    People Places ,1976   **Urban Open Space** Mark Francis,2003-09   Convivial Urban Spaces Henry Shaftoe,2012-05-04 Despite developments in urban design during the last few decades architects urban planners and designers often continue to produce areas of bland commercially led urban fabric that deliver the basic functional requirements of shelter work and leisure but are socially unsustainable and likely generators of future problems Convivial Urban Spaces demonstrates that successful urban public spaces are an essential part of a sustainable built environment

Without them we are likely to drift into an increasingly private and polarized society with all the problems that would imply Taking a multidisciplinary approach this book draws on research and the literature and theory of environmental psychology and urban design to advance our understanding of what makes effective public spaces Practical guidance is illustrated with case studies from the UK Spain Germany and Italy The result is a practical and clearly presented guide to urban public space for planners architects and students of the urban environment **Public Space** Vikas Mehta,2022-09-05 Public Space notes on why it matters what we should know and how to realize its potential journeys a vast territory and presents a panoramic view of public space an understanding from numerous disciplines under one cover in an incisive and concise manner As a dialogue between the social political and the material physical the book brings together the key ideas that encompass the social political and physical issues in the making and experience of public space The book is at the same time a primer and a progressive text It makes the case for public space digs deep into understanding what public space is followed by three sections that present the inherent paradoxes the possibilities and propositions for a more meaningful public space The book presents ideas in concise and approachable ways from established tenets to new propositions that are constructive and thought provoking with many that will challenge the reader s preconceived notions Students and scholars in the built environment disciplines and social sciences public space managers public and private sector practitioners and civic leaders but also residents who want to better understand and make an impact in their communities and cities will find Public Space to be a valuable resource *The Routledge Handbook of Urban Design Research Methods* Hesam Kamalipour,Patricia Aelbrecht,Nastaran Peimani,2023-08-24 As an evolving and contested field urban design has been made unmade and remade at the intersections of multiple disciplines and professions It is now a decisive moment for urban design to reflect on its rigour and relevance This handbook is an attempt to seize this moment for urban design to further develop its theoretical and methodological knowledge base and engage with the question of what urban design can be with a primary focus on its research This handbook includes contributions from both established and emerging scholars across the global North and global South to provide a more field specific entry point by introducing a range of topics and lines of inquiry and discussing how they can be explored with a focus on the related research designs and methods The specific aim scope and structure of this handbook are appealing to a range of audiences interested and or involved in shaping places and public spaces What makes this book quite distinctive from conventional handbooks on research methods is the way it has been structured in relation to some key research topics and questions in the field of urban design regarding the issues of agency affordance place informality and performance In addition to the introduction chapter this handbook includes 80 contributors and 52 chapters organised into five parts The commissioned chapters showcase a wide range of topics research designs and methods with references to relevant scholarly works on the related topics and methods The Sustainable City XIII S. Mambretti, J. L. Miralles i Garcia,2019-12-06 Containing papers presented at the 13th International Conference on Urban

Regeneration and Sustainability this volume includes latest research providing solutions that lead towards sustainability The series maintains its strong reputation and contributions have been made from a diverse range of delegates resulting in a variety of topics and experiences   Designing Small Parks Ann Forsyth,Laura Musacchio,2005-10-24 Designing Small Parks A Manual for Addressing Social and Ecological Concerns provides guidelines for building better parks by integrating design criteria with current social and natural science research Small parks are too often relegated to being the step child of municipal and metropolitan open space systems because of assumptions that their small size and isolation limits their recreational capacity and makes them ecologically less valuable than large city and county parks This manual is arranged around twelve topics that represent key questions contradictions or tensions in the design of small parks Topics cover fundamental issues for urban parks natural systems and human aspects Also included are useful case studies with alternative design solutions using three different approaches for integrating research findings into small urban park design   *Healing Gardens* Clare Cooper Marcus,Marni Barnes,1999-06-15 Although the healing qualities of nature have been recognized and relied on for centuries as a valuable part of convalescence recent history has seen nature s therapeutic role virtually eclipsed by the technological dominance of modern medicine As the twentieth century comes to a close and the medical community reacknowledges the importance of the environment to recovery the healing garden is emerging as a supplement to drug or technology based treatments Healing Gardens celebrates this renewed interest in nature as a catalyst for healing and renewal by examining the different therapeutic benefits of healing gardens and offering essential design guidance from experts in the field Unique and comprehensive Healing Gardens provides up to date coverage of research findings relevant design principles and approaches and best practice examples of different types of healing gardens It begins by exploring what current research reveals about the connection between nature human stress reduction and medical outcomes It then presents case studies and design guidelines for outdoor spaces in medical settings that include general psychiatric and children s hospitals as well as hospices nursing homes and Alzheimer s facilities Historical information literature reviews and studies on use are included for each type of outdoor space covered offering important insights into what works in healing gardens and what doesn t Generously supplemented with photographs site plans anecdotes and more Healing Gardens is an invaluable practical guide for landscape architects and others involved in creating and maintaining medical facilities and an extremely useful reference for those responsible for patient care A unique and comprehensive look at the therapeutic effects and design of healing gardens For more and more people the shortest road to recovery is the one that leads through a healing garden Combining up to date information on the therapeutic benefits of healing gardens with practical design guidance from leading experts in the field Healing Gardens is an important resource for landscape architects and others working in this emerging area With the help of site plans photographs and more it presents design guidelines and case studies for outdoor spaces in a range of medical settings including Acute care general hospitals Psychiatric hospitals

Children s hospitals Nursing homes Alzheimer s facilities Hospices   Urban Squares as Places, Links and Displays Jon Lang,Nancy Marshall,2016-07-15 To attract investment and tourists and to enhance the quality of life of their citizens municipal authorities are paying considerable attention to the quality of the public domain of their cities including their urban squares Politicians find them good places for rallies Children consider squares to be playgrounds the elderly as places to catch up with each other and for many others squares are simply a place to pause for a moment Urban Squares as Places Links and Displays Successes and Failures discusses how people experience squares and the nature of the people who use them It presents a typology of squares based on the dimensions of ownership the square s instrumental functions and a series of their basic physical attributes including size degree of enclosure configuration and organization of the space within them and finally based on their aesthetic attributes their meanings Twenty case studies illustrate what works and what does not work in different cities around the world It discusses the qualities of lively squares and quieter more restorative places as well as what contributes to making urban squares less desirable as destinations for the general public The book closes with the policy implications stressing the importance and difficulties of designing good public places Urban Squares offers how to guidance along with a strong theoretical framework making it ideal for architects city planners and landscape architects working on the design and upgrade of squares   *New Frontiers of Space, Bodies and Gender* Rosa Ainley *Nfa*,Rosa Ainley,2002-01-04 This collection unravels the stereotypical images of gender and space and presents a series of new explorations into both lived and imagined spaces In New Frontiers of Space Bodies and Gender leading contemporary writers from across an eclectic mix of disciplines examine an exciting array of issues such as Jamaican Ragga music and female performance Feminist anti violence work Pregnant women s experience of shopping centres The fear of crime felt by women using urban greenspace Implications of technology in gendering identities This book forges new parameters for debates of gender and space leaving behind the simple focus on women as victim in the public arena and remapping considerations of space which look beyond bricks and mortar Contributors Aylish Wood Robyn Longhurst Ali Grant Lesley Klein Affrica Taylor Inga Lisa Sangregorio Jacqueline Leavitt Tracey Skelton Nina Wakeford Jos Boys Sally R Munt Doreen Massey Jacquie Burgess Maher Anjum Lynne Walker   **Community Management of Urban Open Spaces in Developing Economies** Bharati Mohapatra,2016-04-12 Dr Bharati Mohapatra examines the social functional physical and emotional aspects of neighborhood Open Space and the attitude of people for community participation in managing the Open Space as well as development of a framework for community participation by integrating the social psychological and spatial attributes   **Public Places in Asia Pacific Cities** Pu Miao,2013-03-14 PUMIAO 1 The Subject Matter Urban Public Places 2 The Location Asia Pacific Region 3 The Purpose of the Book For the Makers of Public Places 4 The Three Perspectives of the Book Description Criticism and Intervention 5 Perspective One Characteristics of Asia Pacific Cities and Their Public Places 1 High Population Density 2 Large Cities 3 Mixed Uses 4 Government Centered and Pro Development Culture 5 The East versus
