Fenger**

Popular Development Rethinking The Theory And Practice Of Development:

Popular Development John Brohman, 1996-09-20 This book provides a critical evaluation of development approaches both mainstream and alternative It considers how theories have been translated into policies and the practical effects of these policies in Asia Africa and Latin America It seeks to isolate those ideas and methods that have worked in practice and continue to show promise in meeting development requirements The book opens with an analysis of Keynesian and neoliberal development approaches The author describes the mixed results of their application in Latin America Africa and Asia s newly industrializing countries He also examines the evolution of postwar development in all major regions tying together economic social political and environmental factors John Brohman then looks at alternative development theories and practices He considers both their positive and negative aspects and focuses on three critical areas democratic participation and empowerment women and gender and environment and sustainability He concludes by examining whether popular development a strategy which rejects formal models can succeed in providing an approach that will meet the needs and interests of people in diverse political cultural and social conditions This book is important and timely It integrates theoretical analysis with practical experience in a wide range of development contexts Its argument is trenchant its analysis clear and its recommendations urgent It is fully referenced contains a guide to further reading and has a comprehensive index

Popular Development: Rethinking the Theory and Practice of Development Brohman John, 1996 The SAGE Handbook of Tourism Studies Tazim Jamal, Mike Robinson, 2009-07-01 The strongest overview I have encountered of the scope and the current state of research across all the fields involved in advancing our understanding of tourism For its range of topics depth of analyses and distinction of its contributors nothing is comparable Professor Dean MacCannell University of California Davis The breadth of vision and sweep of accounts is remarkable and range of topics laudable a rare combination of the authoritative the challenging and stimulating Professor Mike Crang Durham University Tourism studies developed as a sub branch of older disciplines in the social sciences such as anthropology sociology and economics and newer applied fields of study in hospitality management civil rights and transport studies This Handbook is a sign of the maturity of the field It provides an essential resource for teachers and students to determine the roots key issues and agenda of tourism studies exploring The evolution and position of tourism studies The relationship of tourism to culture The ecology and economics of tourism Special events and destination management Methodologies of study Tourism and transport Tourism and heritage Tourism and postcolonialism Global tourist business operations Ranging from local to global issues and from questions of management to the ethical dilemmas of tourism this is a comprehensive critically informed constructively organized overview of the field It draws together an inter disciplinary group of contributors who are among the most celebrated names in the field and will be quickly recognized as a landmark in the new and expanding field of tourism studies

Recovering Resources - Recycling Citizenship Jutta Gutberlet, 2016-04-08 Environmental awareness and social

mobilization is a growing issue in Latin America This book discusses how co operative recycling practices have been increasingly used as a strategy to contest both the waste problem and urban poverty Selective waste collection and sorting materials out of the garbage stream has become a widespread survival strategy for the economically excluded population While severe and chronic occupational health problems and risks are very common among the recycling workers thousands of people exclusively depend on accessing these resources By examining experiences from Brazil and other Latin American countries this book questions what can be done to improve the environment and livelihoods for these excluded citizens examines the specific health and risk implications and looks at the many innovative recycling co ops and associations which have recently emerged creating an exciting new form of solidarity economy In doing so it uncovers the landscapes of despair populated by the urban marginalized but also the landscapes of hope where solidarity and collaboration make a pathway to a better way of life

Development Theory and Practice Uma Kothari, Martin Minogue, 2001-10-30 This text provides a critical assessment of dominant features of development theory and practice in such areas as globalisation governance social development participation feminism and postcolonialism civil society environment and development management Each chapter addresses a particular approach within development by setting out the orthodoxy and critically evaluates this before engaging more constructively with the challenges presented by contemporary development This approach will give students a clearer understanding of the debates within development today

Development as Theory and Practice David Simon, Anders Narman, 2014-09-25 The first book in the DARG series Development as Theory and Practice provides the only student textbook which addresses broad contemporary perspectives and debates on development and development cooperation It introduces the notions of development and what it means from different perspectives i e from the point of view of academics in the wake of the New World Order regional specialists detached from the field Third World students of development and development practitioners The second part of the book focuses on development aid and examines the changing relationship between donors and recipients and the effects of these relationships on the wider communities in these countries and current re evaluations of aid in principle and practice Development as Theory and Practice is an ideal course text for advanced undergraduate and postgraduate courses in development aid as part of degree programmes in Development Studies Geography Politics Sociology and Anthropology It will also be of interest to researchers and development practitioners and professionals

Popular Development John Brohman, 1996-09-20 This book provides a critical evaluation of development approaches both mainstream and alternative It considers how theories have been translated into policies and the practical effects of these policies in Asia Africa and Latin America It seeks to isolate those ideas and methods that have worked in practice and continue to show promise in meeting development requirements The book opens with an analysis of Keynesian and neoliberal development approaches The author describes the mixed results of their application in Latin America Africa and Asia s newly industrializing countries He also examines the evolution of postwar

development in all major regions tying together economic social political and environmental factors John Brohman then looks at alternative development theories and practices He considers both their positive and negative aspects and focuses on three critical areas democratic participation and empowerment women and gender and environment and sustainability He concludes by examining whether popular development a strategy which rejects formal models can succeed in providing an approach that will meet the needs and interests of people in diverse political cultural and social conditions This book is important and timely It integrates theoretical analysis with practical experience in a wide range of development contexts Its argument is trenchant its analysis clear and its recommendations urgent It is fully referenced contains a guide to further reading and has a comprehensive index

The Companion to Development Studies, 2nd Edition Vandana Desai, Robert B Potter, 2013-01-22 The Companion to Development Studies is an essential one stop reference for anyone with an interest in development studies Over 100 international experts have been brought together to present a comprehensive overview of the key theoretical and practical issues dominating contemporary development studies Building on the success of the first edition the second edition of the Companion has been thoroughly revised and updated and includes new chapters on a range of topics including ageing culture and development corruption and development and global terrorism Each chapter summarises current debates and provides guidance for further reading and research The Companion to Development Studies is indispensable for students of development studies at all levels from undergraduate to postgraduate and beyond in departments of development studies geography politics international relations sociology social anthropology and economics

Governance and the Democratic Deficit Victor Bekkers, Geske Dijkstra, Menno Fenger, 2016-04-22 It is widely acknowledged that we are witnessing a major transformation of public policy making a transformation which has been labelled as a change from government to governance Governance is used to describe policy making and implementation without a central authority in a non hierarchical network like structure through negotiation and cooperation between public and private actors at one or across different political levels This comprehensive volume combines empirical analysis and normative assessment of governance practices providing a systematic approach based on a framework for assessing democratic legitimacy It addresses different modes of governance at the local regional national European and international levels The volume assesses the alleged democratic deficit of these new governance practices and as such is ideally suited to courses on public administration

Tourism and Politics Peter M. Burns, Marina Novelli, 2007-03-14 Tourism and Politics aims to disseminate ideas on the critical discourse of tourism and tourists as they relate to politics through a series of case studies from around the world written by specialists with an emphasis on linking theory to practice That tourism is a profoundly important economic sector for most countries and regions of the world is widely accepted even if some of the detail remains controversial However as tourism matures as a subject the theories underpinning it necessarily need to be more sophisticated tourism cannot be simply read as a business proposition with a series of impacts Wider questions of

politics power and identity need to be articulated investigated and answered While the making and consuming of tourism takes place within complex political milieux with multiple stakeholders competing for benefit the implications are not fully understood Literature on tourism and politics is surprisingly limited This book will make a substantial contribution to the theoretical framework of tourism
