Medieval Art Of Love Objects And Subjects Of Desire:

Wounds of Love Frank Graziano, 2004-01-15 The Peruvian mystic St Rose of Lima Isabel Flores y Oliva 1586-1617 was canonized in 1671 as the first saint of the New World and remains the object of widespread devotion today In this engrossing new study Frank Graziano uses the example of St Rose to explore the meaning of female mysticism and the way in which saints are products of their cultures Virginity austerity eucharistic devotion incessant mortification and mystical marriage to Christ characterized the devotional regimen that structured St Rose's entire life Many of her mystical practices echo the symptoms of such modern psychological disorders as masochism depression hysteria and anorexia nervosa Graziano offers a sophisticated argument not only for the origins and meaning of these behaviors in Rose's case but also for the reason her culture venerated them as signs of sanctity In the process he explores a wide range of themes from the idea of suffering as an expression of love to the assimilation of childhood trauma through religious repetition Graziano also offers a penetrating analysis of the politics of Rose's canonization He finds that her mystical union with God bypassing the institutional channels of sacrament and priestly mediation was inherently subversive to the bureaucratized Church Canonization was a cooptation by which Rose's competing claim to Christ was integrated into the Catholic canon The book concludes with a fascinating exploration of mystical eroticism with its intense experiences of vision and ecstasy The eroticized suffering of many mystics is shown to be very human in origin the mystic's wounded love is projected onto a God conceived to accommodate it *Wounds of Love* is based on a decade of research in archives rare books and an extraordinary range of secondary sources Introducing an innovative method that integrates history cultural studies psychoanalysis and clinical psychology this compelling work offers a bold new interpretation of female mysticism

The English Romance in Time Helen Cooper, 2004 The English Romance in Time is a study of English romance across the Middle Ages and the Renaissance It explores romance motifs quests and fairy mistresses passionate heroines and rudderless boats and missing heirs from the first emergence of the genre in French and Anglo-Norman in the twelfth century down to

the early seventeenth This is a continuous story since the same romances that constituted the largest and most sophisticated body of secular fiction in the Middle Ages went on to enjoy a new and vibrant popularity at all social levels in black letter prints as the pulp fiction of the Tudor age This embedded culture was reworked for political and Reformation propaganda and for the writing of England as well as providing a generous reservoir of good stories and dramatic plots The different ways in which the same texts were read over several centuries or the same motifs shifted meaning as understanding and usage altered provide a revealing and sensitive measure of historical and cultural change The book accordingly looks at those processes of change as well as at how the motifs themselves work to offer a historical semantics of the language of romance conventions It also looks at how politics and romance intersect the point where romance comes true The historicizing of the study of literature is belatedly leading to a wider recognition that the early modern world is built on medieval foundations This book explores both the foundations and the building Similarly generic theory which previously tended to operate on transhistorical assumptions is now acknowledging that genre interacts crucially with cultural context with changing audiences and ideologies and means of dissemination The generation into which Spenser and Shakespeare were born was the last to be brought up on a wide range of medieval romances in their original forms and they could therefore exploit their generic codings in new texts aimed at both elite and popular audiences Romance may since then have lost much of its cultural centrality but the universal appeal of these same stories has continued to fuel later works from Bunyan s *Pilgrim s Progress* to C S Lewis and Tolkien

Archival Materialities in a Digital Age Eirini Goudarouli, Andrew Prescott, 2025-02-27 Materiality looms large in the world of archives in storage conservation and shape or materials of the records How does this materiality change in the digital age The way digital techniques and materialities transform our engagement with archives is highlighted and explored throughout *Archival Materialities in a Digital Age* *Renaissance Siena* A. Lawrence Jenkins, 2005-08-01 The art of Renaissance Siena is usually viewed in the light of developments and accomplishments achieved elsewhere but Sienese artists were part of a dynamic dialogue that was shaped by their city s internal political turmoil diplomatic relationships with its neighbors internal social hierarchies and struggle for self definition These essays lead scholars in a new and exciting direction in the study of the art of Renaissance Siena exploring the cultural dynamics of the city and its art in a specifically Sienese context This volume shapes a new understanding of Sienese culture in the early modern period and defines the questions scholars will continue to ask for years to come What emerges is a picture of Renaissance Siena as a city focused on meeting the challenges of the time while formulating changes to shape its future Central to these changes are the city s efforts to fashion a civic identity through the visual arts

Visualizing Sensuous

Suffering and Affective Pain in Early Modern Europe and the Spanish Americas ,2018-01-03 Visualizing Sensuous Suffering and Affective Pain in Early Modern Europe and the Spanish Americas is a trans cultural collection of studies on visual treatments of the phenomena of suffering and pain in early modern culture Ranging geographically from Italy Spain and the Low Countries to Chile Mexico and the Philippines and chronologically from the fourteenth to the eighteenth centuries these studies variously consider pain and suffering as somatic emotional and psychological experiences From examination of bodies shown victimized by brutal public torture to the sublimation of physical suffering conveyed through the incised lines of Counter Reformation engravings the authors consider depictions of pain and suffering as conduits to the divine or as guides to social behaviour indeed often the two functions overlap Friendship in the Middle Ages and Early Modern Age Albrecht Classen, Marilyn Sandidge, 2011-03-29 Although it seems that erotic love generally was the prevailing topic in the medieval world and the Early Modern Age parallel to this the Ciceronian ideal of friendship also dominated the public discourse as this collection of essays demonstrates Following an extensive introduction the individual contributions explore the functions and the character of friendship from Late Antiquity Augustine to the 17th century They show the spectrum of variety in which this topic appeared not only in literature but also in politics and even in painting **Chaucer and the Canterbury Tales** John C. have been mainly studied in the context of commemorative and social practices but as Ingrid Falque shows they also served as devotional instruments By drawing parallels between the visual strategies of these paintings and texts of the major spiritual writers of the medieval Low Countries she demonstrates that paintings with devotional portraits functioned as a visualisation of the spiritual process of the sitters The book is accompanied by the first exhaustive catalogue of paintings with devotional portraits produced in the Low Countries between c 1400 and 1550 This catalogue is available at no costs in e format [HERE](#) and can also be purchased as a printed hardcover book [HERE](#)

Chaucer and Array Laura Fulkerson Hodges, 2014 An analysis of the ways in which Chaucer uses details of costume clothing and fabric enhancing our understanding of and shedding fresh insights into his work The use Chaucer made of costume rhetoric and its function within his body of works are examined here for the first time The study explores Chaucer s knowledge of the conventional imagery of medieval literary genres especially medieval romances and fabliaux and his manipulation of rhetorical conventions through variations and omissions In particular it addresses Chaucer s habit of playing upon his audience s expectations derived from their knowledge of the literary genres involved and why he omits lengthy passages of costume rhetoric in his romances but includes them in some of his comedic works It also discusses the numerous minor facets of costume rhetoric employed in decorating his texts Chaucer and Array responds to the questions posed by medievalists concerning Chaucer s characteristic pattern of apportioning descriptive detail in his characterization by costume It also examines his depiction of clothing and textiles representing contemporary material culture while focusing attention on the literary meaning of clothing and fabrics as well as on their historic economic and religious signification Laura F Hodges blends her interests in medieval literature and the history of costume in her publications specializing in the semiotics of costume and fabrics in literature A teacher of English literature for a number of years she holds a doctorate in literature from Rice University [Oxford Guides to Chaucer: Troilus and Criseyde](#) Barry Windeatt, 2023-08-24 This is a comprehensive critical guide to Chaucer s Troilus and Criseyde This new edition has been comprehensively revised in light of the latest scholarly and critical research and with a fully updated bibliography It includes a full account of Chaucer s imaginative deployment of his sources and an extended survey of this narrative poem s innovative combination of a range of generic identities The chapters explain how Chaucer builds thematic significance into his poem s symmetrical structure and the poem s distinctive variety in style and language as well as a full commentary on the poem s concerns with love in the contexts of time and mutability and human free will The Guide explores the poem as an extended debate about the nature and value of love and how love was conceptualized and experienced as a form of service in quest of compassionate reward a quasi religious devotion and a potentially fatal illness always in hope of cure The subjectivities of the chief protagonists are fully analysed as is the poem s problematic ending Alongside discussions of theme and structure there is also an account of what the extant manuscripts of Troilus and Criseyde may reveal about the poem s early genesis and a unique survey of responses to Troilus from its own times to the present day

Animating Empire Jessica Keating, 2018-05-09 In the sixteenth and seventeenth centuries German clockwork automata were collected, displayed and given as gifts throughout the Holy Roman, Ottoman and Mughal Empires. In *Animating Empire* Jessica Keating recounts the lost history of six such objects and reveals the religious, social and political meaning they held. The intricate gilt silver enameled and bejeweled clockwork automata almost exclusively crafted in the city of Augsburg represented a variety of subjects in motion from religious figures to animals. Their movements were driven by gears, wheels and springs painstakingly assembled by clockmakers. Typically wound up and activated by someone in a position of power, these objects and the theological and political arguments they made were highly valued by German speaking nobility. They were often given as gifts and as tribute payment and they played remarkable roles in the Holy Roman Empire particularly with regard to courtly notions about the important early modern issues of universal Christian monarchy, the Reformation, the Counter Reformation, the encroachment of the Ottoman Empire and global trade. Demonstrating how automata produced in the Holy Roman Empire spoke to a convergence of historical religious and political circumstances, *Animating Empire* is a fascinating analysis of the animation of inanimate matter in the early modern period. It will appeal especially to art historians and historians of early modern Europe. E-book editions have been made possible through support of the Art History Publication Initiative (AHPI), a collaborative grant from the Andrew W. Mellon Foundation.

Erotic Coleridge A. Taylor, 2005-12-09 *Erotic Coleridge* charts Coleridge's prolific creation of love poems from early flirtatious verse to poems about marital incompatibility, the blank faces of young women fearing for their reputations, the obliterating seductions of young women, the exaltation of falling in love, the spoken and sung voices of women, the pain of jealousy and late meditations on how to live with the waning of love. In his prose he responds to Parliamentary debates about punishing adulteresses and gives advice about how marriage can warp the soul. In his sensual exuberance and his ethics of reverencing the individuality of other persons, Coleridge attends closely to the lives of women.

Satire, Veneration, and St. Joseph in Art, c. 1300-1550 Anne Williams, 2025-10-01 *Satire, Veneration, and St. Joseph in Art, c. 1300-1550* is the first book to reclaim satire as a central component of Catholic altarpieces, devotional art and veneration, moving beyond humor's relegation to the medieval margins or to the profane arts alone. The book challenges humor's perception as a mere teaching tool for the laity and the antithesis of high veneration and theology, a divide perpetuated by Counter Reformation thought and the inheritance of Mikhail Bakhtin's *Rabelais and His World* (1965). It reveals how humor, laughter and material culture played a critical role in establishing St. Joseph as an exemplar in western Europe as early as the thirteenth century. Its goal is to open a new line of interpretation in medieval and early modern cultural studies.

by revealing the functions of humor in sacred scenes the role of laughter as veneration and the importance of play for pre Reformation religious experiences
