Popular Front And Colonial Empire

Sophie B. Roberts

Popular Front And Colonial Empire:

Empires of Intelligence Martin Thomas, 2008 *Empires of Intelligence* argues that colonial control in British and French empires depended on an elaborate security apparatus Thomas shows the crucial role of intelligence gathering in maintaining imperial control in the years before decolonization

Violence and Colonial Order Martin Thomas, 2012-09-20 This is a pioneering multi empire account of the relationship between the politics of imperial repression and the economic structures of European colonies between the two World Wars Ranging across colonial Africa Southeast Asia and the Caribbean Martin Thomas explores the structure of local police forces their involvement in colonial labour control and the containment of uprisings and dissent His work sheds new light on broader trends in the direction and intent of colonial state repression It shows that the management of colonial economies particularly in crisis conditions took precedence over individual imperial powers particular methods of rule in determining the forms and functions of colonial police actions The politics of colonial labour thus became central to police work with the depression years marking a watershed not only in local economic conditions but also in the breakdown of the European colonial order more generally

The Liberal Defence of Murder Richard Seymour, 2014-04-15 A war that has killed over a million Iraqis was a humanitarian intervention the US army is a force for liberation and the main threat to world peace is posed by Islam Those are the arguments of a host of liberal commentators ranging from Christopher Hitchens to Kanan Makiya Michael Ignatieff Paul Berman and Bernard Henri Levy In this critical intervention Richard Seymour unearths the history of liberal justifications for empire showing how savage policies of conquest including genocide and slavery have been retailed as charitable missions From the Cold War to the War on Terror Seymour argues that the colonial tropes of civilization and progress still shape liberal pro war discourse and still conceal the same bloody realities

The Ends of European Colonial Empires Miguel Bandeira Jerónimo, António Costa Pinto, 2016-02-16 This volume provides a multidimensional assessment of the diverse ends of the European colonial empires addressing different geographies taking into account diverse chronologies of decolonization and evaluating the specificities of each imperial configuration under appreciation Portuguese Belgian French British Dutch

In Search of Moral Authority Van Nguyen-Marshall, 2008 *In Search of Moral Authority* The Discourse on Poverty Poor Relief and Charity in French Colonial Vietnam is a pioneering exploration of the discourses on poverty and poor relief activities in early twentieth century Northern Vietnam Treating poverty as a socially constructed idea Van Nguyen Marshall argues that poor relief was a domain where both French colonialists and Vietnamese intellectuals vied for moral authority For the French colonial officials poor relief fell within the purview of the French civilizing mission the official justification for imperialism However the colonial agenda racial prejudices and the French administrators own ambivalent attitudes toward the poor made any attempt at poor relief doomed for failure For Vietnamese intellectuals the discourse and activities on poor relief became a rallying call for patriotism nationalism and for some anti colonialism *In Search of Moral Authority* deals with social issues such as charity

and poor relief as well as the construction of national and gender identity by Vietnamese intellectuals This book is essential reading for students and specialists of Vietnamese history as well as those interested in issues of poverty public welfare and charity

The French Imperial Nation-State Gary Wilder, 2020-05-08 France experienced a period of crisis following World War I when the relationship between the nation and its colonies became a subject of public debate The French Imperial Nation State focuses on two intersecting movements that redefined imperial politics colonial humanism led by administrative reformers in West Africa and the Paris based Negritude project comprising African and Caribbean elites Gary Wilder develops a sophisticated account of the contradictory character of colonial government and examines the cultural nationalism of Negritude as a multifaceted movement rooted in an alternative black public sphere He argues that interwar France must be understood as an imperial nation state an integrated sociopolitical system that linked a parliamentary republic to an administrative empire An interdisciplinary study of colonial modernity combining French history colonial studies and social theory The French Imperial Nation State will compel readers to revise conventional assumptions about the distinctions between republicanism and racism metropolitan and colonial societies and national and transnational processes

Crises of Empire Martin Thomas, Bob Moore, Larry Butler, 2015-04-23 Crises of Empire offers a comprehensive and uniquely comparative analysis of the history of decolonization in the British French and Dutch empires By comparing the processes of decolonization across three of the major modern empires from the aftermath of the First World War to the late 20th century the authors are able to analyse decolonization as a long term process They explore significant changes to the international system shifting popular attitudes to colonialism and the economics of empire This new edition incorporates the latest developments in the historiography as well as Increased coverage of the Belgian and Portuguese empires New introductions to each of the three main parts offering some background and context to British French and Dutch decolonization More coverage of cultural aspects of decolonization exploring empire from below This new edition of Crises of Empire is essential reading for all students of imperial history and decolonization In particular it will be welcomed by those who are interested in taking a comparative approach putting the history of decolonization into a pan European framework

Colonial Metropolis Jennifer Anne Boittin, 2010-06-01 Between the world wars the mesmerizing capital of France colonial empire attracted denizens from Africa the Caribbean and the United States Paris became not merely their home but also a site for political engagement Colonial Metropolis tells the story of the interactions and connections of these black colonial migrants and white feminists in the social cultural and political world of interwar Paris and of how both were denied certain rights lauded by the Third Republic such as the vote how they suffered from sensationalist depictions in popular culture and how they pursued parity in ways that were often interpreted as politically subversive

Building a

Republican Nation in Vietnam, 1920-1963 Nu-Anh Tran, Tuong Vu, 2022-12-31 Western observers have long considered communism to be synonymous with Vietnam's modern historical experience. Eager to make sense of the North Vietnamese victory in the Vietnam War, scholars and journalists have spilled much ink on the history of Vietnamese communists. But this preoccupation has obscured the diversity of ideas and experiences that defined Vietnam in the twentieth century in which communism represented just one of many tendencies. *Building a Republican Nation in Vietnam 1920-1963* posits that republicanism shaped modern Vietnam no less profoundly than communism. Republicans championed representative government, the universal rights of man, civil liberties, and the primacy of the nation. These ideas infused the thinking of Vietnamese reformers, dissidents, and revolutionaries from the 1900s onward, including many men and women who went on to lead the struggle for independence. Republicanism was also one of the chief inspirations for the establishment of the Republic of Vietnam, also known as South Vietnam, in 1955. This interdisciplinary volume brings together eleven essays by historians, political scientists, literary scholars, and sociologists who make use of fresh sources to study the development of republicanism from the colonial period to the First Republic of Vietnam, 1955-1963. The introduction by coeditors Nu Anh Tran and Tuong Vu critically analyzes the existing scholarship on the First Republic, explains how the concept of republicanism can illuminate developments in the Saigon-based state, and situates the regime in a comparative context with South Korea. Peter Zinoman's chapter reviews the historiography on republicanism and modern Vietnam and heralds the arrival of the republican moment in the field of Vietnam studies. Several chapters by Nguyen L ng H i Kh i, Martina Thucnhi Nguyen, and Yen Vu examine the transformation of republican ideas. Nu Anh Tran and Duy Lap Nguyen explore competing concepts of democracy and the factional politics of the First Republic. The essays by Jason Picard, Cindy Nguyen, Ho ng Phong Tu n, Nguyen Th Minh, and Y Thien Nguyen analyze nation and state building efforts in the 1950s and 1960s. Collectively, the essays give voice to Vietnamese republicans, from the ideas they espoused to the institutions they built and the legacies they left behind.
