Philosophic Roots Of Modern Ideology Liberalism Communism Fascism:

The Philosophic Roots of Modern Ideology David E. Ingersoll, Richard K. Matthews, Andrew Davison, 2001 A collection of philosophically oriented essays on the three main political ideologies of liberalism communism and fascism this book provides an overview for readers who have little or no knowledge of the basic political idea systems of modern times It offers analyses of some of the major political thinkers of the modern age Hobbes Locke Burke Jefferson Madison Rousseau Marx Lenin Gorbachev Mao Zedong Deng Xiaoping Hitler Mussolini Khomeni and more For anyone who wants a better understanding of the conflicts and actions of groups and individuals who see the world through different ideological lenses

The Philosophic Roots of Modern Ideology David E. Ingersoll, Richard K. Matthews, 1986 **The Philosophic Roots of Modern Ideology** David E. Ingersoll, Richard K. Matthews, 1991 A collection of philosophically oriented essays on the three main political ideologies of liberalism communism and fascism

The Philosophic Roots of Modern Ideology David E. Ingersoll, Richard K. Matthews, Andrew Davison, 2010 This brand new and fully updated edition builds upon nearly three decades of research thought conversation and teaching of the most powerful political ideologies of our era The Fourth Edition expands the treatment with significantly updated treatments of each ideology and new discussions of conservatism neoconservatism imperialism Islamism modernity colonialism and globalization It contextualizes and explains the ideological foundations of the American war on terrorism and ongoing developments in nation states where pivotal ideological developments are occurring especially the United States China and Iran The authors also offer fully updated introductory and concluding chapters on the ongoing significance of studying ideologies and their meaning in a new global era *Liberalism Versus Conservatism* François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author **The Nature of Revolution** James A. Tyner, 2019-01-15 The Nature of Revolution provides the first account of art and politics under the brutal Khmer Rouge regime in Cambodia James A Tyner repositions Khmer Rouge artworks within their proper political and economic context the materialization of a political organization in an era of anticolonial and decolonization movements Consequently both the organization's policies and practices including the production of poetry music and photography were incontrovertibly shaped by and created to further the Khmer Rouge's agenda Theoretically

informed and empirically grounded Tyner's work examines the social dimensions of the Khmer Rouge while contributing broadly to a growing literature on the intersection of art and politics Building on the foundational works of theorists such as Jacques Rancière, Theodor Adorno and Walter Benjamin Tyner explores the insights of Leon Trotsky and his descriptions of the politics of aesthetics specific to socialist revolutions Ultimately Tyner reveals a fundamental tension between individuality and bureaucratic control and its impact on artistic creativity and freedom

Corporatist Ideology in Kemalist Turkey Taha Parla, Andrew Davison, 2004-12-01 This book provides an informed analysis of the ideological content of Kemalism the name given to Mustafa Kemal Atatürk's party's political thought and practice and the persistently official and semi official hegemonic ideology of the Turkish Republic formally founded in 1923 Through a textual and contextual analysis of Kemalism in Atatürk's speeches and the official documents of the ruling Republican People's Party Taha Parla and Andrew Davison offer fresh interpretations of the political economic social and cultural goals of the Kemalist version of Turkish nationalism They also provide an astute analysis of the power and authority that Atatürk and his colleagues believed were necessary to achieve their implementation and of the institutions created in that process Kemalism as a democratizing and secularizing framework for modern governance is debated by illuminating Kemalism's emphatic and self conscious corporatist ideological core The authors show how Kemalism's conceptions of society national identity the relationship between the state and Islam and other fundamental political dynamics require a rethinking of its democratic secular and modernist reputation and its prospects for and barriers to a more democratic Turkey within the Kemalist legacy

The Ashgate Research Companion to Modern Theory, Modern Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

The Philosophic Roots of Modern Ideologies David E. Ingersoll, Richard K. Matthews, Andrew Davison, 2017-07-07 An introduction to modern

political ideologies for college courses in political theory and political ideologies **Ideology** David Hawkes,2004-03 With a clear focus on student needs David Hawkes traces the history of the term and the debates which surround it from Machiavelli to the present day Political Visions & Illusions David T. Koyzis,2019-05-07 In this freshly updated comprehensive study political scientist David Koyzis surveys the key political ideologies of our era unpacking the worldview issues inherent to each and pointing out essential strengths and weaknesses Writing with broad international perspective Koyzis is a sensible guide for Christians working in the public square culture watchers and all students of modern political thought *Understanding Dogmas and Dreams* Nancy S. Love,2006-02-09 Nancy Love s concise yet complete volume aims to inform students of their choices among political values By exploring the assumptions of various ideologies and comparing their positions students begin to understand political alternatives to be able to choose among them in essence they learn to think democratically Offering historical and analytic context for the selections in her companion reader *Dogmas and Dreams* Love challenges students to consider the various ways ideological frameworks shape political actions Reframing her approach in this second edition Love examines how traditional left right ideologies liberalism and conservatism socialism and fascism are shifting to adapt to new political realities in an ever turbulent post 9 11 world She also discusses why alternative ideologies feminism environmentalism fundamentalism and globalization may better convey our global political future While pushing the boundaries of the left right political spectrum she looks at how grassroots social movements offer alternative ways to view ideological differences from cluster concepts to micro discourses and even a planetary galaxy Expanded coverage includes a new chapter on nationalism and globalization which examines the work of Samuel Huntington Kenichi Ohmae Benjamin Barber and many more to explore fundamentalism in Islamic politics increased coverage of global environmental politics including Shiva s *Stolen Harvest* and Kelly s *Thinking Green* examining the relationships between developed and developing countries fresh material on socialist politics post 1989 and the rise of neo fascist movements in the United States and Europe including analysis of Hayden and Flacks *The Port Huron Statement* at 40 and Bob Moser s *The Age of Rage* an updated feminism chapter that considers the impact of third wave post colonial and so called power feminists and incorporates new analysis of Wollstonecraft s *A Vindication of the Rights of Woman* and Mohanty s *Under Western Eyes Revisited* *After Secularism* E. Wilson,2011-11-22 Having destabilized dominant assumptions about the nature of religion there is now a need to develop new ways of thinking about this ever present phenomenon in global politics This book outlines a new approach to understanding religion and its relationship with politics in the West and globally for International Relations *The Killing of Cambodia: Geography, Genocide and the Unmaking of Space* James A. Tyner,2017-05-15 Between 1975 and 1978 the Khmer Rouge carried out genocide in Cambodia unparalleled in modern history Approximately 2 million died almost one quarter of the population Taking an explicitly geographical approach this book argues whether the Khmer Rouge s activities not only led to genocide but also terraced the erasure of space In the Cambodia of 1975 the landscape would reveal vestiges of an

indigenous pre colonial Khmer society a French colonialism and American intervention The Khmer Rouge however were not content with retaining the past inscriptions of previous modes of production and spatial practices Instead they attempted to erase time and space to create their own utopian vision of a communal society The Khmer Rouge s erasing and reshaping of space was thus part of a consistent sacrifice of Cambodia and its people a brutal justification for the killing of a country and the birth of a new place Democratic Kampuchea While focusing on Cambodia the book provides a clearer geographic understanding to genocide in general and insights into the importance of spatial factors in geopolitical conflict Violence in Capitalism James A. Tyner,2016 What James Tyner asks separates the murder of a runaway youth from the death of a father denied a bone marrow transplant because of budget cuts Moving beyond our culture s reductive emphasis on whether a given act of violence is intentional and may therefore count as deliberate murder Tyner interrogates the broader forces that produce violence His uniquely geographic perspective considers where violence takes place the workplace the home the prison etc and how violence moves across space Approaching violence as one of several methods of constituting space Tyner examines everything from the way police departments map crime to the emergence of environmental criminology Throughout he casts violence in broad terms as a realm that is not limited to criminal acts and one that can be divided into the categories of killing and letting die His framework extends the study of biopolitics by examining the state s role in producing or failing to produce a healthy citizenry It also adds to the new literature on capitalism by articulating the interconnections between violence and political economy Simply put capitalism especially its neoliberal and neoconservative variants is structured around a valuation of life that fosters a particular abstraction of violence and crime **Cultus Americanus** Brent Gilchrist,2006-01-01 Cultus Americanus applies a philosophical model of political culture as ideology religion and myth to a re consideration of America s liberal consensus to explain cultural diversity in America Author Brent Gilchrist engagingly depicts a political culture that is more complex and more cohesive than has been previously maintained that will be of great interest to scholars and students of American politics and history From Post-Maoism to Post-Marxism Kalpana Misra,1998 This text chronicles Deng Xiaoping s institution of far reaching and practical economic reforms that seem at odds with Communist theory and its emphasis on ideology In fact while Deng often turned to Mao for ideological justification of his reforms those very reforms seemed to wear away to official ideology Ultimately even though the post Mao government has fostered economic growth improved standards of living and intellectual pluralism these changes have resulted in a decline on the perceived legitimacy of the regime *Leo Strauss and His Legacy* John Albert Murley,2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss s students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss s own complete bibliography and that of one of his most revered students George Anastaplo Ideology James Decker,2017-03-14 This concise introduction to the concept of ideology provides an overview of the term and considers its impact on literary theory

James M Decker analyzes the history of Western ideology from its pre Enlightenment roots to its current incarnations providing readers with both an essential overview of key terms and issues and a thoughtful assessment of some of the important critical thinkers associated with the notion including Marx Gramsci and Althusser Ideological theories are introduced within three broad categories the subjective the institutional and the political which helps students to synthesize a concept that sprawls across the traditional disciplinary lines of philosophy politics economics history and cultural and literary studies Close readings of key texts demonstrate the impact of ideology on critical practice and literary reputation Texts include Toni Morrison s *Sula* William Faulkner s *Barn Burning* George Orwell s *1984* Compact and easy to follow Decker s study finally asks are we now in a post ideological era
