**The Military Covenant** Sarah Ingham,2016-03-03 The Military Covenant states that in exchange for their military service and their willingness to make the ultimate sacrifice soldiers should receive the nation s support Exploring the concept s invention by the Army in the late 1990s its migration to the civilian sphere from 2006 and its subsequent entrenchment in public policy Ingham seeks to understand the Covenant s progress from the esoteric confines of Army doctrine to national recognition Drawing on interviews with senior commanders policy makers and representatives of Forces charities this study highlights how the Army deployed the Military Covenant to

convey the pressure on the institution caused by the concurrent combat operations in Iraq and Afghanistan While achieving a better deal for soldiers whose sacrifice became all too apparent the Military Covenant licensed unprecedented incursion into politics by senior commanders enabling them to out manoeuvre the Blair Brown governments and to challenge the existing norms within Britain s civil military relationship As British Forces prepare to leave Afghanistan this study considers the value Britain accords to military service and whether civilian society will continue to uphold its Covenant with those who have served the nation

*Essays in Linguistic Ethnography* Adrian

Blackledge,Angela Creese,2023-09-12 This book argues for an approach to linguistic ethnography which departs from the singular gaze of the academic researcher to amplify instead the voices of participants researchers and collaborators The authors offer an account of writing ethnography polyphonically incorporating the complexity of individual voices In doing so they challenge the imperative to make meaning from and explain the culture of the other Together the essays open up the emic perspective by considering the experiential aesthetic emotional moral and ethical value people bring to encounters with others The book is an essential addition to research methods courses in applied linguistics and sociolinguistics and an invaluable contribution to knowledge about research based drama theatre and creative practice

**The Ideas That Rule Us**

Chris Grocott,2024-10-07 It may seem surprising that the economic choices we

make in society are often determined by ideas rather than scientific evidence or financial resources The consequences of such choices are often stark such as the austerity policies which eroded our ability to withstand crises like the Covid 19 pandemic This book explores the ideas that rule how our economy works how government operates and how workers organise A small number of historical economic ideas remain stubbornly prevalent and powerful today However they are largely based on questionable assumptions about human behaviour and unproven theoretical ideas about economics They were founded within the realms of philosophy and politics rather than hard science This book illustrates how politicians have selectively borrowed convenient economic concepts in order to promote and defend policies which entrench and escalate inequalities and other structural problems This accessible book invites readers to question the ideas that rule us and explore the challenges facing society It invites progressive thought about how we need to urgently organise action for the future

**Strangling Aunty: Perilous Times for the Australian Broadcasting Corporation** Virginia Small, 2021-09-24. Drawing on a wealth of academic research, statistics, and interviews with key Australian media people, including present and former Australian Broadcasting Corporation staffers, this book explores the transitions of the ABC under various types of organisational re-strategising, governance, and political shifts. The book provides the reader with an authoritative narrative as to how the ABC has lost its iconic status in Australian society and unfolds how the ABC has strayed from its respected public charter, which endowed the ABC with a distinctive and important role in informing, educating, and entertaining the Australian public. Successive federal government funding cuts have shrunk staffing levels and services, while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process, it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation, the ABC, and analyses

the reasons for its demise within an organisational theoretical framework The book is written for an educated general audience with academics and media practitioners specifically in mind and has everyday applications for business organisations operating in the public sector by bringing together important findings of public funding budgets management and organisational strategies and evolution **Studies in the Rhetoric of Fiction** Ana-Karina Schneider, 2015-09-18

*Studies in the Rhetoric of Fiction* investigates the contemporary novel's relation to its forerunners the picaresques romances and sentimental novels of the 18th century Henry Fielding Laurence Sterne and Jane Austen are stable landmarks while of the contemporary practitioners a handful recur from one chapter to the next particularly Julian Barnes Ian McEwan and Kazuo Ishiguro The chapters share an interest in the rhetoric of fiction broadly understood as the way in which fictional works achieve their effects on readers whether by directly addressing a hypothetical reader using irony and parody orchestrating competitions between divergent narratives imitating musical structures inviting intertextual readings or openly taking issue with traditional conventions and expectations Chapters focusing on narrative strategy and metanarrative comment therefore alternate with those interrogating reading practices and readerly participation in the rhetorical interchange This collection of essays however does not propose a consistent theory of the rhetoric of fiction nor does it claim any generalisable validity for its findings Rather it consists of a series of readings that address various formal aspects of the novels they focus on showing rhetoric in action pointing out the complex ways in which its means and strategies change in time and across genres and media It restores a sense that whatever old tricks the author or narrator is perceived to be up to they are an invitation to the reader to take part in the fun The book will appeal to students and scholars in the early stages of their research encouraging readings that identify rhetorical strategies that challenge conventional forms and expectations It is therefore largely free of rhetorical terminology making sparing use of it when distinctions must be drawn and the more technical aspects of novels are interrogated Ruth First and Joe Slovo in the War Against Apartheid Alan

Wieder, 2013-07-01 Ruth First and Joe Slovo husband and wife were leaders of the war to end apartheid in South Africa Communists scholars parents and uncompromising militants they were the perfect enemies for the white police state Together they were swept up in the growing resistance to apartheid and together they experienced repression and exile Their contributions to the liberation struggle as individuals and as a couple are undeniable Ruth agitated tirelessly for the overthrow of apartheid first in South Africa and then from abroad and Joe directed much of the armed struggle carried out by the famous Umkhonto we Sizwe Only one of them however would survive to see the fall of the old regime and the founding of a new democratic South Africa This book the first extended biography of Ruth First and Joe Slovo is a remarkable account of one couple and the revolutionary moment in which they lived Alan Wieder's deeply researched work draws on the usual primary and secondary sources but also an extensive oral history that he has collected over many years By weaving the documentary record together with personal interviews Wieder portrays the complexities and contradictions of this

extraordinary couple and their efforts to navigate a time of great tension upheaval and revolutionary hope
