Don't Cry Mommy... Linda Ketchum Hulsey,2023-11-14 This book is an event that proves beyond any shadow of a doubt for me that God is indeed alive and well and living within each of us Every day we are given a choice before our feet hit the floor in the morning to plug into our awareness of God s Spirit and goodness I think we all have days when we lose sight of that gift of Spirit by the pressing elements that life throws at us When you enter or are pulled into His realm of love and grace the impossible happens unconditional love In the worst circumstances of my life being the loss of my husband and Carlye s father Kim followed by our daughter s illness and death God sent in people from every walk of life to assist us Those walks included family friends loved ones and people we did not know That group consisted of every religion you could think of every skin color atheists gays and lesbians just to name a few Their compassion and love became so infectious like the cancer we were battling In the end that infection spread so rapidly it overcame Carlye s disease with faith hope and love For me it would have been impossible to survive life without those three gifts from God In what Kim Carlye and I sometimes considered our hell on earth we got a marvelous glimpse of what heaven on earth is like when all people set aside their differences put down their stones and come together to offer unconditional love and assistance in any way they can Not once did anyone ever say Before I offer my assistance I need to know what religion you are or what political party you support There were a few times when we were clueless about who those people were but we always knew by their acts of love they were sent by God I will always be forever thankful Dear friends let us love one another for love comes from God Everyone who loves has been born of God and knows God 1 John 4 7 10

Mothers, Midwives and Reimagining Birthing in the South Bronx Jennifer Dohrn, 2023-11-08 Women came through the doors at a community based birthing center in the South Bronx seeking prenatal care They had heard about the center from a neighbor, a parents group at their children's school or the local mosque or church What they found when they arrived was a brightly colored waiting area that resembled a living room children immersed in games in a corner and staff

that reflected the mosaic of cultures living in the surrounding apartments They also met midwives who asked about their lives their children their families and traditions If pregnancies developed complications back up obstetricians were there to give higher levels of care with the women returning to the midwifery center afterwards The results were healthy mothers and healthy babies For over twenty years the center became a haven for women s health care and a national exemplar It is a tragic and unjust paradox that the United States the highest income country in the world and the country with the largest budget for perinatal care has rising rates of maternal mortality that disproportionately affect women of color Yet an inner city maternity center with midwifery care found solutions to the challenge of making birth safe for low income populations especially women of color This oral history presents the stories of twelve women who participated in this care As they tell it the experience changed their lives and their understanding of what safe quality maternal care can achieve Jennifer Dohrn examines the systems that perpetuate disparities in care from global to local and describes essential components needed for change using oral histories as evidence for the way forward towards maternal health as a human right Mommy Tracked
