**A Most Remarkable Creature** Jonathan Meiburg, 2022-02-22 An enthralling account of a modern voyage of discovery as we meet the clever social birds of prey called caracaras which puzzled Darwin fascinate modern day falconers and carry secrets of our planet's deep past in their family history Deftly intertwine's natural history and human history with insights and lessons that go far beyond the subject birds David Sibley author of *What It's Like to Be a Bird* Utterly captivating and beautifully written this book is a hugely entertaining and enlightening exploration of a bird so wickedly smart curious and social it boggles the mind Jennifer Ackerman author of *The Bird Way* In 1833 Charles Darwin was astonished by an animal he met in the Falkland Islands handsome social and oddly crow like falcons that were tame and inquisitive quarrelsome and passionate and so insatiably curious that they stole hats compasses and other valuables from the crew of the Beagle Darwin wondered why these birds were confined to remote islands at the tip of South America sensing a larger story but he set this mystery aside and never returned to it Almost two hundred years later Jonathan Meiburg takes up this chase He takes us through South America from the fog bound coasts of Tierra del Fuego to the tropical forests of Guyana in search of these birds striated caracaras which still exist though they're very rare He reveals the wild fascinating story of their history origins and possible futures And along the way he draws us into the life and work of William Henry Hudson the Victorian writer and naturalist who championed caracaras as an unsung wonder of the natural world and to falconry parks in the English countryside where captive caracaras perform incredible feats of memory and problem solving *A Most Remarkable Creature* is a hybrid of science writing travelogue and biography as generous and accessible as it is sophisticated and absolutely riveting
