Popular Justice And Community Regeneration Pathways Of Indigenous Reform:

Popular Justice and Community Regeneration Kayleen M. Hazlehurst, 1995-06-13 Formal justice systems have not served the human rights of native and aboriginal groups well and have led to growing national and international pressure for equal treatment and increased political and legal autonomy Indigenous activities in areas of community healing have created a fervor of interest as native peoples have shared experiences with programs that reduce addiction family violence child abuse and sociocultural disintegration of traditional communities Through ethnographic and indigenous contributions this volume penetrates the psychosocial aspects of the indigenous movement in the United States Canada Australia and New Zealand It analyzes community based reforms and shows how years of experience in adversity peacemaking and community preservation have equipped native peoples with skills they now wish to share for spiritual world healing Justice, Community and Civil Society Joanna Shapland, 2013-05-13 Over the last decade there has arisen considerable disquiet about the relationship between criminal justice and its publics This has been expressed in a variety of different ways ranging from a concern that state criminal justice has moved too far away from the concerns of ordinary people become too distant too out of touch insufficiently reflective of different groups in society to the belief that the police have been attending to the wrong priorities that the state has failed to reduce crime that people still feel a general sense of insecurity Governments have sought to respond to these concerns throughout Europe and North America but the results have challenged people's deeply held beliefs about what justice is and what the state's role should be The need to innovate in response to local demands has hence resulted in some very different initiatives This book is concerned to delve further into this contested relationship between criminal justice and its publics Written by experts from different countries as a new initiative in comparative criminal justice it reveals how different the intrinsic cultural attitudes in relation to criminal justice are across Europe This is a time when states monopoly on criminal justice is being questioned and they are being asked on what basis their legitimacy rests challenged by both globalization and localization The answers reflect both cultural specificity and for some broader moves towards reaching out to citizens and associations representing citizens **The Problem of Justice** Bruce Granville Miller, 2001-01-01 For the indigenous peoples of North America the history of colonialism has often meant a distortion of history even in some cases a loss or distorted sense of their own native practices of justice How contemporary native communities have dealt quite differently with this dilemma is the subject of *The Problem of Justice* a richly textured ethnographic study of indigenous peoples struggling to reestablish control over justice in the face of conflicting external and internal pressures The peoples discussed in this book are the Coast Salish communities along the northwest coast of North America the Upper Skagit Indian Tribe in Washington State the St lo Nation in British Columbia and the South Island Tribal Council on Vancouver Island Here we see how despite their common heritage and close ties each of these communities has taken a different direction in understanding and establishing a system of tribal justice Describing the results from the

steadily expanding independence and jurisdiction of the Upper Skagit Court to the collapse of the South Island Justice Project Bruce G Miller advances an ethnographically informed comparative historically based understanding of aboriginal justice and the particular dilemmas tribal leaders and community members face His work makes a persuasive case for an indigenous sovereignty associated with tribally controlled justice programs that recognize diversity and at the same time allow for internal dissent

Whose Criminal Justice? Katherine Doolin, 2011 The overarching theme of this book is the balance between the role of a central government in creating and shaping the regulatory framework of criminal justice and the potential for communities at a local level to become more involved in responding to crime and anti social behavior in their midst These twin dynamics are explored in the two main sections of the book Through a series of UK case studies in Part I The Regulatory State the book examines how the central state has sought to address the risks and problems associated with crime and anti social behavior

in modern times The case studies consider the new context for law and order which arose during the period and ask how and why new sanctions were put in place to regulate particular kinds of behavior They also highlight some of the unintended consequences notably the criminalization of more people In Part II Empowered Communities as Stakeholders in Criminal Justice the book explores the potential for local communities
