**Brian W. Aldiss** Tom Henighan, 1999. One of Britain's most renowned writers of science fiction, the prolific Brian W. Aldiss (b. 1925) is the rare author in this genre to be strongly touted for England's prestigious Booker Prize; he was never nominated, but he has served as a judge. Aldiss's work, both his mainstream *Life in the West* (1980, the first volume of the Squire Quartet) and his intellectually challenging *Barefoot in the Head* (1969), has attracted strong advocacy. In this long overdue comprehensive assessment, Tom Henighan argues that Brian Aldiss's best novels are original in subtle and quietly effective ways. He sees Aldiss not only as a mainstay of the science fiction industry but also as a significant writer of mainstream fiction, an interesting experimenter with a flair for postmodern narrative, as an outstanding literary historian, and as one of the most intelligent and incisive essayists ever to write about the science fiction and fantasy genres. **BOOK JACKET**

After fifteen years of teaching anthropology at a large university, Rebekah Nathan had become baffled by her own students. Their strange behavior, eating meals at their desks, not completing reading assignments, remaining silent through class discussions, made her feel as if she were dealing with a completely foreign culture. So Nathan decided to do what anthropologists do when confused by a different culture: Go live with them. She enrolled as a freshman, moved into the dorm, ate in the dining hall, and took a full load of courses. And she came to understand that being a student is a pretty difficult job too. Her discoveries about contemporary undergraduate culture are surprising, and her observations are invaluable, making *My Freshman Year* essential reading for students, parents, faculty, and anyone interested in educational policy.
