How to Make People Like You

Christopher Kingler, Are you wondering how you can improve your relationships with your friends and family? Are you curious about how to get or keep your dream job? Would you like to quickly connect with whoever you want without making a bad impression? It only takes a tenth of a second, a little more than a blink of an eye, to give the first impression, and a good seven seconds to create a difficult idea of the person in front of us. It is all the fault of our brain, the outcome of brain functioning is now bombarded by the media, and that convinces people that they are right about their judgment of a person from the first impression. This manual has all the tools you need to turn strangers into friends, whether you're on a sales call, a first date, or a job interview. As a scholar and writer of psychology journals and books, Christopher Kingler has developed dynamic and innovative strategies for the synchronisation of tone of voice, attitude, and body language in a way that instantly and imperceptibly makes us irresistibly sympathetic to another person. Unfortunately, in everyday life, the risk of making a bad impression is always just around the corner. After all, the choices other people make about you determine your health, wealth, and happiness. Decades of research show that people choose who they want. They vote for them, buy from them, marry them, and spend precious time with them. The good news is that you can arm yourself to win the battles of life, weapons such as the understanding of people's psychological drives. This manual is divided into three parts to facilitate understanding. The first part: Understanding people's psychological drives. How social status can affect the behaviour of people towards you. How to blow up your sympathy level. Overcoming the obstacles and psychological barriers that block you. The second part: Build a solid and lasting self-image. How to be more engaging and charismatic. Discover influencing techniques to make a killer first impression. The third part: Countless communication techniques and exercises. Body language to better express yourself and to decipher who is in front of you. Techniques to seduce and bring anyone to your side. Select the best people to keep by your side. Turn enemies into friends. And much more. Finally, you will learn to adapt, conquer people, and handle virtually any social situation. When you finish reading this book, which is actually an intensive course, the diploma you will receive will not be a scroll with your name written on it, but an invaluable set of knowledge and skills that will allow you to influence people in all spheres of your life, regardless of the situation. What are you waiting for? Become the best version of yourself and grab your copy.

For People Like Us

Luuk van de Weghe, 2023-02-16

Is God really for us? It has been said that no person ever rises above their view of God. Whom we worship, what we worship, is irrevocably tied to who we become. Worship predicts identity. Without a new vision of God, there can be no new vision of hope. In the middle of Luke's Gospel, in chapter 15, are three of Jesus's most treasured parables. They are the holy, holy, holy of Luke's Gospel: The parable of the lost sheep, the parable of the lost coin, and the parable of the lost son. They are more than earthly stories with heavenly meanings. They are images of theological revolution. For People Like Us is not merely a commentary on these parables; it is a study that captures a fresh vision of what God is like.

This vision not only influences our reading of Luke 15 but our reading of this text in turn influences our theology. Once we appreciate this we find that God the creator of innumerable stars is not merely for us. It is his honor to be so. **Not To People Like Us** Susan Weitzman, 2008-08-01 This important book brings the ignored population of abused upper income women to light revealing for the first time the depth and severity of upscale abuse. How is it possible for a highly educated woman with a career and resources of her own to stay in a marriage with an abusive husband? How can a man be considered a pillar of his community, run a successful business and regularly give his wife a black eye? That we can even ask these startling questions proves how convinced we are that domestic abuse is restricted to the lower classes. In **Not to People Like Us** psychotherapist Susan Weitzman dramatically challenges this assumption. It is the first book to explore a previously overlooked population of emotionally and physically battered wives: the upper educated and upper income women who rarely report abuse and remain trapped by their own silence. Weitzman draws on an in depth study to document the shocking nature and incidence of abuse among the wives of professors, physicians and CEOs, many of them professionals and executives themselves. With keen insight and profound sensitivity she reveals the unique path taken by the upscale wife: the early warning signs, the dilemmas and decisions, the dangerous desire to cover up and maintain appearances. The first book to condemn the legal and social service system for failing to recognize domestic violence among upper income families. **Not to People Like Us** offers crucial information to help women find their way out of abusive relationships and toward safety and independence.
