Pope John Xxiii Shepherd Of The Modern World:

John XXIII Peter Hebblethwaite,2010-06-15 Angelo Roncalli was elected Pope in 1958 and in four and a half years through summoning the Second Vatican Council and putting in hand a major revision of the code of Canon Law had transformed the Roman Catholic Church Through his personality and teaching and his initiatives with world leaders he gave the papacy a new vision and set before the Catholic Church a new version of its mission to the world Today many people throughout the world see Pope John XXIII as one of the twentieth century s most loved and influential figures **Pope John XXIII, Shepherd of the Modern World** Peter Hebblethwaite,1985 Relates the boyhood and adult achievements of the Pope who called the Second Vatican Council and transformed the Church and the image of the papacy *John XXIII* Peter Hebblethwaite,1994-01-01 *Politics and the Papacy in the Modern World* Frank J. Coppa,2008-06-30 The outbreak of the French Revolution and the Industrial Revolution at the turn of the nineteenth century transformed the world and ushered in the modern age whose currents challenged the traditional political order and the prevailing religious establishment The new secular framework presented a potential threat to the papal leadership of the Catholic community which was profoundly affected by the rush towards modernization In the nineteenth century the transnational church confronted a world order dominated by the national state until the emergence of globalization towards the close of the twentieth century Here Coppa focuses on Rome s response to the modern world exploring the papacy s political and diplomatic role during the past two centuries He examines the Vatican s impact upon major ideological developments over the years including capitalism nationalism socialism communism modernism racism and anti Semitism At the same time he traces the continuity and change in the papacy s attitude towards church state relations and the relationship between religion and science Unlike many earlier studies of the papacy which examine this unique institution as a self contained unit and concentrate upon its role within the church this study examines this key religious institution within the broader framework of national and international political diplomatic social and economic events Among other things it explores such questions as the limits to be placed on national sovereignty the Vatican s critique of capitalism and communism the morality of warfare and the need for an equitable international order *John XXIII* ,2000-09-13 A new edition to mark the beatification of Pope John XXIII Angelo Roncalli was elected pope in 1958 and in four and a half years transformed the Roman Catholic Church He summoned the Second Vatican Council and put in hand a major revision of the Code of Canon Law By his personality teaching and initiatives with world leaders he gave the papacy a new image and set before the Catholic Church a new version of its mission to the world

God's Diplomats Victor Gaetan,2023-07-15 Using inside sources and extensive field reporting about the secretive high stakes world of international diplomacy Vatican reporter Victor Gaetan takes readers to the Holy See to explicate Pope Francis s diplomacy show why it works and to offer readers a startling contrast to the dangerous inadequacies of recent U S international decisions *The Concept of Justice* Thomas Patrick Burke,2011-02-24 In *The Concept of Justice* Patrick Burke

explores and argues for a return to traditional ideas of ordinary justice in opposition to conceptions of social justice that came to dominate political thought in the 20th Century Arguing that our notions of justice have been made incoherent by the radical incompatibility between instinctive notions of ordinary justice and theoretical conceptions of social justice the book goes on to explore the historical roots of these ideas of social justice Finding the roots of these ideas in religious circles in Italy and England in the 19th century Burke explores the ongoing religious influence in the development of the concept in the works of Marx Mill and Hobhouse In opposition to this legacy of liberal thought the book presents a new theory of ordinary justice drawing on the thought of Immanuel Kant In this light Burke finds that all genuine ethical evaluation must presuppose free will and individual responsibility and that all true injustice is fundamentally coercive The Pius War Joseph Bottum, David G. Dalin, 2010-03-16 In the brutal fight that has raged in recent years over the reputation of Pope Pius XII leader of the Catholic Church during World War II the Holocaust and the early years of the Cold War the task of defending the Pope has fallen primarily to reviewers These reviewers formulated a brilliant response to the attack on Pius but their work was scattered in various newspapers magazines and scholarly journals making it nearly impossible for the average reader to gauge the results In The Pius War Weekly Standard's Joseph Bottum has joined with Rabbi David G Dalin to gather a representative and powerful sample of these reviews deliberately chosen from a wide range of publications Together with a team of professors historians and other experts the reviewers conclusively investigate the claims attacking Pius XII The Pius War and a detailed annotated bibliography that follows will prove to be a definitive tool for scholars and students destined to become a major resource for anyone interested in questions of Catholicism the Holocaust and World War II *Historical Dictionary of Catholicism* William J. Collinge, 2021-08-15 This work covers the whole history of Catholicism including the periods of Christian history prior to the present divisions into Catholic Orthodox and Protestant but within the earlier periods it focuses on the story line that leads to Catholicism in the Roman Rite and particularly to Roman Catholicism in the United States The *Historical Dictionary of Catholicism* Third Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross referenced entries on important persons and places as well as themes such as baptism contraception labor church architecture the sexual abuse crisis Catholic history doctrine and theology spirituality and worship moral and social teaching and church structure This book is an excellent resource for students researchers and anyone wanting to know more about Catholicism Transnational Religion And Fading States Susanne H Rudolph, 2018-02-07 Focusing on the dilution of state sovereignty this book examines how the crossing of state boundaries by religious movements leads to the formation of transnational civil society Challenging the assertion that future conflict will be of the clash of civilization variety it looks to the micro origins of conflicts which are as likely to arise between states sharing a religion as between those divided by it and more likely to arise within rather than across state boundaries Thus the chapters reveal the dual potential of religious movements as sources of peace and security as well as of violent

conflict Featuring an East West North South approach the volume avoids the conventional and often ethnocentric segregation of the experience of other regions from the European and American Contributors draw examples from a variety of civilizations and world religions They contrast self generated movements from below such as Protestant sectarianism in Latin America or Sufi Islam in Africa with centralized forms of organization and patterns of diffusion from above such as state certified religion in China Together the chapters illustrate how religion as bearer of the politics of meaning has filled the lacuna left by the decline of ideology creating a novel transnational space for world politics
