Medieval Monasticism A Select Bibliography Toronto Medieval Bibliographies:

Medieval Monasticism Giles Constable, 1976-12-15 *Medieval Monasticism* is a bibliography meant as a guide to medieval monasticism giving direction to the most important works in the subject and is prepared by an expert in the field Dr Constable The bibliography has three aims it meant to aid students who are relatively new to the area of study to guide more advanced readers in a subject where they have had little formal training and to assist new libraries in forming a basic collection in the subject presented

Domestic Society in Medieval Europe Professor Michael Sheehan, Pontifical Institute of Mediaeval Studies, 1990

Medieval Latin Frank Anthony Carl Mantello, A. G. Rigg, 1996 Organized with the assistance of an international advisory committee of medievalists from several disciplines *Medieval Latin An Introduction and Bibliographical Guide* is a new standard guide to the Latin language and literature of the period from c A D 200 to 1500 It promises to be indispensable as a handbook in university courses in Medieval Latin and as a point of departure for the study of Latin texts and documents in any of the fields of medieval studies Comprehensive in scope the guide provides introductions to and bibliographic orientations in all the main areas of Medieval Latin language literature and scholarship Part One consists of an introduction and sizable listing of general print and electronic reference and research tools Part Two focuses on issues of language with introductions to such topics as Biblical and Christian Latin and Medieval Latin pronunciation orthography morphology and syntax word formation and lexicography metrics prose styles and so on There are chapters on the Latin used in administration law music commerce the liturgy theology and philosophy science and technology and daily life Part Three offers a systematic overview of Medieval Latin literature with introductions to a wide range of genres and to translations from and into Latin Each chapter concludes with a bibliography of fundamental works texts lexicographical studies and research aids This guide satisfies a long standing need for a reference tool in English that focuses on medieval latinity in all its specialized aspects It will be welcomed by students teachers professional latinists medievalists humanists and general readers interested in the role of Latin as the learned lingua franca of western Europe It may also prove valuable to reference librarians assembling collections concerned with Latin authors and texts of the postclassical period

ABOUT THE EDITORS F A C Mantello is professor of Medieval Latin at The Catholic University of America A G Rigg is professor of English and medieval studies and chairman of the Medieval Latin Committee at the University of Toronto s Centre for Medieval Studies

PRASIE FOR THE BOOK This extraordinary volume joint effort of dozens of scholars in eight countries will be in constant use for research for advising students and designing courses and for answering the queries of nonmedievalist colleagues *Medieval Latin* provides a foundation for advances in research and teaching on a wide front Though Mantello and Rigg s *Medieval Latin* is a superb reference volume I recommend that it also be read from beginning to end in small increments of course The rewards will be sheaves of notes and an immensely enriched appreciation of Medieval Latin and its literature Janet M Martin Princeton University *Speculum* A remarkable achievement and no one interested in medieval Latin

can afford to be without it Journal of Ecclesiastical History Everywhere there is clarity conclusion judicious illustration and careful selection of what is central This guide is a major achievement and will serve Medieval Latin studies extremely well for the foreseeable future The Classical Review **Three Treatises from Bec on the Nature of Monastic Life** Giles

Constable,2008-01-01 The abbey of Bec was founded in the eleventh century and was one of the best known and most influential monasteries in Normandy Celebrated for its high standard of religious life and its intellectual activity Bec also had an exceptional degree of institutional independence The three treatises collected and translated in this volume Tractatus de professionibus monachorum The Profession of Monks De professionibus abbatum The Profession of Abbots and De libertate Beccensis monasterii On the Liberty of the Monastery of Bec are a striking statement of the position of Bec in relation to episcopal and ducal later royal authorities Little is known about the anonymous author of these works except that he was a twelfth century monk with an attachment to Augustine and Gregory the Great and that he had considerable knowledge of canon law His purpose in writing these treatises was to assert and justify the privileges of Bec at a time when many bishops were reacting against monastic freedom especially with regard to profession This volume is an important contribution to understanding not only monasticism in Normandy but also the conflict between church and state in the eleventh and twelfth centuries **The Cambridge History of Medieval Monasticism in the Latin West** Alison I. Beach,Isabelle

Cochelin,2020-01-09 Monasticism in all of its variations was a feature of almost every landscape in the medieval West So ubiquitous were religious women and men throughout the Middle Ages that all medievalists encounter monasticism in their intellectual worlds While there is enormous interest in medieval monasticism among Anglophone scholars language is often a barrier to accessing some of the most important and groundbreaking research emerging from Europe The Cambridge History of Medieval Monasticism in the Latin West offers a comprehensive treatment of medieval monasticism from Late Antiquity to the end of the Middle Ages The essays specially commissioned for this volume and written by an international team of scholars with contributors from Australia Belgium Canada England France Germany Italy the Netherlands Spain Switzerland and the United States cover a range of topics and themes and represent the most up to date discoveries on this topic

Encyclopedia of Monasticism: A-L William M. Johnston,2000 First published in 2000 Routledge is an imprint of Taylor Francis an informa company *Medieval Thought and Historiography* Giles Constable,2023-05-31 Collected Studies CS1065 We assume that we have a clear understanding of how people in the Middle Ages thought and which attitudes they struck but in reality this is a subject of enormous complexity of which conclusions can only be drawn via painstaking archival research and decades of study Giles Constable has spent a career analysing these forces and impulses and this new collection draws together his major findings on a host of topics including frontiers metaphors religious life and spirituality and concepts of political theory *Medieval Germany, Research and Resources* John Eldevik,2006 **Crossing Boundaries at Medieval Universities** Spencer E. Young,2010-11-26 This collaborative volume explores how the creation and the crossing of faculty

disciplinary and social boundaries contributed to the development of the medieval European university **Friendship and Community** Brian Patrick McGuire,2010 First published in 1988 this book has been widely debated inspiring the current interest on medieval friendship In a new introduction McGuire surveys the critical reaction to the original edition and new research on friendship **A World History of Christianity** Adrian Hastings,2000-07-05 This superb volume provides the first genuinely global one volume history of the rise and development of the Christian faith An international team of specialists takes seriously the geographical diversity of the Christian story discussing the impact of Christianity not only in the West but also in Latin America Africa India the Orient and Australasia *Renewing Christianity* Christopher M. Bellitto,2001 This book follows the tide of reform and renewal in Church history and demonstrates that reform has always been an essential element of Christianity Indeed Christopher Bellitto emphasizes that reform should not be perceived as limited to the Reformation or Vatican II As one learns from the author s analysis the history of Christianity is little other than the history of reform This sweeping assessment of Church history is both remarkable and deep but is also highly readable Bellitto begins with an introduction to the subject of reform and follows that with chapters on the patristic period and Carolingian Renaissance the High Middle Ages 1050 1300 Avignon to Trent From Trent to Modernity and Vatican II He ends with a conclusion that draws together the recurring themes and patterns of reform activity in the Church In short this is a unique book on the subject of Church reform *Renewing Christianity* is useful to both scholars and non academics alike It is written in a learnedly popular style and would appeal to clergy seminarians academics graduate students or anyone interested in Church reform and renewal Church history or historical theology **Routledge Revivals: Medieval England (1998)** Paul E. Szarmach,M. Teresa Tavormina,Joel T. Rosenthal,2017-07-05 First published in 1998 this valuable reference work offers concise expert answers to questions on all aspects of life and culture in Medieval England including art architecture law literature kings women music commerce technology warfare and religion This wide ranging text encompasses English social cultural and political life from the Anglo Saxon invasions in the fifth century to the turn of the sixteenth century as well as its ties to the Celtic world of Wales Scotland and Ireland the French and Anglo Norman world of the Continent and the Viking and Scandinavian world of the North Sea A range of topics are discussed from Sedulius to Skelton from Wulfstan of York to Reginald Pecock from Pictish art to Gothic sculpture and from the Vikings to the Black Death A subject and name index makes it easy to locate information and bibliographies direct users to essential primary and secondary sources as well as key scholarship With more than 700 entries by over 300 international scholars this work provides a detailed portrait of the English Middle Ages and will be of great value to students and scholars studying Medieval history in England and Europe as well as non specialist readers Canadian Books in Print ,1986 **Cân Rolant** Annalee C. Rejhon,1984 *Understanding Medieval Liturgy* Helen Gittos,Sarah Hamilton,2017-05-15 This book provides an introduction to current work and new directions in the study of medieval liturgy It focuses primarily on so called occasional

rituals such as burial church consecration exorcism and excommunication rather than on the Mass and Office Recent research on such rites challenges many established ideas especially about the extent to which they differed from place to place and over time and how the surviving evidence should be interpreted These essays are designed to offer guidance about current thinking especially for those who are new to the subject want to know more about it or wish to conduct research on liturgical topics Bringing together scholars working in different disciplines history literature architectural history musicology and theology time periods from the ninth to the fifteenth centuries and intellectual traditions this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages It includes essays that discuss the practicalities of researching liturgical rituals show through case studies the problems caused by over reliance on modern editions explore the range of sources for particular ceremonies and the sort of questions which can be asked of them and go beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period

Learning and Literature in Anglo-Saxon England Michael Lapidge, Helmut Gneuss, 1985 An collection of essays by specialists in the field examining Anglo Saxon learning and text interpretation and transmission **Revue de L'Association Des Humanités** Humanities Association of Canada, 1977 Church History James E. Bradley , Richard A. Muller, 2016 In their acclaimed much used Church History James Bradley and Richard Muller lay out guidelines methods and basic reference tools for research and writing in the fields of church history and historical theology Over the years this book has helped countless students define their topics locate relevant source materials and write quality papers This revised expanded and updated second edition includes discussion of Internet based research digitized texts and the electronic forms of research tools The greatly enlarged bibliography of study aids now includes many significant new resources that have become available since the first edition s publication in 1995 Accessible and clear this introduction will continue to benefit both students and experienced scholars in the field *The Battle Rhetoric of Crusade and Holy War, c. 1099-c. 1222* Connor Christopher Wilson, 2022-11-25 This book examines Latin narratives produced in the aftermath of the First Crusade and challenges the narrative of supposed brutality and amorality of warfare in this period instead focusing on the moral and didactic concerns surrounding warfare and violence with which medieval authors wrestled The battle oration a rousing harangue exhorting warriors to deeds of valour has been regarded as a significant aspect of warfare since the age of Xenophon and has continued to influence conceptions of campaigning and combat to the present day While its cultural and chronological pervasiveness attests to the power of this trope scholarly engagement with the literary phenomenon of the pre battle speech has been limited Moreover previous work on medieval battle rhetoric has only served to reinforce the supposed brutality and amorality of warfare in this period highlighting appeals to martial prowess a hatred for the enemy and promises of wealth and glory This book through an examination of Latin narratives produced in the aftermath of the First Crusade and the decades that followed challenges this understanding and illuminates the moral and didactic concerns surrounding

warfare and violence with which medieval authors wrestled Furthermore while battle orations form a clear mechanism by which the fledgling crusading movement could be explored ideologically this comparative study reveals how non crusading warfare in this period was also being reconceptualised in light of changing ideas about just war authority and righteousness in Christian society This volume is perfect for researchers students and scholars alike interested in medieval history and military studies

Medieval Monasticism A Select Bibliography Toronto Medieval Bibliographies Book Review: Unveiling the Magic of Language

In an electronic era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its capability to stir emotions, provoke thought, and instigate transformation is truly remarkable. This extraordinary book, aptly titled "**Medieval Monasticism A Select Bibliography Toronto Medieval Bibliographies**," written by a highly acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. Throughout this critique, we shall delve into the book's central themes, evaluate its unique writing style, and assess its overall influence on its readership.
