

The population perspective on disease

- The population perspective focuses on these underlying causes, that is, on the environmental, social, cultural and economic determinants of differences in disease frequency between populations. The population perspective on disease is characterized by research to:
 1. identify variations in disease frequency in different populations, specified by place, person and time;
 2. investigate the underlying causes of disease in populations, that is, the environmental, economic, social and cultural determinants of disease; and
 3. identify societal mechanisms that affect the distribution of disease, or of risk factors for disease, in populations.

Population Perspectives

**Max K. Hecht, Bruce Wallace, Ross J.
MacIntyre**

Population Perspectives:

Health and Population, Perspectives and Issues, 2014 **Shaping Communities: Exploring Population**

Perception Wilbur Banks, Cultural Perspectives on Population unveils the intricate tapestry of beliefs practices and policies surrounding population growth across diverse cultures worldwide This insightful exploration delves into how various societies perceive and navigate the complexities of an expanding population Through a multidisciplinary lens it seeks to reveal the unique approaches ideologies and solutions implemented by different cultures grappling with this universal issue Join us on a captivating journey through a tapestry of perspectives that shape and define the global population landscape

Population Perspectives Philip Morris Hauser, 1980-01-01 **Current Catalog** National Library of Medicine

(U.S.), 1979 Includes subject section name section and 1968 1970 technical reports National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1970 **Index of NLM Serial Titles** National Library of Medicine (U.S.), A

keyword listing of serial titles currently received by the National Library of Medicine Statistical Methods for Quality of Life Studies Mounir Mesbah, Bernard F. Cole, Mei-Ling Ting Lee, 2013-06-29 On October 16 and 17 2000 we hosted an international workshop entitled Statistical Design Measurement and Analysis of Health Related Quality of Life The workshop was held in the beautiful city of Arradon South Brittany France with the main goal of fostering an interdisciplinary forum for discussion of theoretical and applied statistical issues arising in studies of health related quality of life HRQoL Included were biostatisticians psychometricians and public health professionals e g physicians sociologists psychologists active in the study of HRQoL In assembling this volume we invited each conference participant to contribute a paper based on his or her presentation and the ensuing and very interesting discussions that took place in Arradon All papers were peer reviewed by anonymous reviewers and revised before final editing and acceptance Although this process was quite time consuming we believe that it greatly improved the volume as a whole making this book a valuable contribution to the field of HRQoL research The volume presents a broad spectrum of papers presented at the Workshop and thus illustrates the range of current research related to the theory methods and applications of HRQoL as well as the interdisciplinary nature of this work Following an introduction written by Sir David Cox it includes 27 articles organized into the following chapters The Challenge of Developing Statistical Literacy, Reasoning and Thinking Dani Ben-Zvi, Joan Garfield, 2006-02-23 Research in statistics education is an emerging field with much of the work being published in diverse journals across many disciplines Locating and synthesizing this research is often a challenging task as is connecting the research literature to practical issues of teaching and assessing students This book is unique in that it collects presents and synthesizes cutting edge research on different aspects of statistical reasoning and applies this research to the teaching of statistics to students at all educational levels Unlike other books on how to teach statistics or educational materials to help students learn statistics this book presents the research foundation on which teaching should be based The chapters in this volume are written by the today s

leading researchers in statistics education This volume will prove of great value to mathematics and statistics education researchers statistics educators statisticians cognitive psychologists mathematics teachers mathematics and statistics curriculum developers and quantitative literacy experts in education and government **UNESCO, Cultural Heritage, and Outstanding Universal Value** Sophia Labadi, 2012-12-13 This book explores the international legal framework developed by UNESCO to identify and protect world heritage and its implementation at the national level Drawing on close policy analysis of UNESCO's major documents extensive professional experience at UNESCO as well as in depth analyses of case studies from Asia Europe and Latin America Sophia Labadi offers a nuanced discussion of the constitutive role of national understandings of a universalist framework The discussion departs from considerations of the World Heritage Convention as Eurocentric and offers a more complex analysis of how official narratives relating to non European and non traditional heritage mark a subversion of a dominant and canonical European representation of heritage It engages simultaneously with a diversity of discourses across the humanities and social sciences and with related theories pertaining not only to tangible and intangible heritage conservation and archaeology but also political science social theory tourism and development studies economics cultural and gender studies In doing so it provides a critical review of many key concepts including tourism development sustainability intangible heritage and authenticity *Evolutionary Biology* Max K. Hecht, Bruce Wallace, Ross J. MacIntyre, 2012-12-06 After volume 33 this book series was replaced by the journal *Evolutionary Biology* Please visit www.springer.com/11692 for further information This latest volume continues the series focus on critical reviews commentaries original papers and controversies in the field of evolutionary biology
