broad expanse of this multidisciplinary field The Rhetoric of Intention in Human Affairs Gary C. Woodward, 2013-09-12

The Rhetoric of Intention in Human Affairs is an insightful account of the rhetorical and psychological habits we exhibit when we must explain the reasons others act. The assumption that we can know what motivates another person is fed by more hope than certainty and yet it is evidence of a very human impulse. Beginning with a clear template for defining various tiers of motives, this innovative and accessible study moves through a series of chapters exploring the unique demands imposed by different circumstances. These sections cut a wide swath of analysis across a diverse range of human actors including conspiracy theorists who find the designs of coordinated agents behind random events, theater performers creating backstories for their characters, journalists grasping to name the motives of newsmakers, prosecutors who must establish another's intent in order to prove a criminal act, and the devout who grapple with what divine intervention can mean in a cruel world. Readers will recognize themselves in these pages, gaining an appreciation for the rhetorical analysis of human behavior.

Each chapter begins with a historical review of each theoretical perspective and how its original formulation and more recent derivatives account for racial/ethnic differences. The author considers which perspectives have shown the most promise in the area of race, ethnicity, and crime.

The Place of the Explained Verdict in the English Criminal Justice System: Decision-making and Criminal Trials Bethel G. A. Erastus-Obilo, 2008-10-30

Lay participation in the criminal justice process in the form of a jury is a celebrated phenomenon throughout the common law jurisdictions. While not claiming credit for its origin in England as the latent cradle of the modern jury, this mode of decision-making has been disseminated worldwide.

Reason, Curve, Jury Competence, and the English Criminal Justice System Bethel G. A. Erastus-Obilo, 2009

Reason, Curve, Jury Competence and the English Criminal Justice System, a cross-jurisdictional and cross-disciplinary book, seeks to stimulate discussion and extend the debate in the area of criminal trials in light of the absence of an articulated explanation for a verdict. The book traces the history and development of the jury from the Carolingian kings

its advancement in the English Courts following papal intervention the impact of the Magna Carta to its general use current curtailment in England and Wales and re emergence in Continental Europe Central to the book s submission is the dictum that the jurors franchise to deliver a cryptic verdict is a matter between them and their conscience In light of human and civil rights movements the book advances arguments that a cryptic verdict may offend the principle of fair trials in criminal justice This is amplified by the presence of a developing and significant body of law that demands that decisions by public officers be accompanied by articulated pronouncements regarding the basis for their decision While the book does not contend with the sanctity of jury deliberations and recognizes the difficulties associated with reason articulation by lay assessors it argues that the jury continuum provides a fertile ground not only for articulating a verdict in light of human experiences but also for generating the reason curve which provides legitimacy for that verdict Furthermore the reason curve argues that it is entirely possible for the jury to articulate its reasons provided the Criminal Justice System makes provisions not just to expect an explained verdict from the jury but also provides it with the necessary facilities needed for compliance Exploring research and sources in the fields of law and psychology in Europe the USA and other jurisdictions around the world this book is written for an international audience as a catalyst for the student of legal jurisprudence who has interests in the concepts of reason accountability transparency and human rights in the criminal justice system It is also written for the cognitive and behavioral psychologist with an interest in lay decision making in criminal trials In the large legal jurisdictions of the USA and Canada the right to a jury trial is enshrined in state articles As such there is less tinkering with the institution In England and Wales where Parliament is supreme and the constitution is unwritten no such right exists Consequently the government enjoys tremendous leeway in tinkering with the right to jury trial Whether or not the institution can evolve to deliver a 21st Century approach is a matter for full debate research and the march of time

Hallaq,2001-07-02 Wael B Hallaq is regarded as one of the leading scholars in the field of

Islamic law In a path breaking new book the author shows how authority guaranteed both continuity and change in Islamic law While the role of the law schools in augmenting these processes was of the essence the author demonstrates that it was the construction of the absolutist authority of the school founder an image which he suggests was actually developed later in history that maintained the foundations of school methodology and hermeneutics The defence of that methodology gave rise to an infinite variety of individual legal opinions ultimately accommodating changes in the law Thus the author concludes that the mechanisms of change were embedded in the very structure of Islamic law despite its essentially conservative nature

This book will be welcomed by specialists and scholars in Islamic law for its rigour and innovation **Prosecuting Heads**
