M.L. Delcambre, 2011-02-04 Conceptual modeling represents a recent approach to creating knowledge. It has emerged in response to the computer revolution which started in the middle of the 20th century. Computers in the meantime have become a major knowledge media. Conceptual modeling provides an answer to the difficulties experienced throughout the development of computer applications and aims at creating effective, reasonably priced, and sharable knowledge about using computers in business. Moreover, it has become evident that conceptual modeling has the potential to exceed the boundaries of business and computer usage. This state-of-the-art survey originates from the International Seminar on the Evolution of Conceptual Modeling held in Dagstuhl Castle, Germany, in April 2008. The major objective of this seminar was to look into conceptual modeling from a historical perspective with a view towards the future of conceptual modeling and to achieve a better understanding of conceptual modeling issues in several different domains of discourse, going beyond individual modeling projects. The book contains 14 chapters. These were carefully selected during two rounds of reviewing and improvement from 26 presentations at the seminar and are preceded by a detailed preface providing general insights into the field of conceptual modeling that are not necessarily discussed in any of the chapters but nevertheless aid in conceptualizing the inner structure and coherence of the field. The chapters are grouped into the following three thematic sections: the evolution of conceptual modeling techniques, the extension of conceptual modeling to a service-oriented peer-to-peer or Web context, and new directions for conceptual modeling.

My Life in the Classroom and Studio James Edward

Cleland, 2025-06-24 It has been a hope of Loyola University Chicago Professor Emeritus of Education and former School of Education dean Gerald L. Gutek to have a teacher analyze his own education according to the educational methodologies which were presented to him, and this is one goal author James Edward Cleland has with this book *My Life in the Classroom and Studio: A Teacher's Memoir*. Cleland describes those relevant methodologies he experienced while teaching at Loyola University Chicago, Notre Dame de Chicago Academy also in Chicago, and at Loyola Academy in Wilmette, Illinois, and in addition, Cleland includes significant educational experiences which informed and enriched his learning while a student at St. Norbert School in Northbrook, Illinois, and as a student at Glenbrook North High School in District 225 of the State of Illinois. The author shares how he added an architecture and design division to the Fine Arts department at Loyola Academy and hopes other schools will follow this successful model.
