Burning Down the House Nell Bernstein, 2014-06-03 When teenagers scuffle during a basketball game they are typically benched But when Will got into it on the court he and his rival were sprayed in the face at close range by a chemical similar to Mace denied a shower for twenty four hours and then locked in solitary confinement for a month One in three American children will be arrested by the time they are twenty three and many will spend time locked inside horrific detention centers that defy everything we know about how to rehabilitate young offenders In a clear eyed indictment of the juvenile justice system run amok award winning journalist Nell Bernstein shows that there is no right way to lock up a child The very act of isolation denies delinquent children the thing that is most essential to their growth and rehabilitation positive relationships with caring adults Bernstein introduces us to youth across the nation who have suffered violence and psychological torture at the hands of the state She presents these youths all as fully realized people not victims As they describe in their own voices their fight to maintain their humanity and protect their individuality in environments that would deny both these young people offer a hopeful alternative to the doomed effort to reform a system that should only be dismantled **Burning Down the House** is a clarion call to shut down our nation's brutal and counterproductive juvenile prisons and bring our children home

Biohackers Magazine Issue 10 Biohackers Magazine , There's nothing quite like the feeling of a clear mind Clarity can never be taken for granted We've all suffered moments in our life when our mind felt clouded inefficient sluggish As biohackers we know how important it is to have a clear mind is and how it affects every other aspect of our life Our mind is where we hold our foundations of knowledge and also where we build on it There are aspects of the body mind and spirit triangle found in countless dogmas ideologies philosophies and the such over the course of human history Spirit guides us and acts through our body Our Mind is where we can receive what the world is showing us actively or passively and apply this learned knowledge to serve our spirit in a mutually beneficial way towards growth Because of this it cannot be overstated enough that what we put into our minds passively or actively has a correlative impact on where we are going in our lives Its easy to let the world shape our mind The more difficult path is a narrow one and involves choosing each and every day to be the gatekeeper of what enters your mind Awareness is the shield of any great student of life without it we become subject to the vast thoughts of destruction that eat away at and destroy the mind leaving us feeling lost and in despair The way to high road is acting as an always alert and aware sentry to your mind's gate only allowing thoughts ideas and other inputs that relate to creation and life It all starts in the mind The battle can go on for what feels like forever but the

battle is lost or won in the mind Put your attention there and rest assured that you will be well equipped and prepared to handle the toughest of obstacles that life and the world throws your way Don't ask for your life to be easy ask for you to be better to be stronger and to be WISER to tackle and overcome all of the learning experiences When we see what happens to us in life as an adventure full of unpredictable events and experiences that forge our armor to be more effective we go into battle with a clear and set mindset To come out on top and wiser after all the ashes of the battlefield fall To love wisdom we must first become aware of what contributes and what attacks our wisdom Make your mind aware and walk confidently into each challenge life presents you

A Sound So Very Loud Ted Kessler, 2025-08-19 The first definitive history of the iconic band Oasis as told through their music and using their songs as the starting point A Sound So Very Loud is the first book to offer a definitive history of Oasis as narrated through their music using their songs as the foundation but breaking out more widely to include sections of background and cultural context It's written by leading music journalists Ted Kessler and Hamish MacBain who have very close ties to the band and their management and have interviewed the Gallaghers dozens of times There has never been a definitive forensically detailed history of Oasis and their music a book that takes readers to the heart of the band's work and what lay behind it in the kind of deeply researched knowledgeable detail that has been afforded The Beatles perhaps most notably with Ian MacDonald's Revolution In the Head which examined every Beatles song in chronological detail MacBain and Kessler's intention is to write the book that satisfies the many millions of fans globally similarly obsessed with Oasis's music but who currently only have scattered social media pages to turn to add depth to the story These authors deliver the definitive chronological history of the songs of Oasis that will appeal to fans old and new in doing so bringing the wider Oasis story into play in glorious color The pair have interviewed both Gallaghers dozens of times between 1994 and 2024 and no other journalists can claim more or more lively encounters with Liam and Noel The book will also revisit each interview in the first person chronologically throughout to add unique perspective and texture to the wider story MacBain and Kessler will also dissect sleeve art with the designers and photographers delving into each detail surrounding the band This is a veritable Oasis treasure trove

Minority Student Retention Alan Seidman,2019-05-23 Student retention continues to be a vexing problem for all colleges and universities In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals and graduate the figures have not improved over time This is particularly true for minority students who have a greater attrition rate than majority students Demographic information shows that the minority population in the United States is growing at a faster rate than the majority It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students Retention rates should not differ appreciably among different racial ethnic groups The Journal of College Student Retention Research Theory and Practice is the only scholarly peer reviewed journal devoted solely to college student retention It has published many articles on minority student retention and this topic continues to garner much attention This book is a compilation of the very best of these articles selected on the basis of reviews by a cadre of experts in the education field The articles discuss African American Latino Latina Asian and Asian Pacific Native American and biracial students and institutional commitments to retaining a diverse student population For those interested in this vital area the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our colleges and universities
