Daunton, 2000 The process of urbanisation and suburbanisation in Britain from the Victorian period to the twentieth century **Vice and the Victorians** Mike Huggins, 2015-12-17 Vice and the Victorians explores the ways the Victorian world gave meanings to the word vice and the role this complex notion played in shaping society Mike Huggins provides a richer and more nuanced understanding of a term that despite its vital importance to the Victorians has thus far lacked a clear definition Each chapter explores a different facet of vice Firstly the book seeks to define exactly what vice meant to the Victorians exploring how the language of vice was used as a tool to beat down opposition and dissent It considers the cultural geography and spatial dimensions of vice in the public and private spheres before moving on to look at specific vices the unholy trinity of drink sex and gambling Finally it shifts from vice to virtue and the efforts of moral reformers and reassesses the relationship between vice and respectability in Victorian life In his lively and engaging discussion Mike Huggins draws on a range of theory and exploits a wide variety of texts and representations from the periodical press parliamentary reports and Acts novels obscene

Civil Society, Associations and Urban Places Boudien de Vries, 2016-12-05 In recent years the concept of civil society has become central to the historian's understanding of class cultural and political power in the nineteenth century town and city Increasingly clubs and voluntary societies have been regarded as an important step in the formation of formal political parties particularly for the working and middle classes The result of this is the assertion that the more associations existing in a particular society the deeper democracy becomes entrenched In order to test this hypothesis this volume brings together

essays by an international group of urban historians who examine the construction of civil society from associational activity in the urban place From their studies it soon becomes clear that such simple propositions do not adequately reflect the dynamics of nineteenth century urban society and politics Urban associations were ideological in purpose and deliberately discriminatory and as such set the boundaries of civil society Thus competing and segmented associations were not only an indication of pluralism and strength but also highlighted a fundamental weakness when faced down by the interests of the state Through a wide array of urban associations in a broad range of settings comprising Austria and Bratislava France and Italy the Netherlands Austro Hungary England Scotland and the US this volume reflects on the construction of class nation and culture in the associations of the nineteenth century urban place In so doing it shows that a deep and interlocking civil society does not automatically lead to a rise in democratic activity Expansion of the networks of urban association could equally result in greater subdivision and to the fragmentation and isolation of certain groups Partition as much as coherence is our understanding of civil society and associations in the nineteenth century urban place **Dining On Turtles D.**

Kirkby,T. Luckins,2007-11-13 As gentlemen of the Royal Society in London sat down to their turtle dinner in 1793 they were participating in an historical event an act simultaneously of fine dining and colonialism Feasting and drinking the communities in which they occurred and larger themes of historical significance are explored here offering new insights into the past *Northern Scotland* ,1997 *The Local Historian* ,1994 Issues for autumn 1961 include the Standing Conference for Local History Bulletin **The People's Palace of Late Victorian Scotland** Stephanie Gray,2013 For many centuries Scots heralded the pub as the center of commercial political and social life The emergence of the modern city in the mid nineteenth century had significant impacts on how culture was defined and accessed and as the communities which patronized and regulated the pub changed so too did the institution and the role it assumed as a space for shaping Scottish culture This thesis explores three identifiers of Victorian Scotland that determined what form the pub assumed the social geography of an urban city the burgeoning middle class and its subsequent ideas of respectability and moral space and the material culture and spatial practices of the pub itself What resulted was a period of mass pub remodels during the years 1880 1910 in which pub decoration and ornamentation became increasingly elaborate The new pub called the People s Palace by Rudolph Kenna and Anthony Mooney People s Palaces Victorian and Edwardian Pubs of Scotland Edinburgh P Harris 1983 featured elaborate woodwork etched and stained glass colored tiles and literary and historical decorative themes The publican crafted a cultural environment for the working class and situated the pub as a critical actor in informing the cultural identity of late nineteenth century Scotland
