Chinese Foreign Policy Think Tanks and China's Policy Towards Japan Xuanli Liao, 2006 Examines Chinese foreign policy think tanks and their influence in China's foreign policy towards Japan between the late 1970s and late 1990s Through case studies this book demonstrates a growing pluralistic trend in post Mao China's foreign policy making process **The People's Republic of China's Latin American Policy** Le-Yi Chi, 1990 *Governance and Politics of China* Tony Saich, 2017-09-07 The success or failure of China's development will impact not only its own citizens but also those of the world China is widely recognized as a global actor on the world stage and no global challenge can be resolved without its participation Thus it is important to understand how the country is ruled and what the policy priorities are of the new leadership Can China move to a more market based economy while controlling environmental degradation Can it integrate hundreds of millions of new migrants into the urban landscape The tensions between communist and capitalist identities continue to divide society as China searches for a path to modernization The People's Republic is now over 65 years old an appropriate juncture at which to reassess the state of contemporary Chinese politics In this substantially revised fourth edition and essential guide to the subject Tony Saich delivers a thorough introduction to all aspects of politics and governance in post Mao China taking full account of the changes of the 18th Party Congress and the 12th National People's Congress Further the rise of Xi Jinping to power and his policies are examined as are important policy areas such as urbanization and the fight against corruption **China since 1911** Richard T. Phillips, 1996-03-25 A narrative history of China since the end of dynastic rule at the 1911 Revolution this book seeks in nine chapters to outline the major political developments of the last eighty years with attention also given to economic social and cultural change Although concerned

mainly with the Chinese mainland there is a full chapter on Greater China The book uses the pinyin system throughout for Chinese names By providing information about both Republican and post 1949 China the book implies that an understanding of present day China is impossible without the background of earlier events which still influence today s leaders and citizens

Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley,2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world s next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping s best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao s China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People s Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level

Bureaucracy, Politics, and Decision Making in Post-Mao China Kenneth G. Lieberthal,David M. Lampton,2024-07-26 Using a model of fragmented authoritarianism this volume sharpens our view of the inner workings of the Chinese bureaucracy The contributors interviews with politically well placed bureaucrats and scholars along with documentary and field research illuminate the bargaining and maneuvering among officials on the national provincial and local levels CONTRIBUTORS Nina P HalpernCarol Lee HamrinDavid M LamptonKenneth G LieberthalMelanie ManionBarry NaughtonLynne PaineJonathan D PollackSusan L ShirkPaul E SchroederAndrew G WalderDavid Zweig This title is part of UC

Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992 The United States and the Republic of China Steven Mosher,2017-09-08 In the interest of mutual security the United States and the Republic of China have continued to cooperate closely Both countries have kept Taiwan's military defenses strong and ensured stability in the entire region This volume considers the international status of the Republic of China and its economic and strategic partnership with the United States Dispute Resolution in the People's Republic of China Zhiqiong June Wang,Jianfu Chen,2019-12-02 Dispute resolution reforms in China in the last decade or so have all centred around the strategy of establishing an integrated dispute resolution system as part of China's modern governance system This new integrated system referred to as the Mechanism for Pluralist Dispute Resolution PDR in China serves as a dispute resolution system as well as a comprehensive social control mechanism This book is the first academic attempt to explain the methods of civil and commercial dispute resolution in China from the perspective of PDR It systematically and critically examines the development of China's dispute resolution system with each chapter analysing in detail the development and transformation of the different institutions mechanisms and processes in their historical politico economic and comparative context *Chinese Law: Context and Transformation* Jianfu Chen,2015-12-04 China has changed and the continuing changes have not just been about economic development Among the many transformations there has been another quiet peaceful and largely successful but far from perfect revolution in the area of law whose deficiencies have been more often mercilessly examined and documented than have its historical achievements and significance This legal revolution is the subject matter of the present book Like the previous edition in 2008 it examines the historical and politico economic context in which Chinese law has developed and transformed focusing on the underlying factors and justifications for the changes It attempts to sketch the main trends in legal modernisation in China offering an outline of the principal features of contemporary Chinese law and a clearer understanding of its nature from a developmental perspective It provides comprehensive coverage of topics legal culture and modern law reform constitutional law legal institutions law making administrative law criminal law criminal procedure law civil law property family law contracts torts law on business entities securities bankruptcy intellectual property law on foreign investment and trade Chinese investment overseas dispute settlement and implementation of law Fully revised updated and considerably expanded this edition of *Chinese Law Context and Transformation* is a valuable and important resource for researchers policy makers and teachers alike *Chinese Law* Jianfu Chen,2023-09-25 Law in particular its actual functioning in any given society is above all a part of the culture of that society a part of its historical political social and intellectual creation If a black letter approach towards law in the West is under increasing criticism it is particularly unhelpful if not misleading in understanding Chinese law its nature and

developments Rather to understand Chinese law its nature and developments we need to examine the Chinese legal traditions the prevailing political and economic situations Party policies on economic reform and tolerance towards political liberalisation and scholarly discussions and debate This is the approach of this book Its aim is to put Chinese law in context to outline the nature and present status of its development and to analyse the meaning of the law within the Chinese context However this monograph does not ignore the practical needs for determining the precise contents of the black letter law either A study of this kind necessarily involves a process of topic selection However to avoid over generalisation and over simplification it also demands a considerable degree of comprehensiveness in coverage For this reason the book covers what the Chinese scholars term fundamental law and basic branches of law while other topics are covered because they are either crucial for the understanding of the law such as legal traditions in China or of practical importance such as foreign investment and trade Chapter One provides an historical background to traditional Chinese legal culture and modern law reforms The historical background of specific topics is examined as the topics are analysed in the following chapters Chapter Two deals with the changing fate of law under Communist rule Its focus is on the underlying factors and justifications for such changes Chapter Three introduces discussions on specific branches of law from public law constitutional law law making administrative law criminal law criminal procedure law to private law civil law family law contracts law on business entities and law on foreign investment and trade Each of these is dealt with in a separate chapter After the analysis of these substantial topics certain conclusions are drawn which attempt to define the nature of Chinese law and its developments in present day China

China's Economic Relations with the West and Japan, 1949-1979 Chad Mitcham, 2005-09-16 During the period 1949 to 1979 communist China was officially pursuing a policy of self sufficiency and the United States and its allies were officially implementing a trade embargo against communist China However this book based on extensive original research demonstrates that China was highly dependent on Western Japanese grain imports The text shows that groups lobbying on behalf of Western Japanese grain producers and related industries had successfully found ways of by passing the embargo This book charts the complicated picture of how economic relations between China the West and Japan developed in these years

Joint Ventures in the People's Republic of China Margaret M. Pearson, 1992-09-21 When Chinese leaders announced in late 1978 that China would open to the outside world they embarked on a strategy for attracting private foreign capital to spur economic development At the same time they were concerned about possible negative repercussions of this policy Margaret Pearson examines government efforts to control the terms of foreign investment between 1979 and 1988 and more broadly the abilities of socialist states in general to establish the terms of their own participation in the world economy Drawing on

interviews with Chinese and foreigners involved in joint ventures Pearson focuses on the years from 1979 through 1988 but she also comments on the fate of the open policy following the economic retrenchment and political upheavals of the late 1980s Since the policy of opening was launched in Beijing in 1979 some Chinese leaders have favoured foreign investment while others have feared that it would carry ideas and institutions that would corrupt Chinese socialism This study of Chinese policies toward foreign invested enterprises FIFs during the 1980s broadly charts significant changes in the impact of these competing views on policy Pearson s overview and analysis provide thought provoking perspectives Pearson furnishes excellent evidence that throughout the 1980s the pressure for reform was so great that the conservatives had to retreat repeatedly despite their concerns about the decline of collectivist values and the Maoist dream Stanley Lubman The China Quarterly
