Pandas to Penguins Melissa Gaskill, 2018-09-12 Perhaps nothing about nature calls to us as deeply as wild animals To see an enormous whale leaping out of the water the eerily human eyes of a gorilla or the comical waddle of a penguin to hear the ethereal howl of a wolf or majestic roar of a lion these experiences change us Around the world animal populations are threatened by loss of habitat pollution climate change overhunting and poaching and yet wildlife based tourism is growing rapidly and makes up as much as forty percent of the worldwide tourism industry today In *Pandas to Penguins* nature journalist Melissa Gaskill profiles twenty five species and one endangered ecosystem highlighting local ecofriendly travel outfitters operating in the area for those seeking out their own enriching personal experience with wildlife She provides basic information about each animal s behavior and biology descriptions of the threats they face and maps photographs and first person accounts of wildlife watching Each species meets three basic criteria 1 some level of risk to its survival 2 a reasonably accessible habitat where travelers have a chance to view the animal in the wild in its natural setting and 3 responsible tourism that directly benefits the animal or its habitat More than a wildlife bucket list or an exhortation to see them before they re gone this guide is intended to identify wildlife experiences that can be life changing for people as well as animals Extinction is tragic but not inevitable We can all do something to make a difference and *Pandas to Penguins* is an important resource for adventurers and armchair travelers alike
