Legacies of Space and Intangible Heritage Fernando Armstrong-Fumero,Julio Hoil Gutierrez,2017-03-01 Legacies of Space and Intangible Heritage is an interdisciplinary exploration of the intersections between the study and management of physical sites and the reproduction of intangible cultural legacies The volume provides nine case studies that explore different ways in which place is mediated by social political and ecological processes that have deep historical roots and that continue to affect the politics of heritage management Spaces of human habitation are both historical records of the past and key elements in reproducing the knowledge and values that define lives in the present Practices knowledge and skills that communities recognize as part of their culture and that a range of legal statutes define as protected intangible heritages are threatened by increased migration the displacement of indigenous peoples and limits on access to culturally or historically significant sites This volume addresses how different physical environments contribute to the reproduction of cultural forms even in the wake of these processes of displacement and change Case studies from North and South America reveal a pattern of abandonment and reestablishment of settlements and show how collective memory drives people back to culturally meaningful sites This tendency for communities to return to the sites that shaped their collective histories along with the growing importance granted to intangible heritage challenges archaeologists and other heritage workers to find new ways of incorporating the cultural legacies that link societies to place into the work of research and stewardship By examining the politics of cultural continuity through the lenses of archaeology and ethnohistory Legacies of Space and Intangible Heritage demonstrates this complex relationship between a people s heritage and the landscape that affects the making of place Contributors Rani Alexander Hannah Becker Minette Church Bonnie Clark Chip Colwell Winifred Creamer Emiliana Cruz T J Ferguson Julio Hoil Gutierrez Jonathan Haas Saul Hedquist Maren Hopkins Stuart B Koyiyumptewa Christine Kray Henry Marcelo Castillo Anna Roosevelt Jason Yaeger Keiko Yoneda

Aprenda italiano. Consejos prácticos para hispanohablantes Emilio Mendoza de Gyves, 2016-01-08 El libro está dividido en dos grandes secciones. La primera destaca los aspectos esenciales de la Gramática Italiana explicados en castellano. Los temas incluidos en esta primera parte tratan específicamente diferencias entre el italiano y el español a nivel de fonética, morfología, sintaxis y semántica. En la segunda sección de la obra Miscelánea y Curiosidades se señalan algunos errores comunes en que incurrimos los hispanohablantes nuevos y antiguos estudiantes de italiano incluyendo algunas sugerencias de cómo evitarlos. Cada uno de los apartados incluye una serie de ejemplos con su respectiva traducción. La obra también presenta una larga lista de falsos amigos palabras muy parecidas entre los dos idiomas cuyos significados pueden ser ligeramente diferentes y pueden provocar confusión.

Fundamentos teórico-prácticos de un diccionario cultural bilingüe (español-chino) Yun Luan, 2018-02-20 Los llamados culturemas entendidos como palabras o expresiones específico culturales no sólo se consideran como peones de una cultura centenaria de cada sociedad sino que también son elementos fundamentales que constituyen parte de la macroestructura de los diccionarios de lengua y para la comprensión de estas palabras se requiere no sólo el conocimiento de su valor de lengua sino también de su valor connotativo en un determinado contexto cultural. Partiendo inicialmente de la necesidad del aprendizaje y la enseñanza de la llamada cultura compartida y también de la perspectiva de la comunicación intercultural entre gentes de distintas culturas la autora nos presenta una propuesta para crear un nuevo modelo de diccionario cultural bilingüe dirigido especialmente a los usuarios chinos que tengan necesidad de conocer el sentido connotativo y cultural de las palabras del español y que quieran subsanar problemas

de integraci n y comunicaci n causados por su escasa inmersi n cultural en la cultura espa ola Por tanto ese futuro diccionario cultural que propone la autora se caracteriza por su enfoque orientado al tratamiento de los conocimientos y saberes culturales y a la vez a la formaci n de las habilidades y las actitudes de los aprendices de una lengua extranjera al entrar en contacto con otras culturas

Frank Pais Jose Alvarez,2009 Even though Fidel Castro founded the 26 of July movement this book shows that the organizing throughout Cuba fell on the shoulders of an underground leader named Frank Pais who was also responsible for the survival of the incipient guerrilla force led by Castro in the Sierra Maestra Pais became not only the National Chief of Action as portrayed in the official publications but the top leader of the M 26 7 s National Directorate The antagonism between Castro and Pais may have been the reason for his mysterious death when he was only 22 years of age This is the true story of his life and legacy At this crucial time when historians are trying to arrive at the revolution s final balance a book like this is essential to read before reaching an impartial verdict

Celebrations and Connections in Hispanic Literature Andrea Morris,Margaret Parker,2009-03-26 The volume Celebrations and Connections in Hispanic Literature is itself a celebration of a tradition of scholarly dialogue in a relaxed festive atmosphere The articles included here began as papers presented at the 25th Anniversary Edition of the Biennial Louisiana Conference on Hispanic Languages and Literatures held in Baton Rouge Louisiana February 23 24 2006 Each of the authors responds in innovative ways to the idea of connecting texts contexts and genres as well as to the disconnect that is often present between what we perceive as Hispanic identity and the experience of those left on the margin Topics include Celebrating and Rewriting Difference De colonized Identities Word and Image in the Spanish Golden Age and Latin American Literature and Politics among others The collection is demonstrative of current trends in Hispanic literary and cultural criticism which are increasingly less bound by traditional regional and temporal constructs While each author s research is rooted in a specific socio historic context their combined contributions to the present volume provide a far reaching perspective that expands the notion of text to go beyond the literary and engage a multitude of disciplines it emphasizes the often illuminating connections among literary and cultural texts which can be drawn when one conceives of Hispanism and its literary and cultural fields as shaped by trends and issues rather than divided by periods and regions What strikes me most is the newness of each piece While each is very well informed none rehearses old historical or theoretical ground more

than is absolutely necessary but rather presents either a new or overlooked text or offers a new approach Leslie Bary University of Louisiana Lafayette An impressive array of well established and younger scholars has produced a volume whose scope is the entire Hispanic world extending from the Golden Age to the contemporary era This volume will be of interest to all scholars and critics of Hispanic literature as well as to historians and political scientists Many of the essays challenge traditional assumptions about the colonization of the Hispanic world as well as the motivations for the revolutions for independence whose influence is still strongly alive in contemporary treatments of fundamental questions of national identity race class and gender C Chris Soufas Jr Tulane University Introducción a la Economía Rodríguez Sánchez, Aurelio Miguel, 2021-01-19 Introducci n a la econom a de Aurelio Miguel Rodr guez S nchez aborda en su totalidad el programa de estudios vigente de la materia y mantiene el enfoque pedag gico por competencias La obra est estructurada en cuatro ejes que abordan teor as reas del derecho de suma importancia para los estudiantes En cada eje se integran interesantes actividades para realizar de manera individual y en trabajo colaborativo El libro incluye una evaluaci n diagn stica para cada eje as como su situaci n y secuencia did cticas El desarrollo de cada eje cuenta con estrategias centradas en el aprendizaje y al cierre trae una evaluaci n sumativa autoevaluaci n y una rbrica para evaluar el eje Los contenidos de esta obra posibilitan el desarrollo gradual de conocimientos y habilidades asimismo propician la disposici n al cumplimiento la participaci n y el trabajo aut nomo promueven valores que se traducen en respeto tolerancia y responsabilidad entre otros que se ala el programa *Lo Que Mis Hijos Esperan Ver En Mi* Jose A.
