Pope John Paul II And The Catholic Restoration:

Pope John Paul II and the Catholic Restoration Paul Johnson, 1982-01-01 The Legacy of John Paul II Gerald O'Collins, Michael A. Hayes, 2008-10-30 An indispensable book on the important themes present in John Paul II's theology Pope Benedict XVI has written I consider it my essential and personal mission not so much to produce many new documents but to see to it that John Paul's documents are assimilated because they are a very rich treasure the authentic interpretation of Vatican II This volume responds to that challenge in helping readers and students to understand the important themes in John Paul II's theology which is crucial because his influence is already as great as that of almost any other Pope and his teachings and writings need to be studied carefully by Christians of all denominations John Paul II's writings were prolific covering topics as important as ethics politics theology and comparative religion as well as a number of philosophical works published before he became Pope **Conservative Catholicism and the Carmelites** Darryl V. Catherine, 2001 An analysis of conservatism in the American Roman Catholic church **Ecce Educatrix Tua** Danielle M. Peters, 2009-12-01 *Ecce Educatrix Tua* discusses the Apostolic Letter *Novo millennio ineunte* NMI wherein John Paul II outlined the path the Church should adopt in the third millennium The necessity to rediscover the full practical significance of Chapter 5 of the Dogmatic Constitution on the Church *Lumen Gentium* dedicated to the universal call to holiness NMI 30 is at stake John Paul II stressed that a concrete pedagogy of holiness is required including a spiritual path without which external structures will serve very little purpose NMI 43 The Polish Pontiff invited ecclesial movements to present their original pedagogy of holiness cf NMI 31 Peters highlights the Blessed Virgin Mary as educator in a pedagogy of holiness from the teachings of John Paul II and Father Joseph Kentenich founder of the Schoenstatt Movement *Liberation Theologies* Ronald G. Musto, 2020-11-25 First Published in 1991 The following is a comprehensive scholarly bibliography of published materials on the varieties of liberation theology mostly in book form available in English It is intended as an introductory survey to this vast and quickly expanding field for the teacher and student of contemporary theology of biblical hermeneutics and to the interrelationship of politics and religion around the world It will also serve as a comprehensive bibliography *Vatican II and Phenomenology* J.F. Kobler, 2012-12-06 The thesis of this essay may be stated quite briefly Vatican II is a demonstration model of the phenomenological method employed on an international scale It exemplifies the final developmental stage postulated by Husserl of an inter subjective phenomenology which would take its point of departure not from individual subjectivity but from transcendental intersubjectivity Vatican II accordingly offers a unique application of a universal transcendental philosophy in the field of religious reflection for the practical purposes of moral and socio cultural renewal Phenomenology as a distinctively European development is relatively unknown in America at least in its pure form Our contact with this style of 1 intuitive reflection is usually filtered through psychology or sociology However Edmund Husserl The Father of Phenomenology was originally trained in mathematics and he entered the field of philosophy because he recognized 2 that

the theoretical foundations of modern science were disintegrating He foresaw that unless this situation were rectified modern men would eventually slip into an attitude of absolute scepticism relativism and pragmatism After the First World War he saw this theoretical problem mirrored more and more in the social turbulence of Europe and his thoughts turned to the need for a 3 renewal at all levels of life In 1937 when Nazism was triumphant in Germany and Europe on the brink of World War II he wrote his last major work The 4 Crisis of European Sciences and Transcendental Philosophy Popes, Councils, and Theology Owen F. Cummings,2021-06-15 Do you wish to understand something of the contemporary Catholic Church If you do then this book is for you It offers a careful overview of the history of the church from the mid nineteenth century with Pope Pius IX until the present day with Pope Francis It deals with two major councils of the church Vatican I 1869 70 and Vatican II 1962 65 Furthermore it provides a detailed and accurate summary of the major theological movements in the church during this period **Mary's Pope** Antoine Nacheff,2000 Rooted in Scripture Tradition and Redemptoris Mater and other encyclicals this book lays the foundations for understanding the teachings of the Catholic Church concerning Mary **The Modern Papacy, 1798-1995** Frank J. Coppa,2016-07-01 This ambitious survey launches a major new five volume series It explores the response of the papacy one of the world s longest enduring institutions to the multiplying challenges of the modern age It runs from the French Revolution to the fall of the Soviet Union ending with the pontificate of John Paul II the first non Italian pope since 1522 Frank Coppa examines the impact of major events like the Napoleonic conquests Italian unification two World Wars and the Cold War he explores the attitudes of the papacy to such issues as liberalism nationalism fascism communism and the modern secular age he examines the growing concern of the popes for the Catholic world beyond its traditional European home and he tackles objectively and judiciously contentious topics like the silence of Pius XII Engrossingly readable the book offers a fresh and invigorating perspective on international relations across the past two centuries and on the political and ideological emergence of the modern world as well as its specifically papal concerns **Universal Father** Garry O'Connor,2013-08-22 The first biography to tell the full and extraordinary story of one of the most influential figures of the twentieth century setting the private individual in the public context A fine enduring biography O Connor s triumph is to make the search for the soul of a papacy an enjoyable edifying and occasionally emotional journey Glasgow Herald Pope John Paul II is now universally considered to have been one of the great leaders of the twentieth century and possibly the most politically influential pope since St Peter His achievements are well documented yet he once said I can only be understood from the inside In this vivid and accessible living portrait O Connor investigates the inner man including Karol Wojtyla s life before he became Pope and his friendships with men and women subtly analysing the Pope s own poems plays and philosophical works for clues as to what made him tick It also dramatically follows his life from his birth in Poland in 1920 through the losses that shaped his childhood the assassination attempt in 1981 and his great public confrontations on the world stage right up until his death in April 2005
