American feminism among daughters of the fifties; Darlene Clark Hine on the making of Black Women in America.
