Pensamiento Estrategico Logica De Programcion:

El Pensamiento estrategico y logica de programacion Mario Testa,2006 Pensamiento estrategico y logica de programacion: el caso de salud Mario Testa,1987 En el ensayo se habla del pensamiento estrategico pero no como un cambio terminologico con relacion a la planificacion estrategica sino como una expresion del cambio de significado politico y cientifico contenido en esa modificacion Este trabajo es una continuacion de otros del mismo autor en particular de *Pensar en Salud* Pensamiento estrategico y logica de programacion: El caso de salud Mario Testa,1989 Social Inequities and Contemporary Struggles for Collective Health in Latin America Emily E Vasquez,Amaya G. Perez-Brumer,Richard Parker,2020-09-10 This book explores the legacy of the Latin American Social Medicine and Collective Health LASM CH movements and other key approaches including human rights activism and popular opposition to neoliberal governance that have each distinguished the struggle for collective health in Latin America during the twentieth and now into the twnty first century At a time when global health has been pushed to adopt increasingly conservative agendas in the wake of global financial crisis and amidst the rise of radical right populist politics attention to the legacies of Latin America s epistemological innovations and social movement action are especially warranted This collection addresses three crosscutting themes First how LASM CH perspectives have taken root as an element of international cooperation and solidarity in the health arena in the region and beyond into the twenty firstcentury Second how LASM CH perspectives have been incorporated and restyled into major contemporary health system reforms in the region Third how elements of the LASM CH legacy mark contemporary health social movements in the region alongside additional key influences on collective action for health at present Working at the nexus of activism policy and health equity this multidisciplinary collection offers new perspective on struggles for justice in twenty first century Latin America The chapters in this book were originally published as a special issue of the journal *Global Public Health* **Pensamiento estratégico y lógica de programación** Mario Testa,1995 En Am rica latina est dejando de ser una simple aspiraci n el hecho de que los sectores populares accedan a gobernar en plano municipal provincial y hasta nacional present ndose el problema de c mo gobernar de c mo evitar aquello que criticamos Este libro incursiona en el aspecto de la programaci n su l gica y su relaci n con los trabajadores de la salud a partir de la construcci n de sujetos a trav s del desarrollo de un pensamiento cr tico que el autor llama pensamiento estrategico *Manual de salud pública* Nicolás Kreplak,Yamila Comes,2024-06-27 Muy lejos de ser la salud ofertada por el Estado la salud p blica es el campo de saberes y pr cticas que gestiona la enorme complejidad de recursos humanos tecnol gicos econ micos de infraestructura que sostienen una parte decisiva del bienestar de la poblaci n Este manual dirigido a estudiantes profesionales o interesados en el rea de la salud explica con precisi n claridad y datos actualizados qui nes son los actores e intereses en juego y por qu pensar la salud como un derecho es mucho m s que una declaraci n de principios De manera exhaustiva y con ejemplos de primera mano los autores cuentan de qu se ocupa la epidemiolog a an lisis de brotes

mortalidad según ciclos de vida cómo está estructurado el sistema de salud en la Argentina y en qué se diferencia de otros países qué estrategias pueden garantizar la cobertura con criterio de equidad y por qué es imperioso evaluar programas y tecnologías sanitarias así como sostener la educación y la formación constantes del personal. Contra los enfoques simplistas que consideran la enfermedad como un problema puramente individual y de raíz biológica cuando es evidente que no todas las personas sufren los síntomas o las discapacidades del mismo modo ni se enferman con la misma frecuencia este libro enseña a reconocer el peso de determinantes claves como la edad el género y las condiciones materiales de vida. Y a articular políticas de prevención asistencia y servicios de atención con verdadera capacidad resolutoria. Escrito por sanitarios con sólida trayectoria académica y enorme compromiso con la investigación y la gestión pública este manual presenta un compendio de conocimientos y herramientas críticas y reflexivas para embarcarse en cualquier rama de la salud y estar a la altura de las necesidades sociales.

Praxis psicosocial comunitaria en salud Graciela Zaldúa, María Marcela Bottinelli, 2017-11-15 Este libro es producto de una praxis implicada en el hacer psicosocial comunitario en salud e integra temas problemas métodos y técnicas de recortes investigativos de proyectos UBACyT. Desde las perspectivas de la Epidemiología Crítica las teorías de género y subjetividad y sus mediaciones abordamos los contextos críticos en salud los territorios y las narrativas de Salud Mental la participación y los movimientos sociales las condiciones de trabajo las representaciones y las identidades profesionales el Síndrome de Burnout y las estrategias de prevención en trabajadores de la salud bancarios y subterráneos las vulnerabilidades y los proyectos de infancias y adolescencias y los dispositivos de acción transformadora en Prevención y Promoción de la Salud. Como colectivo universitario entendemos la investigación como una hermenéutica crítica de los saberes y haceres en salud en sus dimensiones sociohistóricas y emancipatorias. Proponemos categorías de análisis sobre representaciones y prácticas sociales que interpelan al pragmatismo de la gestión de riesgos y datos descontextualizados. El sentido de este recorrido es elucidar reflexionando sobre lo que se hace y lo que se piensa con los actores de la investigación acción participativa promoviendo un saber hacer abierto a lo nuevo y a subjetividades autónomas y transformadoras.

Plan de marketing - 3ra edición Ricardo Hoyos Ballesteros, 2025-06-05 Este libro aunque en su título se presenta como una guía para elaborar un plan de marketing va más allá de enseñar un proceso mecánico para su redacción. Además de enseñar cómo hacer un plan de marketing esta obra enseña cómo ser un verdadero gerente de marketing. Introduce conceptos como arquitectura de marca territorios e identidad de marca. En la sección de marketing operativo presenta una herramienta desarrollada por el autor el modelo CASAR cuyo objetivo es complementar el concepto tradicional de mezcla de mercadeo. Este modelo propone un enfoque procesual que hace la estrategia de marketing más relevante al ilustrar su aplicación a lo largo del ciclo de adquisición retención desarrollo y referenciación de clientes entre otros aspectos clave. Este libro está destinado a convertirse
