interesting group of continental thinkers since the existentialists of the 1950s and which elsewhere is seen as the leading school of contemporary Right wing thought Made up of veterans from various nationalist traditionalist far Right and regionalist movements the GRECE began as an association of French intellectuals committed to restoring the crumbling cultural foundations of European life and identity Due to the quality of its publications and its philosophically persuasive reformulation of the Right project it attracted an immediate audience By the late 1970s it had recruited an impressive array of Continental thinkers to its ranks In Italy Germany Belgium and a number of other European countries there have since emerged organizations and publishing concerns either directly linked to the Paris based GRECE or involved in analogous endeavors As a result of these diffusions GRECE style identitarianism has come to form the chief ideological alternative to the regnant liberalism The European New Right to which the GRECE gave birth is new however not in the modernist sense of being novel but in the traditionalist sense of reappropriating an origin whose meaningful possibilities remain open for realization Such a revolutionary return to Europe s roots has never seemed so urgent After a half century under the liberal democratic regimes imposed by the United States in 1945 Europeans now face extinction as a race and a culture In opposition to the ethnocidal forces of the American Occupation and its European collaborators New Rightists appeal to the primordial in their people s heritage aiming to awake a spirit of resistance and renaissance in them The result as documented in this introduction to their ideas is one of the most formidable critiques ever made of the liberal project Michael O Meara Ph D studied social theory at the cole des Hautes Etudes en Sciences Sociales and modern European history at the University of California He is the author of *Guillaume Faye and the Battle of Europe* 2013 also published by Arktos [Artful Deceptions](#) Catherine Emerson, Maria C. Hybrid War Mauro Voerzio, 2021-10-04

Disinformation is a bad virus for Democracies and a vaccine can never be discovered to render it harmless With the help of everyone however we can contain it and make it less effective The book talks about the techniques used by disinformers the terminologies that are used every day by journalists and insiders whose meaning is often unknown disinformation in history the psychological aspects of disinformation case studies objectives that disinformation sets for itself Disinformation is certainly one of the most important components of the new hybrid wars A hybrid war is underway against the fundamental values of the West a hybrid war that aims to collapse the project of the European Union the largest peace project in history Recognizing disinformation and disinformers will help us recognize our enemies those who want to destroy the society we built with not a few sacrifices by our grandparents and our parents As in all wars in hybrid war there are generals and soldiers It is up to us to decide which side of the fence to stand on in this modern call to arms

Désinformation 2.0 Boris Barraud, 2018-12-05

La désinformation est depuis l'invention du langage un

moyen de faire l'histoire en influençant les opinions et les sentiments populaires Avec internet ce phénomène ne change de dimension et pose des questions inédites Les nouvelles technologies permettent aux diverses formes de manipulation de l'information de toucher de vastes publics Chaque citoyen internaute devient un acteur des manœuvres de désinformation en particulier en les relayant sur les réseaux sociaux Internet constitue ainsi une révolution de l'information mais aussi une révolution de la désinformation Or la mécanique démocratique est mise en danger par les fausses informations par les fake news La désinformation 2.0 est la fois un symptôme de la crise de la démocratie et un appel à reconstruire la démocratie
