Population Dynamics Of Kenya

Colin H. Kahl

Population Dynamics Of Kenya:

Population Dynamics of Kenya National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Working Group on Kenya, 1993-02-01 This detailed examination of recent trends in fertility and mortality considers the links between those trends and the socioeconomic changes occurring during the same period **The Population Dynamics of Kenya**, 2002 **Population Dynamics of Kenya** William Brass, Carole L. Jolly, 1993 **International Population Dynamics, 1950-79** International Demographic Data Center (U.S.), 1980 **International Population Dynamics, 1950-79** United States. Bureau of the Census, 1980

Population Dynamics of Senegal National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Working Group on Senegal, 1995-02-01 This volume the last in the series Population Dynamics of Sub Saharan Africa examines key demographic changes in Senegal over the past several decades It analyzes the changes in fertility and their causes with comparisons to other sub Saharan countries It also analyzes the causes and patterns of declines in mortality focusing particularly on rural and urban differences **The 2009 Kenya Population and Housing Census: Population dynamics**, 2010 **The 1999 Population & Housing Census: The population dynamics of Kenya : analytical report**, 2001 Kenya's Population Growth and Development to the Year 2000 Simeon Hongo Ominde, 1988 States, Scarcity, and Civil Strife in the Developing World Colin H. Kahl, 2018-06-05 Over the past several decades civil and ethnic wars have undermined prospects for economic and political development destabilized entire regions of the globe and left millions dead States Scarcity and Civil Strife in the Developing World argues that demographic and environmental stress the interactions among rapid population growth environmental degradation inequality and emerging scarcities of vital natural resources represents one important source of turmoil in today's world Kahl contends that this type of stress places enormous strains on both societies and governments in poor countries increasing their vulnerability to armed conflict He identifies two pathways whereby this process unfolds state failure and state exploitation State failure conflicts occur when population growth environmental degradation and resource inequality weaken the capacity legitimacy and cohesion of governments thereby expanding the opportunities and incentives for rebellion and intergroup violence State exploitation conflicts in contrast occur when political leaders themselves capitalize on the opportunities arising from population pressures natural resource scarcities and related social grievances to instigate violence that serves their parochial interests Drawing on a wide array of social science theory this book argues that demographically and environmentally induced conflicts are most likely to occur in countries that are deeply split along ethnic religious regional or class lines and which have highly exclusive and discriminatory political systems The empirical portion of the book evaluates the theoretical argument through in depth case studies of civil strife in the Philippines Kenya and numerous other countries The book concludes with an analysis of the challenges demographic and environmental change will

pose to international security in the decades ahead
