Jane Austen Nicholas Ennos, 2013-11-01 Was the author of *Pride and Prejudice* really a poor uneducated woman with no experience of sex or marriage A woman who spent most of her life in rural seclusion never meeting any other authors or literary figures and whose only formal education was two years at a basic primary school This is what biographers of Jane Austen expect us to believe and what Nicholas Ennos refutes in this exposé *Jane Austen A New Revelation* How could Jane Austen have written these novels he asks that have been considered by discriminating critics as some of the finest in the English language Nicholas Ennos shows how the novels reveal the real author to have been a woman who moved in the highest circles of London society was educated in Latin and Greek and who spoke fluent French It reveals the author to be not a retiring spinster but Jane Austen's cousin and sister in law Eliza de Feuillide a married lady of the highest intellect whose ten year course of education was supervised by her famous father a man at the very centre of the intellectual life of London The book traces Eliza's exciting life from her birth in Calcutta India to the court of Marie Antoinette the execution of her first husband in the French Revolution and her connections to the leading literary figures of England and Germany *Jane Austen A New Revelation* reveals many new facts and the close connection between the supposed novels of Jane Austen and those of the novelist with the greatest influence on her Fanny Burney Nicholas Ennos's knowledge of languages enables him to cast a fresh eye on these novels revealing their true author to be a master linguist herself who took her writing style from both French and Latin *Jane Austen A New Revelation* is the first book published to reveal the true author of these works It will appeal both to fans of Jane Austen and literary conspiracists

Contemporary Women Writers Look Back Alice Ridout,2011-01-13 Long before John Barth announced in his famous 1967 essay that late 20th century fiction was The Literature of Exhaustion authors have been retelling and recycling stories Barth was however right to identify in postmodern fiction a particular self consciousness about its belatedness at the end of a long literary tradition This book traces the move in contemporary women s writing from the self conscious ironic parodies of postmodernism to the nostalgic and historical turn of the 21st century It analyses how contemporary women writers deal with their literary inheritances offering an illuminating and provocative study of contemporary women writers re writings of previous texts and stories Through close readings of novels by key contemporary women writers including Toni Morrison Doris Lessing Margaret Atwood Zadie Smith Emma Tennant and Helen Fielding and of the ITV adaptation *Lost in Austen* Alice Ridout examines the politics of parody and nostalgia exploring the limitations and possibilities of both in the contexts of feminism and postcolonialism

Post-War British Women Novelists and the Canon Nick Turner,2010-02-11 With the increasing number of books on contemporary fiction there is a need for a work that examines whom we value and why These questions lie at the heart of this book which by focusing on four novelists literary and popular interrogates the canon over the last fifty years The argument unfolds to demonstrate that academic trends increasingly control canonicity as do the demands of genre the increasing commercialisation of literature and the power of the literary prize Turner argues that literary excellence demonstrated by style and imaginative power is often missing in many works that have become modern classics and makes a case for the value

of the universal in literature Written in a jargon free style with reference to many supporting writers the book raises a number of significant cultural questions about the arts fashions and literary reputations of interest to readers in contemporary literary studies

Jane Austen's Geographies Robert Clark, 2017-11-22 When Jane Austen represented the ideal subject for a novel as three or four families in a country village rather than encouraging a narrow range of reference she may have meant that a tight focus was the best way of understanding the wider world The essays in this collection research the historical significance of her many geographical references and suggest how contemporaries may have read them whether as indications of the rapid development of national travel or of Britain s imperial status or as signifiers of wealth and social class or as symptomatic of political fears and aspirations Specifically the essays consider the representation of colonial mail order wives and naval activities in the Mediterranean the worrisome nomadism of contemporary capitalism the complexity of her understanding of the actual places in which her fictions are set her awareness of and eschewal of contemporary literary conventions and the burden of the Austen family s Kentish origins the political implications of addresses in London and Northamptonshire Skilful detailed and historically informed these essays open domains of meaning in Austen s texts that have often gone unseen by later readers but which were probably available to her coterie readers and clearly merit much closer critical attention
