People Politics And Community In The Later Middle Ages:

People, Politics, and Community in the Later Middle Ages Joel Thomas Rosenthal, Colin Richmond, 1987 **Political Culture in Late Medieval Britain** Linda Clark, Christine Carpenter, 2004 Eight studies of aspects of C15 England united by a common focus on the role of ideas in political developments of the time The concept of political culture has become very fashionable in the last thirty years but only recently has it been consciously taken up by practitioners of late medieval English history who have argued for the need to acknowledge the role of ideas in politics While this work has focused on elite political culture interest in the subject has been growing among historians of towns and villages especially as they have begun to recognise the importance of both internal politics and national government in the affairs of townsmen and peasants This volume the product of a conference on political culture in the late middle ages explores the subject from a variety of perspectives and in a variety of spheres It is hoped that it will put the subject firmly on the map for the study of late medieval England and lead to further exploration of political culture in this period Contributors CAROLINE BARRON ALAN CROMARTIE CHRISTOPHER DYER MAURICE KEEN MIRI RUBIN BENJAMIN THOMPSON JOHN WATTS JENNY WORMALD LINDA CLARK is editor History of Parliament CHRISTINE CARPENTER is Reader in History University of Cambridge

Ireland and the English World in the Late Middle Ages B. Smith, 2009-04-14 This volume extends the British Isles approach pioneered by Robin Frame and Rees Davies to the later middle ages Through examination of issues such as frontier formation colonial identities and connections with the wider world it explores whether this period saw the bonds between the British Isles weaken strengthen or simply alter **Well-being Past and Present** Siobhan Hyland, Paul Jackson, Mark Rothery, 2025-09-18 In this exciting interdisciplinary volume researchers archivists curators and social scientists offer a fresh exploration of the concept of well being in Britain throughout history and in the present day Well being Past and Present examines the various ways well being has been invoked as a concept or term throughout historical periods attending to its multifarious meanings and its significance on the way we live our lives Focusing on the interactions between historical research and heritage and archival methods and practices the volume bridges the gap between historical experiences of well being and contemporary well being interventions by institutions and communities Across sixteen chapters the authors in Well being Past and Present travel from the battlefield to the library the orchard to the archive and the country house to the hospital ward examining well being's own historical and contemporary position in discourses like leisure health and happiness The key questions this volume asks are has the concept of well being become too nebulous to carry any real meaning What happens to the term when we place it in the range of very different contexts that it finds a home in How do past discourses of well being connect to the present How widely is well being and associated activities spread across our diverse societies Well being Past and Present is a timely volume and contributes not just to our historical understanding of well being but how we can utilise history and heritage to establish communities of care in Britain **The Politics of Pearl**

Necessary Conjunctions D. Shaw, 2016-04-30 *Necessary Conjunctions* is an original study of how regular medieval people created their public social identities Focusing especially on the world of English townspeople in the later Middle Ages the book explores the social self the public face of the individual It gives special attention to how prevalent norms of honor fidelity and hierarchy guided and were manipulated by medieval citizens With variable success medieval men and women defined themselves and each other by the clothes they wore the goods they cherished as well as by their alliances and enemies their sharp tongues and petty violence Employing a highly interdisciplinary methodology and an original theory makes it possible to see how personal agency and identity developed within the framework of later medieval power structures

William Waynfilet, Bishop and Educationalist Virginia Davis, 1993 Study of the life of bishop of Winchester 1447-86 one of the great educationalists and patrons of learning of late medieval England This is the first modern study of William Waynfilet powerful and influential bishop of Winchester from 1447 to 1486 Waynfilet was one of the great educationalists and patrons of learning of late medieval England and his career was dominated by an interest in education He played a leading role in some of the changes which transformed education in 15th century England the emergence in Oxford and Cambridge of new and larger colleges the influence of continental humanist ideas which reshaped English thought the introduction of the teaching of Greek the composition of new grammars and the introduction of printing as a means of disseminating the new learning Through her examination of Waynfilet's career Davis challenges the received view of the gangrenous corruption of the medieval church and instead supports recent research which suggests the truth to have been far more complex As this biography records Waynfilet himself was politically linked to Henry VI and the Lancastrian administration and most of his time was spent in southern England However he retained close links with his native Lincolnshire and his commitments there are also fully considered VIRGINIA DAVIS is lecturer in history at Queen Mary and Westfield College University of London

Barbour's Bruce and Its Cultural Contexts Stephen I. Boardman, Susan Foran, 2015 Fresh approaches to one of the most important poems from medieval Scotland John Barbour's *Bruce* an account of the deeds of Robert I of Scotland 1306-29 and his companions during the so called wars of independence between England and Scotland is an important and complicated text Composed c 1375 during the reign of Robert's grandson Robert II the first Stewart king of Scotland 1371-90 the poem represents the earliest surviving complete literary work of any length produced in Inglis in late medieval Scotland and is usually regarded as the starting point for any worthwhile discussion of the language and literature of Early Scots It has also been used as an essential historical source for the career and character of that iconic monarch Robert I But its narrative defies easy categorisation and has been

variously interpreted as a romance a verse history an epic or a chivalric biography This collection reassesses the form and purpose of Barbour's great poem It considers the poem from a variety of perspectives re-examining the literary historical cultural and intellectual contexts in which it was produced and offering important new insights Steve Boardman is a Reader in History at the University of Edinburgh Susan Foran currently an independent scholar researches chivalry war and the idea of nation in late medieval historical writing Contributors Steve Boardman Dauvit Broun Michael Brown Susan Foran Chris Given Wilson Theo van Heijnsbergen Rhiannon Purdie Birn Tjalling Diana B Tyson Emily Wingfield

Medieval Single Women Cordelia Beattie, 2007-09-13 The single woman is a troubling and disruptive category Does it denote all unmarried women therefore creating a group which every female was part of at some stage in her life Or were the categories maiden and widow so culturally significant in late medieval England that single woman was a residual category for women seen as anomalous Was the category single man used in an equivalent way and if not why This study offers a way into the complex process of social classification in late medieval England All societies use classifications in order to understand and impose order In this book Cordelia Beattie views classification as a political act an act of power those classifying must make choices about which divisions are most important or about who falls into which category and such choices have repercussions Defining how a group or an individual should be labelled means variables such as social status gender or age are prioritized Rather than isolate gender as a variable this book examines how it relates to other social cleavages Using a variety of approaches from social and cultural history to gender history and medieval studies its original methodology offers an innovative approach to a range of historical texts from pastoral manuals to tax returns and guild registers

The Last Medieval Queens J. L. Laynesmith, 2004-02-12 The last medieval queens of England were Margaret of Anjou Elizabeth Woodville Anne Neville and Elizabeth of York four very different women whose lives and queenship were dominated by the Wars of the Roses This book is not a traditional biography but a thematic study of the ideology and practice of queenship It examines the motivations behind the choice of the first English born queens the multifaceted rituals of coronation childbirth and funeral the divided loyalties between family and king and the significance of a position at the heart of the English power structure that could only be filled by a woman It sheds new light on the queens struggles to defend their children's rights to the throne and argues that ideologically and politically a queen was integral to the proper exercise of mature kingship in this period

Ceremony and Civility Barbara A. Hanawalt, 2017 Medieval London like all premodern cities had a largely immigrant population only a small proportion of the inhabitants were citizens and the newly arrived needed to be taught the civic culture of the city in order for that city to function peacefully Ritual and ceremony played key roles in this acculturation process In *Ceremony and Civility* Barbara A Hanawalt shows how in the late Middle Ages London's elected officials and elites used ceremony and ritual to establish their legitimacy and power In a society in which hierarchical authority was most

commonly determined by inheritance of title and office or sanctified by ordination civic officials who had been elected to their posts relied on rituals to cement their authority and dominance Elections and inaugurations had to be very public and visually distinct in order to quickly communicate with the masses the robes of office needed to distinguish the officers so that everyone would know who they were The result was a colorful civic pageantry Newcomers found their places within this structure in various ways Apprentices entering the city to take up a trade were educated in civic culture by their masters Gilds similarly used rituals oath swearing and distinctive livery to mark their members belonging But these public shows of belonging and orderly civic life also had a dark side Those who rebelled against authority and broke the civic ordinances were made spectacles through ritual humiliations and public parades through the streets so that others could take heed of these offenders of the law An accessible look at late medieval London through the lens of civic ceremonies and dispute resolution Ceremony and Civility synthesizes archival research with existing scholarship to show how an ever shifting population was enculturated into premodern London Art, Identity and Devotion in Fourteenth-century England Kathryn Ann Smith,2003-01-01 Examines the De Lisle hours of Margaret de Beauchamp the De Bois hours Dubois hours of Hawisia de Bois and the Neville of Hornby hours of Isabel de Byron **Controlling Misbehavior in England, 1370-1600** Marjorie Keniston McIntosh,2002-06-20 In this important study Professor McIntosh argues against the suggestion that social regulation was a distinctive feature of the decades around 1600 resulting from Puritanism Instead through an examination of 255 village and small town communities distributed throughout England Professor McIntosh demonstrates that concern with wrongdoing mounted gradually between 1370 and 1600 In an attempt to maintain good order and enforce ethical conduct local leaders prosecuted people who slandered or quarrelled with their neighbours engaged in sexual misdeeds operated unruly alehouses or refused to work Professor McIntosh also explores who the offenders were as well as the factors that led to misbehaviour and shaped responses to it More generally Professor McIntosh sheds light on the transition from medieval to early modern patterns and succeeds here in opening up little known sources and new research methods *Gender and Heresy* Shannon McSheffrey,2010-11-24 Shannon McSheffrey studies the communities of the late medieval English heretics the Lollards and presents unexpected conclusions about the precise ways in which gender shaped participation and interaction within the movement **Chaucer, Gower, Hoccleve and the Commercial Practices of Late Fourteenth-Century London** Craig E. Bertolet,2016-04-15 As residents of fourteenth century London Geoffrey Chaucer John Gower and Thomas Hoccleve each day encountered aspects of commerce such as buying selling and worrying about being cheated Many of Chaucer s Canterbury Tales address how pervasive the market had become in personal relationships Gower s writings include praises of the concept of trade and worries that widespread fraud has harmed it Hoccleve s poetry examines the difficulty of living in London on a slender salary while at the same time being subject to all the temptations a rich market can provide Each writer finds that principal tensions in London focused on commerce how it worked who

controlled it how it was organized and who was excluded from it Reading literary texts through the lens of archival documents and the sociological theories of Pierre Bourdieu this book demonstrates how the practices of buying and selling in medieval London shaped the writings of Chaucer Gower and Hoccleve Craig Bertolet constructs a framework that reads specific Canterbury tales and pilgrims associated with trade alongside Gower's *Mirour de L'Omme* and *Confessio Amantis* and Hoccleve's *Male Regle* and *Regiment of Princes* Together these texts demonstrate how the inherent instability commerce produces also produces narratives about that commerce

Patriarchy and Families of Privilege in Fifteenth-Century England Joel T. Rosenthal, 1991-09-29 There are contained Joel Rosenthal two suppositions that have achieved almost full and unquestionable acceptance in contemporary social history and family studies The first is that at any given time in any given culture one particular form or model of the family dominates the second is that historical changes in the family operate in a single and compelling direction In *Patriarchy and Families of Privilege in Fifteenth Century England* the author joins quantitative and legal evidence with case studies to yield a depiction of the family as something at once corporeal fictive and symbolic

Representing Medieval Genders and Sexualities in Europe Dr Alison More, Dr Elizabeth L'Estrange, 2012-10-01 Transcending both academic disciplines and traditional categories of analysis this collection illustrates the ways genders and sexualities could be constructed subverted and transformed Focusing on areas such as literature hagiography history and art history from the Anglo Saxon period to the early sixteenth century the contributors examine the ways men and women lived negotiated and challenged prevailing conceptions of gender and sexual identity In particular their papers explore textual constructions and transformations of religious and secular masculinities and femininities visual subversions of gender roles gender and the exercise of power and the role sexuality plays in the creation of gender identity The methodologies which are used in this volume are relevant both to specialists of the Middle Ages and early modern periods and to scholars working more broadly in fields that draw on contemporary gender studies
